**CONNECTICUT SITING COUNCIL**

**Waterbury Generation LLC Petition For  
A Declaratory Ruling No Certificate Of  
Environmental Compatibility And Public  
Need Is Required For The Construction  
Of An Electric Generating Facility And  
Associated Transmission Line Tap  
Located At 725 Bank Street, Waterbury,  
Connecticut.**

**Petition No. 831**

RECEIVED  
NOV 19 2007  
CONNECTICUT  
SITING COUNCIL

**November 19, 2007**

**MOTION FOR INTERVENOR STATUS BY  
THE CONNECTICUT LIGHT AND POWER COMPANY**

Pursuant to § 4-176(d) of the Connecticut General Statutes, The Connecticut Light and Power Company ("CL&P") hereby moves for permission to intervene in this proceeding. In support of its motion, CL&P states as follows:

1. CL&P is a specially chartered Connecticut corporation, with offices at 107 Selden Street, Berlin, Connecticut, and an electric distribution company as defined in § 16-1 of the Connecticut General Statutes.

2. CL&P operates and maintains electric transmission and distribution facilities throughout the State of Connecticut, providing distribution service to approximately 1.2 million customers.

3. In this proceeding, Waterbury Generation LLC ("WatGen") has petitioned the Connecticut Siting Council (the "Council") to approve by declaratory ruling the construction of a 96 megawatt combustion peaking facility and associated transmission line tap (collectively, the "Project").

4. Section 4-176(d) of the Connecticut General Statutes authorizes the Council to grant intervenor status in a declaratory ruling proceeding if it finds that the request for permission to intervene "states facts demonstrating that the petitioner's participation [as an intervenor] is in the interests of justice and will not impair the orderly conduct of the proceedings." For the reasons stated below, CL&P respectfully submits that its participation as an intervenor satisfies the criteria in § 4-176(d).

5. WatGen proposes, among other things, that upon completion of its proposed transmission line tap and upon receipt of confirmation that the transmission line tap has been constructed in accordance with CL&P's standards, WatGen will seek to transfer the transmission line tap, related facilities and easements to CL&P. (See Oct. 5, 2007 WatGen Petition for Declaratory Ruling at § I(B), Page 3.) For this reason, it is necessary for CL&P to participate in this proceeding in order to monitor and comment on WatGen's proposal for the transmission line tap, including any modifications to that proposal recommended by the Council and other participants in this proceeding. CL&P's participation will not impair the orderly and efficient conduct of this proceeding.

6. Correspondence and other communications in regard to this matter should be served upon the following persons:

Robert E. Carberry  
Manager - Transmission Siting and Permitting  
Northeast Utilities Service Company  
P.O. Box 270

Hartford, CT 06141-0270  
Telephone (860) 665-5426  
Fax (860) 665-5504

WHEREFORE, CL&P respectfully requests that it be granted leave to participate in this proceeding as an intervenor.

Respectfully submitted,

THE CONNECTICUT LIGHT AND POWER COMPANY
