DATE: January 10, 2008

TO: Council Members

FROM: S. Derek Phelps, Executive Director

RE: **PETITION NO. 841** – The Bridgeport Energy II, LLC petition for a declaratory ruling that no Certificate of Environmental Compatibility and Public Need is required for the proposed construction, operation and maintenance of a 350 MW Peaking Facility at the existing Bridgeport Energy Facility located at 10 Atlantic Street, Bridgeport, Connecticut.

### I. Introduction

On December 14, 2007, Bridgeport Energy II, LLC (BE) submitted a petition (Petition) to the Connecticut Siting Council (Council) for a declaratory ruling that no Certificate of Environmental Compatibility and Public Need would be required for the construction, maintenance, and operation of a 350 MW natural gas-fired generating facility to be located off of Atlantic Street, Bridgeport.

The power plant would be constructed on the southern portion of the existing Bridgeport Energy site, on a parcel of land southeast of the intersection of Russell Street and Atlantic Street. The proposed project includes two combustion turbines with a total nominal output of 350 MW. The proposal is being filed as a Petition because, in accordance with § 16-50k, it would be an electric generating facility located at a site where an electric generating facility existed prior to July 1, 2004.

### II. Proposed Schedule

Petition received	12/14/07
Completeness review	01/10/08
Pre-hearing Questions	
• Set-One Filed	01/18/08
