Dear Ms. Bachman:

Please find enclosed the ninety-first bi weekly third party environmental monitoring reports prepared by Lenard Engineering of the Colebrook South Site Wind Turbine Site (Petition 983). The areas that have been cleared have been done in accordance with the plans and conform to the conservation plan for the protection of the cryptic vernal pools documented within Wetland One. We are continuing our bi-weekly monitoring of site conditions. Also included are the two DEEP stormwater monitoring reports for May.

If you require additional information, please do not hesitate to contact me.

Sincerely,

A handwritten signature in cursive script, appearing to read "Michael W. Klemens".
