**Subject:** RE: Meeting on Wind Turbine

I apologize for the delay, but on behalf of CCM I would like to thank you for taking the opportunity to meet with us on Monday to discuss the proposed wind turbine regulations.

CCM still has concerns with some of the regulations, in particular the lack of economic interest that would be required by the developer both during the development and decommissioning of these facilities. We understand that the Siting Council does not have the authority to require these investments, however we will examine a possible legislative change to require bonding as well as allow for greater municipal input. Many of the issues raised by Fairwind and others throughout the process are shared by CCM, but we are hopeful to continue working with the Council in making necessary changes.

Best,

Mike Muszynski
