Petition No. 74  
Field Review  
Westport, Connecticut  
October 25, 1983

Chairperson Gloria Dibble Pond, Dr. James Horsfall, and Robert Erling of the Connecticut Siting Council made a final inspection of Petition No. 74, modifications to existing telecommunications facilities of the State Police Troop G in Westport.

At the Troop G Barracks in Westport, a 60' tower was replaced by an 80' structure, with the addition of a 6' microwave dish. This building is located along Route 1, a heavily developed area. The tower appears to have been constructed according to the specifications provided the Council. A dish antenna was also added to an existing facility in Wilton, with which the Westport facility communicates. Captain Ronald Mikulka of the Department of Public Safety reports that all work was done as proposed.

Final approval is recommended.
