Global Appraisal of Individual Needs

GAIN-I Training

January 24 & 25, 2012

Hartford, CT

The GAIN is a comprehensive biopsychosocial assessment that can be used with most individuals aged 12 and older.

NEW TRAINING FORMAT! GAIN-I training consists of online learning paired with 1.5 days of on-site coursework followed by a certification period consisting of practical demonstrations of GAIN interviews leading up to certification.

In addition to learning how to administer the tool, GAIN training includes an orientation to the reports used for making treatment placement and planning decisions. Attendees are eligible to become certified as GAIN Site Interviewers through Chestnut Health Systems.

REGISTRATION

Registration will be open December 9—December 21st, 2011.

Details on costs and how to register will be available by December 9th. Invoicing for training and certification fees will be handled directly by Chestnut Health Systems.
