

**Information  
for  
Prospective  
Adoptive  
Parent(s)**

The following information shall be provided verbally and in writing to assist the prospective adoptive parent(s) in making an informed decision about taking the child(ren). This information will allow the parent(s) to best meet each child's individual needs, if placement occurs. Such information shall include but not be limited to:

- Genetic Parent(s) Information (DCF-337B) and Medical Information On Genetic Parent(s) (DCF-338B).
- Information about the child contained in the child's Placement Portfolio, including placement history, all known medical and mental health information, copies of developmental records and shared content of psychological, psychiatric and neurological reports, when appropriate.
- Life Book.
- Statement of legal risk, outlining current detailed legal status including any expectations of the family and the Department.

Cross-Reference: For information about the Placement Portfolio, see Policy 36-50-2, "To Request and Make a Placement: Use of the Placement Portfolio".
