NOTICE TO CONNECTICUT WHOLESALERS

August 30, 2011

A Message from John Suchy
Division Director of Liquor Control

Today, the Liquor Control Commission approved a recommendation from the Division of Liquor Control to allow all wholesalers to deliver goods, which are ordered during the month of August 2011, through September 9, 2011.

As the state recovers from the aftermath of Hurricane Irene, the Commission noted that many parts of the state are experiencing power outages, flooding conditions, property damage, street closings, street detours, and other disruptions which impact the flow of goods and services to our liquor retailers.

It is difficult to know when these outages and disruptions will be resolved, but wanted to facilitate the safe delivery of these products on our public highways and streets.

A handwritten signature in black ink that reads "John J. Suchy".
