

666<sup>th</sup> Session

September 21, 2004

The rescheduled meeting of September 21, 2004 was held at the Board Office, 165 Capitol Avenue, Room 117 in the State Office Building, Hartford, Connecticut.

**Consumer Protection Legal Department**

**Atty. Steve Schwane advised the Board that he met with Commissioner Rodriguez and Atty. Vanessa Ramierz, who is the legislative liaison regarding the legislative package that will be submitted by the Department of Consumer Protection. The commissioner's office feels that it is appropriate that the definition of engineering should be kept separate, since this item raises controversy. The Department may breakdown the legislative package into separate categories and the Board's legislative proposal would be put under Professional Licensing, which would include architects and landscape architects. Atty. Schwane stated that there was a discussion on the importance of preparing for public hearings regarding this legislation, which is estimated to begin in February 2005 and to have one member or several members of the Board testifying at these hearings along with support from outside professional organizations. It was noted that some of the Boards, such as**

**the plumbers or electricians are very good about their people on contacting their local legislators.**

**Atty. Schwane stated that in the next couple of months, the Board should have a general discussion about who will be testifying, what kind of information the Board wants to relay at these public hearings and to have CALS and CSPE testify at these hearings.**
