

## INSTRUCTIONS FOR APPLYING FOR THE BEDDING IMPORTER LICENSE

The Connecticut definition of an importer is “*any person who imports bedding from outside the United States.*” The fee for the importer license is \$100 annually and will always expire on April 30. An importer, with the one license, can import an unlimited number of manufacturers.

However, each individual manufacturer must be licensed in the State of Connecticut with its own individual URN for the factory location. A separate manufacturer license must be completed and submitted with the fee of \$100. The importer may put their name and address in the mailing address section on the manufacturer license application if they are taking responsibility for the payment of the license and renewal.

If there are any questions relative to this license, please email the Bedding and Product Safety Unit at [dcp.productsafety@ct.gov](mailto:dcp.productsafety@ct.gov). The phone number is (860)713-6115 and the fax number is (860)706-1320.
