(Revised 5/09)

If a bond issue, provide the date and amount of the issue, and the amount available for schools; if a short term note, provide the signature date, amount of the note and amount available for schools. These data should agree with the Notice of Debt Service (form ED045) filed for this bond issue or short term note.

- Enter the requested information for each project previously or currently assigned funding through this bond or note. The first four columns must be completed for all projects, including those for which the assignment amount has not changed. The right-hand column need only be completed for projects for which total project costs have changed.
- Total the columns “Assignment Amount Previously Reported” and “Revised Amount Assigned”. The total of the “Revised Amount Assigned” column cannot exceed the “Amount available for all schools” reported above.

Note that the assigned amount for any final project must equal the amount reported on form ED049F for that project.

Certifications must contain original signatures; photocopied or “FAX” copies will not be accepted.
