

**STATE BUILDING CODE INTERPRETATION NO. I-45-00**

July 10, 2000

Your July 5, 2000 letter to me asks four repetitive questions regarding the inclusion of Section 29-263 of the Connecticut General Statutes as part of the Connecticut Basic Building Code or the State Building Code and four repetitive questions regarding the "official legal title" for various building codes adopted by the State of Connecticut.

Your requests do not seek official interpretations of the State Building Code, but rather legal and statutory information. Since I am only authorized to interpret provisions of the State Building Code, I am unable to answer your questions.
