

June 2nd.Minutes from conference call for FSC statute subcommittee

A table was created regarding our discussion regarding how to proceed with the subcommittee. We had discussed the following:

1. Break down the responsibilities of the statute.
2. Acknowledge accomplishments in relation to the statute. We will wait for the accomplishments committee to complete their work and insert in the table.
3. Develop action statements for each responsibility
4. Develop priorities that the council will act upon

I hope the table captures visually what the committee's intent was. In the meantime please jot down any suggested action statements and I will compile. Let know if any have issues with the attachment. I will have is posted on the web.
