This is a workshop for all families concerned with the safety of their ASD children/teens/adults, as well as providers.

This will be a workshop on ASD Risk and Safety. All of the most important areas of concern will be covered. One area Mr. Debbaudt will concentrate on is Internet Safety. This is a concern that we at the Center deal with quite a bit. Our presenter will help you to learn to identify areas of risk and he will provide proven strategies to help you and your child/teen/adult manage ASD risks at home, school and in the community.

Mr. Debbaudt is a parent of a young independent adult with ASD. He knows first hand the social risks and dangers out there for our children/teens/adults.

This will be an interactive workshop, so bring your questions and ideas. Our hope is that you will leave with a blueprint to put a safety plan in place.

This is a rare opportunity to have one of the best in the field of ASD Safety.
