

Statewide CCH Rate Meeting  
Minutes January 9, 2013

PRESENT: Sheryl Kemp, Peter Mason, Catherine Veroneau, Tim Lavoie, Kathy Calo, Jeannine Pettinico

❖ LON Crosswalk W/CCH Rate Checklist

Supervision Hours	CCH Level	LON Level	PRAT
>24	Level I	1, 3	Minimum
24	Level II	3, 4	Moderate
24 comp	Level III	5, 6, 7, 8	Comprehensive

- What is level (# hrs. to be left alone)-to determine > 24 hours
- Have to give parameters
- Never been defined

❖ Physical Self Maintenance Scale

- Used to get better picture of physical needs
- Score Domains A – F (A=toileting, B=feeding, C=dressing, D=grooming, E=physical ambulation, F=bathing)

❖ Review of LON

- Took a sample of 12 people with LON 1 & 2
- Look at common indicators
- Not create new tool, but a subset of questions that result in a CCH score
- Identify elements that would indicate the need for a higher level of supervision
- Total raw score – then determine break-off for the different rates
- Should LON 1 – 2 be limited to Rate 1
- Much discussion on amounts attached to rates ~ do they need to be adjusted at the various LON levels – if so, what would funding impact be
- If we go with LON levels to determine rates – URR would be for exceptions to move to a higher rate
- LON should work for majority ~ URR should be very few

❖ Recommend following:

- LON scores to readjust to Rate 1, 2, & 3 – the cost. Tim O'Brien analyzed current data (handout)
- Changing contract language
- South Region \* Determine how many need to go to URR
- RN language for CTV Contract
