Provider Profile

Hi, I'm Bob Whitney; I provide behavioral assessments, develop teaching strategies and train family members and support staff assisting persons with developmental disabilities. I retired from the DDS family support division in June of 2009 and have over thirty years experience as a Developmental specialist (Behavior Analyst). I have worked with adults and children diagnosed with autism spectrum disorder (ASD), Down syndrome, Rhetts Syndrome, Fragile X Syndrome, Prader-Willi Syndrome as well as a number of other disorders that are associated with behavioral difficulties. I conduct evaluations and create treatment plans for persons exhibiting such behaviors as self injurious behavior (SIB), pica, aggressive behavior, AWOL and other interfering behaviors. I have also coauthored a number of research articles and book chapters in the areas of behavioral treatment and functional analysis. I develop user friendly evaluations, teaching strategies, and data systems to minimize behavioral excesses and encourage positive replacement behaviors.

As a member of treatment teams I am well experienced in coordinating treatment approaches with school systems day programs and other more structured settings to insure that successful methods already learned are translated to the home setting. I am also prepared to work with health care providers and will assist families in providing information to doctors prescribing medications to address behavioral excess.

I look forward to working with you and your family
