

**Connecticut Department of
Energy & Environmental Protection**

Latitude and Longitude

Applicant Name:

Method of latitude and longitude determination (check one):

- Global Positioning System (GPS)
 USGS Map
 Other (please specify)

In the table below, label each point for which latitude and longitude were measured, being consistent with identification numbers assigned throughout the application (e.g., 100, 101, etc.). For renewals or modifications of existing permits, please provide the existing permit number. Also provide: a brief description of the point (e.g., monitoring well, pipe outlet, air stack, etc.); latitude and longitude in degrees, minutes and seconds (e.g., 41E 16' 29"); and the name of the USGS quadrangle map(s) the points described are located on.

| ID Number | Permit Number | Description | Latitude | Longitude | Quad Map Name | For DEEP Use Only: GIS ID |
