Subject: Stamford Boat Yard Application for Magee Ave.
Date: Thursday, February 21, 2013 10:16:08 PM

Dear Mr. Collette,

I would like to add my objections to this plan. I see this application as the tip of an iceberg. It is the effort of the BLT group to avoid having to restore the 14.4 acre boat yard that they illegally destroyed so that they could install the Bridgewater Hedge Fund Group on the property despite the fact that this land is mandated and registered as a shipyard.

Above and beyond the fact that Magee avenue would be totally inadequate for the reasons, I am sure have already been filed for your examination, this application is based on a illegal" Letter of Intent" from our lame-duck Mayor, Mr, Pavia. It is highly unlikely that this letter will be rubber stamped by the various local committees that have to approve the disposition of public park land to a commercial developer. The citizens of Stamford are completely aghast at this unilateral action of Mr. Pavia's and am sure they will not allow it. The attitude here is that there is an unholy conspiracy in place!.

In as much as the BLT group will never have water access available to their Magee Avenue land this application is not valid.
