Re: Stamford Boat Works
Permit No. 201207377-KB

Dear Ms. Bellantuono:

I am a long time resident of the South End and a member of the NRZ located in Stamford Connecticut. The NRZ is a local organization comprised of home owners and businesses in the South End of Stamford.

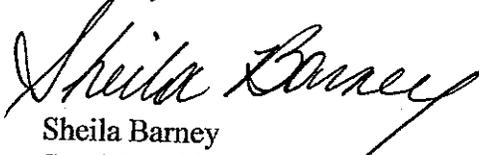

The NRZ have worked very closely with BLT over the years on its redevelopment of our neighborhood and are very pleased with the results.

I am writing to support the application to develop a boat yard at 205 Magee Avenue. The 205 Magee property is located in an industrial neighborhood and this use is appropriate in that location.

I have attached a petition we circulated here in our neighborhood. As you can see many people support this new boat yard.

We support BLT and ask that you approve this application.

Sincerely

Sheila Barney
South End NRZ Member/Resident
