Office of Adjudications

IN THE MATTER OF : *GENERAL PERMIT*

*GENERAL PERMIT TO LIMIT INCOMPATIBILITY
EXCESS EMISSIONS AND PROVIDE AN
EXEMPTION FROM STAGE II REQUIREMENTS
(VAPOR RECOVERY SYSTEMS)* : *JUNE 25, 2013*

NOTICE OF TERMINATION

On June 24, 2013, DEEP staff filed a motion to terminate this proceeding on the ground that it has permanently suspended the issuance of the above-listed general permit. This suspension was the result of Public Act 13-120, which mandates decommissioning of all Stage II vapor recovery systems at gasoline dispensing facilities as of July 1, 2015, and renders this general permit unnecessary.

Because the process to issue the permit that was the subject of this hearing has ended, this proceeding is terminated. This matter will be removed from the docket of this office.

A handwritten signature in blue ink, appearing to read "JD", written over a horizontal line.
