Exploring Climate Solutions Webinar Series

Brought to you by the *Governor's Council on Climate Change (GC3)*

The GC3'S **Exploring Climate Solutions** webinar series explores innovative and successful climate change solutions across Connecticut and the nation. The series provides you with first-hand accounts of high-profile municipal climate programs, climate initiatives in the corporate world, greenhouse gas reporting frameworks, statewide sustainability programs, and low-carbon fuel initiatives.

In our upcoming **November 16th 1 PM webinar**, participants will learn about **the Equity Work Group from the City of Portland, Oregon**. As a part of the city's Climate Action Planning, the Equity Work group was tasked with identifying opportunities to enhance the benefits of climate change programs and policies for all residents -- and avoid potential negative impacts or missed opportunities for communities of color and low-income populations. The Working Group also provided the city with recommendations on "climate equity metrics" to help measure progress toward equity while achieving the goals of the Climate Action Plan.

Please join us to learn more about this innovative initiative by registering **here**.
