1. Respondent owns, leases, operates, or controls a gasoline dispensing facility ("facility") at 1758 East Main Street in Torrington, Connecticut.
  2. At the facility, gasoline is dispensed from the stationary storage tank (s) into the fuel tanks of motor vehicles. Such gasoline is transferred using a Stage II vapor recovery system ("Stage II system"). A properly operating Stage II system is required by Section 22a-174-30(b)(5) of the Regulations of Connecticut State Agencies ("Regulations").
  3. Pursuant to Section 22a-174-30(e)(2) of the Regulations, a Stage II test is required to be conducted and approved to verify that the Stage II system is properly operating.
  4. Pursuant to Section 22a-174-30(e)(4) of the Regulations, a station that has not passed the Stage II test is not considered to be properly operating.
  5. The Respondent was required to conduct and pass such testing requirements by 12/29/2011.
  6. The Respondent has failed to pass such testing requirements and, therefore does not have a properly operating Stage II system.
  7. By virtue of the above, the Respondent is in violation of Section 22a-174-30(e)(2), Section 22a-174-30(b)(5) and Section 22a-174-30(e)(4) of the Regulations.
- B. With the agreement of the Respondent, the Commissioner, pursuant to Sections 22a-6, 22a-171, 22a-174, 22a-177, and 22a-178 of the Connecticut General Statutes, orders as follows:

1. Within sixty (60) days of the issuance of this Consent Order, the Respondent shall perform the required Stage II testing in accordance with the testing methods specified under Section 22a-174-30(e) to verify the facility has a properly operating Stage II system.
2. At least seven (7) business days prior to conducting such testing, the Respondent shall notify the Commissioner in writing of the date and time of such testing and shall allow representatives of the Commissioner to be present during such testing.
3. Within seven (7) days after completing such testing, the Respondent shall submit to the Commissioner for his review and written approval, a report including the results of such testing and all documentation necessary to verify said results.
4. If a Stage II system fails the test required by Paragraph B.1. of this Consent Order as determined by the Commissioner, such system shall be deemed not properly operating. Within fifteen (15) days of such failure, the Respondent shall submit in writing the reasons for system failure and the means by which the problem will be corrected. Within forty-five (45) days of such failure, the Respondent shall correct the problem and perform a retest of the Stage II system in accordance with the testing methods specified under Section 22a-174-30(e) of the Regulations to verify the facility has a properly operating Stage II system. The facility shall demonstrate compliance with Section 22a-174-30 of the Regulations or cause such facility to cease dispensing gasoline until the Commissioner determines that such Stage II system is properly operating at the facility.
5. Full compliance. The Respondent shall not be considered in full compliance with this Consent Order until all actions required by this Consent Order have been completed as approved and to the Commissioner's satisfaction.
6. Civil penalty.
