**2017 MARINE FISHERIES INFORMATION CIRCULAR**  
Commercial and Recreational Fishing in Marine Waters  
Lobstering and Crabbing in Marine Waters  
Commercial Fishing in the Inland District

**INTRODUCTION**

**IMPORTANT NOTE: Commercial fishery licensing statutes were amended in 2015 (Public Act 15-52) creating some new license types and mandating annual renewal of moratorium licenses commercial fishing vessel permits and quota managed species endorsements. PLEASE SEE Page 1 General Provisions for important details.**

This circular is provided to inform commercial and recreational fishermen about Connecticut statutes and regulations that govern the taking of lobsters, marine and anadromous finfish, squid, whelk (conch) and crabs using commercial fishing gear or for commercial purposes. For information pertaining to oysters, clams and bay scallops, contact local town clerks or the Department of Agriculture, Bureau of Aquaculture (203-874-0696).

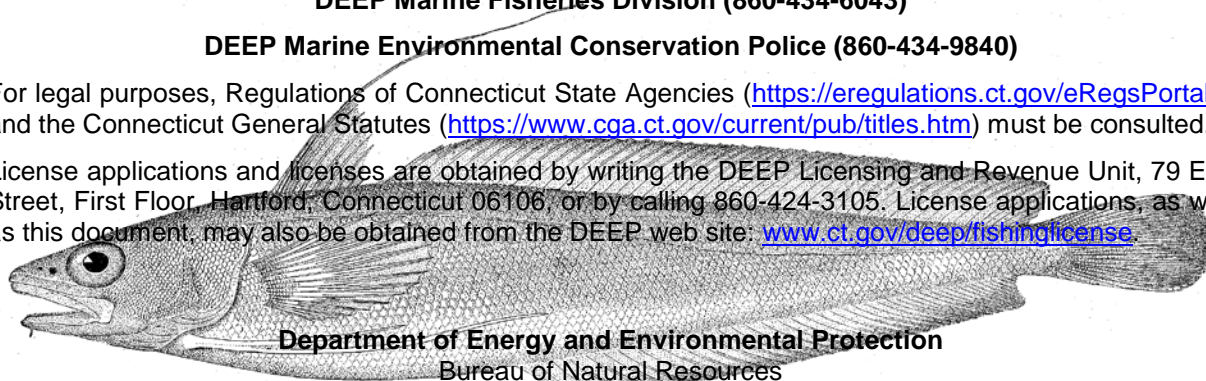

The circular is intended to be a layman's summary. No attempt is made to employ the exact wording of statutes or regulations or to provide a complete listing of them. Interpretation or explanation of the material contained herein may be obtained from a Connecticut Environmental Conservation Police Officer, or from the following sources:

**DEEP Marine Fisheries Division (860-434-6043)**

**DEEP Marine Environmental Conservation Police (860-434-9840)**

For legal purposes, Regulations of Connecticut State Agencies (<https://eregulations.ct.gov/eRegsPortal/>) and the Connecticut General Statutes (<https://www.cga.ct.gov/current/pub/titles.htm>) must be consulted.

License applications and licenses are obtained by writing the DEEP Licensing and Revenue Unit, 79 Elm Street, First Floor, Hartford, Connecticut 06106, or by calling 860-424-3105. License applications, as well as this document, may also be obtained from the DEEP web site: [www.ct.gov/deep/fishinglicense](http://www.ct.gov/deep/fishinglicense)

**Department of Energy and Environmental Protection**

## Staying informed

The Marine Fisheries Division offers several options for the public to stay informed regarding commercial fisheries management, including in-season possession and landing limit adjustments for quota managed species, notice of public hearings, reminders of open/closed seasons and other pertinent information.

### Please use one or more of the following methods to stay informed:

1. Join our email distribution list (listserv). To do this:
  - Address an email to [listserv@list.ct.gov](mailto:listserv@list.ct.gov).
  - You may leave the subject line blank.
  - In the body of the email, type the words: *subscribe DEEP\_marine\_fisheries* then leave one space and then type in your full name (all of this must appear on the same line).
  - **Note:** If you have an e-mail signature, header, and/or footer set up to be automatically included in your emails, you will need to delete these before sending the subscribe request.
  - After you send the email, you will receive an email indicating that you have successfully subscribed to the listserv.
2. **Call our 24 hour Commercial Fishery Possession Limit Phone Line at 860.434.6374 to hear a recording of the current quota managed species (summer flounder, scup and black sea bass) trip limits and other recent changes.**
3. If you are a commercial fisherman or seafood dealer you can receive text message notification of trip limit changes for quota managed species. To do this:
  - Send a letter or email to the Marine Fisheries Division (see below).
  - Indicate your desire to be added to the Quota Monitoring Text Message distribution list.
  - Include your Name, Conservation ID number, cellular telephone number, cellular provider (Verizon, AT&T, Sprint, etc.).
  - Indicate whether you are a commercial fisherman, seafood dealer or both.
4. Check the current commercial fishery trip limits for Connecticut by visiting the commercial trip limits webpage at [www.ct.gov/deep/TL](http://www.ct.gov/deep/TL).
5. Call the Marine Fisheries Division (see below) between the hours of 8:00 AM – 4:30 PM Monday through Friday.

**Remember, the Marine Fisheries Division does not routinely distribute notices to fishermen through broad postal mailings.** So, please take advantage of the methods provided above to stay current on commercial fishing related news and information in our state.

If you have any questions or problems joining the email distribution list, contact the Marine Fisheries Division by phone at 860.434.6043 or by email at [deep.marine.fisheries@ct.gov](mailto:deep.marine.fisheries@ct.gov).

## General Provisions

### 1. **IMPORTANT LICENSING CHANGES.**

The following changes were made by Public Act 15-52 in 2015 to commercial fishery licensing in order to address concerns related to overcapacity in some of our fisheries balanced with the need to provide modest new opportunities for current fishermen to diversify in the fisheries they participate in and for new entrants to have modest opportunities to enter commercial fishing for the first time in 20 years. Reporting requirements have also been strengthened to be more consistent with the needs of modern fishery management, especially for state quota-managed species where late reporting can lead to overages which the entire fishing community has to pay back during the next fishing year.

- a. **ALL LIMITED ACCESS (MORATORIUM) LICENSES REQUIRE ANNUAL RENEWAL:** Principal Commercial Fishing Licenses, Commercial Lobster Pot Fishing Licenses, General Commercial Fishing (Finfish) Licenses, and State Quota Managed Species Endorsements must be renewed annually by March 31<sup>st</sup>. In addition, the Commercial Fishing Vessel Permit for the vessel associated with that limited access license must also be renewed annually. Limited access licenses not meeting both of these renewal requirements will be retired and no longer eligible for renewal. See the Limited Access Licenses & Endorsements section (page 6) for more details.
- b. **SPECIES ENDORSEMENTS REQUIRE ANNUAL RENEWAL. FEE.** There is an annual \$15 fee to renew each state quota managed species endorsement (black sea bass, scup, summer flounder and horseshoe crab hand-harvest endorsements). Annual renewal by March 31<sup>st</sup> is required, otherwise the endorsement will be retired. See the Quota-Managed Species Endorsements (NEW LICENSE REQUIREMENT) under Limited Access Licenses and Endorsements.
- c. **LICENSE TRANSFERS.** Active limited access licenses (Principal Commercial Fishing, Commercial Lobster Pot Fishing and General Commercial Fishing (Finfish)) remain eligible for transfer provided they meet the required 30 days of fishing activity in five of the last eight years requirement however, resident fishing licenses may only be transferred to another Connecticut resident. Non-resident licenses also remain transferrable.
- d. **NEW OPEN ACCESS LICENSE AVAILABLE:** Fee \$125 Resident / \$250 Non-resident. To fish commercially using hook and line, or to use a gill net up to 200 feet in length - to take menhaden only. See the Restricted Commercial Fishing License (NEW OPEN ACCESS LICENSE) under Open Access Licenses (page9) for more details.
- e. **NEW OPEN ACCESS LICENSE AVAILABLE:** Fee \$125 Resident / \$250 Non-resident. To fish up to 50 lobster pots commercially. **IMPORTANT:** A current commercial lobster pot allocation is required to use this license. See the Restricted Commercial Lobster Pot Fishing License (NEW LICENSE) under Open Access Licenses (page 9) for more details.
- f. **LOWER FEE for PERSONAL USE LOBSTER FISHING LICENSE.** The fee for this license was reduced from \$120 to \$60 in 2016.
- g. **WHELK (CONCH) FISHING LICENSE.** Effective January 1, 2016 a DEEP-issued whelk fishing license is required to possess or land more than one-half bushel of whelk daily. The fee remains \$100. See Commercial Whelk (conch) Fishing License (NEW DEEP LICENSE REQUIREMENT) for more details (page 12).
- h. **REPORTING.** See Required Reports and Report Confidentiality on pages 2 and 3 for important updated laws incorporating PA 15-52 language including new confidentiality guidelines and penalties for failing to report or for falsifying reports.
- i. **PENALTIES.** The penalties for serious violations have increased, particularly for repeat offenses and violations of quota-managed species possession limits. For example, exceeding the possession limit for summer flounder by (the greater of) 20% or 50 pounds will result in revocation of the vessel's Commercial Fishing Vessel Permit. Violations that have historically resulted in revocation of the vessel permit (and will continue to) include possession of ten or more eger lobsters, or possession of substantial numbers of finfish below the minimum length.
- j. **TERMINOLOGY.** The names for some license types have changed. For example a Commercial Fishing License is now called a Principal Commercial Fishing License. The Finfish License is now called a General Commercial Fishing (Finfish) License. The two new licenses are the Restricted Commercial Fishing License and Restricted Commercial Lobster Pot Fishing License. The fishing privileges associated with the original licenses remain unchanged, while the added licenses offer new opportunities for commercial fishermen on a limited (restricted) level. See Table 1 on page 2. These and other commercial fisheries related definitions found in statute are included in Appendix IX.

**Table 1. Summary of new license names and annual renewal requirements.**

Old License Name	New License Name	Access	Renewal Deadline
Commercial Fishing	Principal Commercial Fishing <sup>1</sup>	Limited	March 31 <sup>st</sup>
Commercial Lobster Pot	Commercial Lobster Pot Fishing <sup>1</sup>	Limited	March 31 <sup>st</sup>
Commercial Finfish	General Commercial Fishing <sup>1</sup>	Limited	March 31 <sup>st</sup>
Fluke, Scup, Black Sea Bass Endorsement Letter	Quota-Managed Species Endorsement	Limited	March 31 <sup>st</sup>
Horseshoe Crab Hand Harvest Endorsement Letter	Quota-Managed Species Endorsement	Limited	March 31 <sup>st</sup>
Commercial Landing	Commercial Landing Vessel Operator	Open	None
Commercial Fishing Vessel Permit (CFVP)	Commercial Fishing Vessel Permit	Open	December 31 <sup>1</sup>
NEW	Restricted Commercial Fishing	Open	None
NEW	Restricted Commercial Lobster Pot Fishing (Trap Allocation Required).	Open	None
Conch License (Formerly issued by the CT Dept. of Agriculture).	Whelk Fishing	Open	None
1. Holders of Principal Commercial Fishing, Commercial Lobster Pot Fishing and General Commercial Fishing (Finfish) Licenses MUST ALSO purchase a Commercial Fishing Vessel Permit annually to preserve their Limited Access license renewal privileges. Renewal of both the Limited Access License AND a Commercial Fishing Vessel Permit demonstrates the license holder's intent to continue active involvement in the fishery.			

2. **License Moratorium:** By Act of the Connecticut General Assembly, the issuing of Principal Commercial Fishing Licenses (lobster pot fishing, otter trawling) Commercial Lobster Pot Fishing Licenses, and General Commercial Fishing (Finfish) Licenses (gill nets, commercial angling, fish pots, eel pots, trap nets, beach seines, scoop nets for commercial purposes) is prohibited unless the *applicant* held such a license or registration from June 1, 1995, through December 31, 2003 and purchased that license by March 31 in the previous year. Specific exceptions apply in the case of permanent transfers of a Commercial Fishing License, a Commercial Lobster Pot License, or a Commercial Finfish License. In cases of temporary incapacity of the license holder, the commissioner may temporarily reissue a license to a member of the license holder's immediate family or to a crew member. A re-issued license is valid only for the duration of the temporary incapacity, not to exceed 12 months. Contact the Marine Fisheries Division for further information.
3. **Carrying Licenses:** Personal use lobster and menhaden gill net licenses and all commercial fishing licenses and fishing registrations must be carried during all times that the license or registration holder is engaged in the permitted activity. Divers and others taking lobsters without the use of a boat and General Commercial Fishing (Finfish) License holders taking fish without the use of a boat must have their license available for inspection at their shore-based point of diving or fishing.
4. **Display of CT FISH Plates:** Except as otherwise noted, a numbered license plate will be issued with each license or registration and must be displayed from all vessels engaged in a licensed activity.
5. **Required Reports:** With the exception of the Commercial Fishing Vessel Permit and the Party or Charter Fishing Vessel Registration, all license and registration holders are required to submit fishery reports. Reports must be completed as indicated on the forms received with the fishing license or registration. Any person failing to report as required shall have committed an infraction and shall be subject to license suspension under the provisions of Section 26-61 of the General Statutes. Reporting requirements and penalties for failing to report apply to all persons engaged in a licensed activity, even if they have been operating without a license. Any person who falsifies a report of a quota-managed species landing, sale or purchase shall have committed a class D misdemeanor and shall be subject to license suspension under the provisions of Section 26-61 of the General Statutes. **Fishermen are required to submit a complete catch report detailing the catch, effort and landing activities associated with:**
  - all landings made in Connecticut regardless of where the fishing takes place; and
  - all fishing in Connecticut waters regardless of where the landings take place.

If no such fishing activity took place during the reporting period, fishermen must still submit a report indicating *Did Not Fish*.

Fishermen who sell their catch out-of-state, on consignment, or directly to the public, must report those transactions (date, port landed, quantity, price, market category and disposition) to the DEEP. In the case of direct sales to the public or sales out of state, modifications have been made to the logbook to eliminate the need for a separate dealer report. If you are selling on consignment, you must contact the DEEP Marine Fisheries Division for further information on how to report.

**Seafood dealers are required to report all purchase transactions from fishermen who landed catch in Connecticut, no matter what waters that catch was taken from.** Dealers must submit a report indicating *None purchased* if no such purchases were made during the reporting period. Seafood dealers who also hold a federal permit are required by federal regulations to report electronically. Since that data is shared with the DEEP, such dealers do not have to submit paper reports to the DEEP. They are however, bound by DEEP timeliness requirements and subject to the consequences of delinquent reporting.

6. **Report Confidentiality:** All mandatory fishermen reports, shellfish data and marine fishery sampling data collected by the department or voluntarily submitted to the department are protected by state Statute and treated confidentially. Total landings and effort figures are provided to the National Marine Fisheries Service to be included in a national compilation of statistics. Individual fisherman or Seafood Dealer records, by law, cannot be released to anyone without the consent of the license holder. The identity of persons holding any endorsement, license, permit or registration is a matter of public record. By law, catch or landings data summarized by species, month and statistical reporting area constitute a public record. For example bluefish landings by month for Long Island Sound (statistical area 611) may be reported publicly. Monthly landings by species and sub-area (e.g. logbook area 1) remains confidential and cannot be publicly disclosed.
7. **Fishing in Federal Waters:** For information on fishing for, landing, or possession of fish, lobsters, squid and sea scallops taken from federal waters, contact DEEP Marine Fisheries (860-434-6043) or NOAA Fisheries at 978-281-9300. For rules regulating fishing for Atlantic bluefin tuna, or other Atlantic tunas, contact NOAA Fisheries at 1-888-USA-TUNA (1-888-872-8862) or see online at [hmspermits.noaa.gov](http://hmspermits.noaa.gov). For billfish or shark information, contact NOAA Fisheries at 1-800-894-5528.
8. **Boating Safety and Education Information:** There are a number of boating safety requirements in effect in Connecticut. For further information, contact DEEP Boating Education at 860-434-8638 or DEEP Marine Environmental Conservation Police at 860-434-9840.
9. **Research Set-Aside:** No person shall take any species from Connecticut waters under the Research Set-Aside (RSA) Program of NOAA Fisheries during a closed season or in excess of the possession limits. Vessels that are landing a species under the RSA Program from federal waters are exempt from the Quota-Managed Species Endorsement requirements for that species and from possession limits and closed seasons for that species, other than those specified by NOAA Fisheries for the RSA program.

**On trips where fish will be landed under the RSA program, the vessel operator must, prior to departure and again prior to landing, contact the DEEP Conservation Police at 860-424-3503 and provide:**

- the vessel's name;
- the vessel's federal permit number;
- the captain's name;
- the departure date and time;
- the estimated return date and time;
- the intended port of landing; and
- the RSA species;

## What type of license do I need?

### ***Recreational Fishing***

In the marine district; a recreational marine waters fishing license (MWFL) is required of any person age 16 or older fishing from shore or private boat:

1. To take or assist in taking any fish, squid or bait species by angling, spearfishing or snagging. The sale of any species is prohibited. See Appendix III: Demarcations between the Marine and Inland Districts and General Provisions – Recreational Fishing (page 17).
2. To take, for personal use only, menhaden, hickory shad, sea herring, eels, lampreys, and bait species by the use of:
  - cast nets;
  - minnow traps not more than 20 inches long and 15 inches in diameter;
  - scoop or scap nets not more than 36 inches in diameter;
  - umbrella nets not more than four feet in length by four feet in width;
  - seines not more than 30 feet in length; and
  - no more than two eel pots.
3. No fishing license is required in either the Inland or Marine Districts to take blue crabs for personal consumption. A Commercial Blue Crab Fishing License is required if the crabs are sold.
4. A Personal Use Lobster Fishing License is required to take lobsters. Authorized gears include up to 10 lobster pots and hand harvest including by skin or SCUBA diving. Sale is prohibited.
5. A Personal Use Gill Net Fishing License is required to take menhaden by gill net. The gill net may not be more than 60 feet in length. No species other than menhaden may be taken. Sale is prohibited.

### ***Commercial Fishing***

A commercial fishing license is required to take or land any regulated species, i.e.: finfish, crustaceans, sea scallop, squid, horseshoe crab, whelk or bait species (see Appendix IV: Bait Species) for commercial purposes or to use any commercial fishing gear to take regulated species whether for personal use or for sale.

“Commercial fishing gear” as defined in 26-1(8) of the Connecticut General Statutes means any equipment commonly used to take regulated species, i.e. finfish, crustaceans, sea scallops, squid, horseshoe crabs, whelk or bait species for commercial purposes including, but not limited to, lobster pots, otter trawls, beam trawls, balloon trawls, mid-water trawls, sea scallop dredges, scoop nets, scap nets, seines, trap nets, fyke nets, crab traps, gill nets, trammel nets, set lines, long lines, hook and line, and if such fishing is conducted for commercial purposes, minnow seines, minnow traps, eel pots, fish pots, pound nets, throw nets or similar devices and any equipment listed as commercial fishing gear in regulations adopted by the Commissioner of Energy and Environmental Protection.

### ***For-Hire Fishing, Eco-Tourism***

A registration or permit is required to offer a vessel for a fee to serve as a platform for recreational fishing (Party or Charter Fishing Vessel Registration) or for purposes of education, observation and retention of marine or estuarine species collected using commercial fishing gear (Environmental Tourism Vessel Permit). A Hunting and Fishing Guide Registration is required to provide hunting and/or fishing guide services in this state.

Please refer to the table below for the type of license required for a given activity.

**Table 2. License Type Required by Activity**

<b>Recreational (sale prohibited) in the marine district</b>			
<b>Activity</b>	<b>License required</b>	<b>CFVP<sup>4</sup> Required</b>	<b>Page</b>
Taking blue crabs, squid	No license required	No	N/A
Angling or spearing finfish	Marine waters fishing license	No	N/A
Taking lobster by hand/SCUBA or lobster pot (up to 10 pots)	Personal Use Lobster Fishing License	No	16
Taking menhaden only using a gill net (up to 60 feet in length)	Personal Use Gill Net Fishing License	No	17
Party or charter boat operation <sup>5</sup>	Party / Charter Boat Registration	No	15
Hunting or fishing guide services	Hunting and Fishing Guide Registration	No	16
<b>Commercial Fishing outside Connecticut state waters, and landing in Connecticut<sup>1,2</sup></b>			
Landing regulated species <sup>3</sup> taken outside Connecticut state waters using commercial fishing gear, or taken by any means for commercial purposes.	Commercial Landing Vessel Operator's License.  Note: Not required if you have a commercial fishing license authorizing fishing the same gear inside CT state waters.	Yes	9
<b>Commercial Fishing in Connecticut waters. Open access licenses<sup>1,2</sup>.</b>			
Minnow seining	Commercial Bait Fishing License	No	14
Gill netting for American shad	Commercial Shad Fishing License	No	10
Taking blue crabs	Commercial Blue Crab Fishing License	No	12
Using hook & line <sup>1</sup> or gill net (up to 200 feet) for menhaden only	Restricted Commercial Fishing License	No	11
Lobster pot fishing (up to 50 pots) <sup>2</sup>	Restricted Commercial Lobster Pot Fishing License	No	11
Whelk Fishing (taking more than 1/2 bushel daily)	Commercial Whelk Fishing License	No	12
<b>Commercial fishing in Connecticut waters. Limited Access Licenses<sup>1,2,3</sup>.</b>			
Lobster pot fishing <sup>2</sup>	Principal Commercial or Lobster Pot Fishing License	Yes	6
Otter trawl, sea scallop dredge... fishing <sup>1</sup>	Principal Commercial Fishing License	Yes	6
Using gill nets, seines, traps, fish pots, cast nets, fykes, scaps, scoops, eel pots, hook and line, Note: hook and line fishing in the Inland District is prohibited.	General Commercial Fishing License	Yes	7
Hand harvest of horseshoe crabs	General Commercial Fishing <sup>1</sup> License or Horseshoe Crab Fishing License	Yes (If a vessel is used).	7
<sup>1</sup> The possession and landing of summer flounder, scup, black sea bass, or hand harvest of horseshoe crabs requires a Quota-Managed Species Endorsement. <sup>2</sup> The use of lobster pots requires a commercial lobster pot allocation. <sup>3</sup> Regulated species means: bait species, crustaceans, finfish, horseshoe crabs, sea scallops, squid or whelk. <sup>4</sup> CFVP means Commercial Fishing Vessel Permit required for the gear or license listed <sup>5</sup> Individual anglers on party and charter vessels are not required to be licensed to engage in sport fishing, but the vessel must have a Party and Charter Fishing Vessel Registration (page 15).			

## Limited Access Licenses & Endorsements

### *Principal Commercial Fishing License*

**Resident..... \$285.00**

**Non-resident..... \$1,500.00**

**Authorizes the Licensee to:** Engage in commercial lobster pot fishing and otter trawl fishing (see Appendix IX) to take and land lobsters, crabs (excluding blue crabs), horseshoe crabs, sea scallops, squid, finfish (except for American shad or bait species) and whelk (see Commercial Whelk (conch) Fishing License (NEW DEEP LICENSE REQUIREMENT)) for personal use or for sale.

1. The holder of a resident Commercial Fishing License must be a resident of Connecticut.
2. The non-resident Commercial Fishing License is issued to residents of states other than Connecticut. Non-residents are prohibited from taking or landing lobsters under this license if their state does not allow Connecticut residents to obtain a license to take lobster in that state. For example, this license does not allow Rhode Island residents to take lobsters in Connecticut because Connecticut residents are prohibited from doing so in Rhode Island. However, Rhode Island residents can trawl for fish in Connecticut because Connecticut residents are allowed to do so in Rhode Island waters.
3. **SPECIES ENDORSEMENTS:** Possession of summer flounder, scup or black sea bass requires a Quota-Managed Species Endorsement (See Quota-Managed Species Endorsements (NEW LICENSE REQUIREMENT)) for that species, except that up to 10 scup taken by lobster pots, may be possessed without a species endorsement. Taking more than one-half bushel of whelk requires a Commercial Whelk Fishing License.
4. **LOBSTER POT ALLOCATION:** A lobster pot allocation is required to fish lobster pots under this license. Individual commercial lobster pot allocations were established by regulation in 2000.
5. Persons assisting the holder of a commercial fishing license are not required to be licensed. However, a holder of the commercial fishing license must be present during any fishing activities.
6. For information on lobster and fish sizes and area, season and gear restrictions, see General Provisions – Lobsters (page 18) and General Provisions – Commercial Finfish (page 21). See also Appendix VII: Areas in Which Trawling is Prohibited (page 36).
7. **Commercial Fishing Vessel Permit Required: REQUIRED.**
8. **Report Required:** A trip catch logbook, supplied with the license, must be maintained and submitted either upon completion of the logbook or at the end of each month, whichever occurs first. A logbook must be available for inspection while you are landing or engaged in the licensed activity unless you have just submitted a completed book. All species, including fish caught in lobster pots, must be reported. Bluefish landed for commercial purposes may also have to be reported weekly for quota monitoring purposes (see page 28).

Fishermen who sell their catch directly to the public, must report those transactions (date, port landed, quantity, price, market category and disposition) to the DEEP. In the case of direct sale to the public, modifications have been made to the logbook to eliminate the need for a separate report. If you are selling on consignment, you must contact the DEEP Marine Fisheries Division for further information on how to report.

9. **LIMITED ACCESS:** This license is available only to those persons who held the license from June 1, 1995 to December 31, 2003, and who purchased the license by March 31 the previous year. **License holders MUST RENEW THIS LICENSE & THEIR COMMERCIAL FISHING VESSEL PERMIT (CFVP) ANNUALLY to remain eligible to purchase this license. THE APPLICATION DEADLINE FOR THIS LICENSE IS MARCH 31. THE CFVP MUST BE RENEWED BY DEC 31. Failure to renew this license and associated Commercial Fishing Vessel Permit annually will result in the permanent retirement of this license.** This license is transferrable provided transfer eligibility requirements are met.

### *Commercial Lobster Pot Fishing License*

**Resident..... \$190.00**

**Non-resident..... \$285.00**

**NOTE: Consider the open access Restricted Commercial Lobster Pot Fishing License as a less expensive alternative to this license if you no longer plan to fish more than 50 pots.**

**Authorizes the Licensee to:** Engage in commercial lobster pot fishing to take and land lobsters, crabs (excluding blue crabs), sea scallops, squid, finfish (except for American shad or bait species) and whelk (See Commercial Whelk (conch) Fishing License (NEW DEEP LICENSE REQUIREMENT)) for personal use or for sale. Either the Principal Commercial Fishing License or the Commercial Lobster Pot Fishing License can be held; holding both is not a requirement.

1. The holder of a resident commercial lobster pot license must be a resident of Connecticut.
2. The non-resident Commercial Lobster Pot Fishing License is issued to residents of states other than Connecticut. Non-residents are prohibited from obtaining this license if their state does not allow Connecticut residents to obtain a license to take lobster in that state. For example, this license does not allow Rhode Island residents to take lobsters in Connecticut because Connecticut residents are prohibited from doing so in Rhode Island.
3. **SPECIES ENDORSEMENTS:** Possession of summer flounder, scup or black sea bass requires a Quota Managed Species Endorsement (See Quota-Managed Species Endorsements (NEW LICENSE REQUIREMENT)) for that species, except that up to 10 scup taken by lobster pots, may be possessed without a species endorsement. Taking more than one-half bushel of whelk requires a Commercial Whelk Fishing License.
4. **LOBSTER POT ALLOCATION:** A commercial lobster pot allocation is required to fish lobster pots under this license. Individual lobster pot allocations were established by regulation in 2000.
5. The use of any gear other than lobster pots is not allowed with this license.
6. Persons assisting the holder of a commercial lobster pot license are not required to be licensed. However, a holder of the commercial lobster pot license must be present during any fishing activities.
7. For information on lobster sizes, area and gear restrictions, see General Provisions – Lobsters (page 17). For information on lobster and fish sizes and area, season and gear restrictions, see General Provisions – Lobsters (page 18) and General Provisions – Finfish (page 21).
8. **Commercial Fishing Vessel Permit: REQUIRED**
9. **Report Required:** A trip catch logbook, supplied with the license, must be maintained and submitted either upon completion of the logbook or at the end of each month, whichever occurs first. A logbook must be available for inspection while you are landing or engaged in the licensed activity unless you have just submitted a completed book. All species, including fish caught in lobster pots, must be reported. Bluefish landed for commercial purposes may also have to be reported weekly for quota monitoring purposes (see page 28).  

Fishermen who sell their catch directly to the public, must report those transactions (date, port landed, quantity, price, market category and disposition) to the DEEP. In the case of direct sale to the public, modifications have been made to the logbook to eliminate the need for a separate report. If you are selling on consignment, you must contact the DEEP Marine Fisheries Division for further information on how to report.
10. **LIMITED ACCESS:** This license is available only to those persons who held the license from June 1, 1995 to December 31, 2003, and who purchased the license by March 31 the previous year. **License holders MUST RENEW THIS LICENSE & THEIR COMMERCIAL FISHING VESSEL PERMIT (CFVP) ANNUALLY to remain eligible to purchase this license. THE APPLICATION DEADLINE FOR THIS LICENSE IS MARCH 31. THE CFVP MUST BE RENEWED BY DEC 31. Failure to renew this license and associated Commercial Fishing Vessel Permit annually will result in the permanent retirement of this license.** This license is transferrable provided transfer eligibility requirements are met.

**General Commercial Fishing (Finfish) License, Creel Limited**  
*(exceeding sport fishery creel limits when using hooks is prohibited)*

<b>Resident</b> .....	<b>\$190.00</b>
<b>Non-Resident</b> .....	<b>\$250.00</b>

**General Commercial Fishing (Finfish) License, Non-Creel Limited**  
*(exceeding sport fishery creel limits when using hooks is allowed)*

<b>Resident</b> .....	<b>\$375.00</b>
<b>Non-resident</b> .....	<b>\$625.00</b>

**NOTE: Consider the open access Restricted Commercial Fishing License as a less expensive alternative to this license.**

**Authorizes the Licensee to:** Use gill nets, seines, traps, fish pots, cast nets, fykes, scoop nets, eel pots or similar devices to take and land squid and finfish (except for American shad or bait species), for commercial purposes or for sale, in inland or marine waters in which the use of such gear is permitted; also, to use hook and line for commercial purposes in the marine district only (commercial angling is prohibited in the inland district) and to take horseshoe crabs by hand (requires a Horseshoe Crab Hand-Harvest Endorsement.)

1. See General Provisions – Commercial Finfish (Page 21).
2. **SPECIES ENDORSEMENTS:** Possession of summer flounder, scup or black sea bass requires a Quota Managed Species Endorsement for that species (See Quota-Managed Species Endorsements (NEW LICENSE REQUIREMENT)). Hand-harvest of horseshoe crabs also requires a Quota-Managed Species Endorsement. No endorsement is required to take horseshoe crabs by other means. Taking more than one-half bushel of whelk requires a Commercial Whelk Fishing License.
3. Non-residents are prohibited from taking or landing eels if their state does not allow Connecticut residents to obtain a license to take or land eels in that state.
4. Except for taking horseshoe crabs by hand, persons assisting the holder of a General Commercial Fishing (Finfish) License are not required to be licensed. However, a holder of the General Commercial Fishing (Finfish) License must be present during any fishing activities. All persons taking horseshoe crabs by hand must be licensed. Persons assisting in the transport of horseshoe crabs from the beach to vehicles need not have a license.
5. This license is not required, and does not authorize, the take of certain bait species. See Inland and Marine Bait License on page 14.
6. A list of species that may be taken commercially in the Inland District is provided in Appendix V: Species That May Be Taken Commercially in the Inland District (page 35).
7. All fyke and trap nets must be buoyed. The buoy shall be marked with the license number of the owner in black figures on a light background. These figures must be not less than six inches long and each stroke must be at least one-half inch wide. The buoy must be maintained in a conspicuous place at or near the heart of the trap or fyke.
8. Trap nets shall not be used to take any fish in the area lying between lines drawn south in Long Island Sound to the New York state line from Fenwick Dock, Old Saybrook and from Mill Creek (Mile Creek), Old Lyme.
9. The terminal buoys of all gill nets and seines must be marked with the owner's license number.
10. **Commercial Fishing Vessel Permit: REQUIRED** (unless the activities authorized by this license are conducted without the aid of a boat (see page 10).
11. **Report Required:** A trip catch logbook, supplied with the license, must be maintained and submitted either upon completion of the logbook or at the end of each month, whichever occurs first. A logbook must be available for inspection while you are landing or engaged in the licensed activity unless you have just submitted a completed book. All species must be reported. Bluefish landed for commercial purposes may also have to be reported weekly for quota monitoring purposes (see page 28).  
Fishermen who sell their catch directly to the public, must report those transactions (date, port landed, quantity, price, market category and disposition) to the DEEP. In the case of direct sale to the public, modifications have been made to the logbook to eliminate the need for a separate report. If you are selling on consignment, you must contact the DEEP Marine Fisheries Division for further information on how to report.
12. **LIMITED ACCESS:** This license is available only to those persons who held the license from June 1, 1995 to December 31, 2003 and who purchased the license by March 31 the previous year. **License holders MUST RENEW THIS LICENSE & THEIR COMMERCIAL FISHING VESSEL PERMIT (CFVP) ANNUALLY to remain eligible to purchase this license. THE APPLICATION DEADLINE FOR THIS LICENSE IS MARCH 31. THE CFVP MUST BE RENEWED BY DEC 31. Failure to renew this license and associated Commercial Fishing Vessel Permit annually will result in the permanent retirement of this license.** This license is transferrable provided transfer eligibility requirements are met.

### ***Quota-Managed Species Endorsements (NEW LICENSE REQUIREMENT)***

***All Applicants..... \$15.00***

**Authorizes the Licensee to:** Possess and land state quota-managed species taken for commercial purposes. State quota-managed species include black sea bass, scup, summer flounder and horseshoe crabs (horseshoe crab endorsement is required for hand-harvest only).

1. Applicants must have a Quota-Managed Species Endorsement for the species of interest. That is, a Black Sea Bass Quota-Managed Species Endorsement, Scup Quota-Managed Species Endorsement, Summer Flounder License Quota-Managed Species Endorsement or Horseshoe Crab Hand-Harvest Quota-Managed Species Endorsement. Quota-Managed Species Endorsements were last issued in 2003 to holders who met certain criteria based on their commercial fishing history. New endorsements are not presently being issued.
2. A Quota-Managed Species Endorsement is not required to take small quantities of quota-managed species when such quantities are exempt under agency regulations – for example, regulations allow 10 scup to be taken in commercial lobster pots without an endorsement for those species. A Scup Quota-Managed Species Endorsement is NOT required from November 1 through April 30 when the species is managed under a federal coastwide commercial quota. Although bluefish and smooth dogfish are state-quota managed species, no endorsement is required to harvest these open access species.
3. License Endorsement Letter holders **MUST PURCHASE A LICENSE ENDORSEMENT FOR EACH SPECIES THEY QUALIFY FOR EVERY YEAR BY THE APPLICATION DEADLINE of MARCH 31<sup>st</sup>** to retain their endorsement for that species. **Failure to renew a Quota-Managed Species Endorsement by the application deadline will result in the permanent retirement of that endorsement.**
4. **LIMITED ACCESS:** Quota-managed species license endorsements are available only to those persons who have previously qualified for endorsement based on past participation in the fishery.

## Open Access Licenses

### ***Commercial Landing Vessel Operator's License***

***All Applicants..... \$500.00***

**Authorizes the Licensee to:** Operate a vessel used to land finfish, lobsters, squid, crabs including horseshoe crabs, whelk (See Commercial Whelk (conch) Fishing License (NEW DEEP LICENSE REQUIREMENT)), and sea scallops for personal use or for sale, taken in commercial fishing conducted exclusively outside of Connecticut state waters. Fishing in Connecticut waters is prohibited.

1. This license is issued to fishermen who are not authorized to fish in Connecticut waters and to residents of states that do not issue commercial fishing licenses to Connecticut residents. Holders of a Connecticut commercial fishing license that covers the method used to take the catch are not required to obtain a landing license.
2. **SPECIES ENDORSEMENTS:** Possession of summer flounder, scup or black sea bass requires a Quota-Managed Species Endorsement (See Quota-Managed Species Endorsements (NEW LICENSE REQUIREMENT)) for that species. Taking more than one-half bushel of whelk requires a Commercial Whelk Fishing License.
3. **Commercial Fishing Vessel Permit: REQUIRED**
4. **Report Required: A trip catch logbook, supplied with the license, must be maintained and submitted either upon completion of the logbook or at the end of each month, whichever occurs first. A logbook must be available for inspection while you are landing or engaged in the licensed activity unless you have just submitted a completed book. All species must be reported. Bluefish landed for commercial purposes may also have to be reported weekly for quota monitoring purposes (see page 29).**

Fishermen who sell their catch directly to the public, must report those transactions (date, port landed, quantity, price, market category and disposition) to the DEEP. In the case of direct sale to the public, modifications have been made to the logbook to eliminate the need for a separate report. If you are selling on consignment, you must contact the DEEP Marine Fisheries Division for further information on how to report.

5. **OPEN ACCESS:** This license is available for purchase with no restriction based on past participation in commercial fishing. There is no requirement to renew this license by an application deadline. This license is NOT transferrable.

## **Commercial Fishing Vessel Permit**

**All Applicants..... \$100.00**

**Authorizes:** Use of a vessel for activities authorized under the following licenses: Principal Commercial Fishing, General Commercial Fishing (Finfish license), Commercial Lobster Pot Fishing, Commercial Landing, Commercial Horseshoe Crab Fishing, or Commercial Pound Net Fishing. During commercial fishing, a holder of the relevant Connecticut commercial fishing license listed above must be present, except that an unlicensed fisherman may operate a pound net with the permission of the pound net registrant.

1. Each vessel engaged in Principal Commercial Fishing, General Commercial Fishing (Finfish license), Commercial Lobster Pot Fishing, Commercial Landing, Commercial Horseshoe Crab Fishing, or Commercial Pound Net Fishing is required to have a Commercial Fishing Vessel Permit. A license plate is not issued with the Commercial Fishing Vessel Permit.
2. While tending a pound net, only the principal vessel is required to have a vessel permit.
3. **Report Required:** None.
4. **OPEN ACCESS:** This permit is available for purchase with no restriction based on past participation in commercial fishing. HOWEVER, holders of a limited access license: Principal Commercial Fishing License, General Commercial Fishing (Finfish) License, Commercial Lobster Pot Fishing License, or Commercial Horseshoe Crab Fishing License MUST OBTAIN A COMMERCIAL FISHING VESSEL PERMIT ANNUALLY in order to remain eligible to renew their limited access license. This permit is NOT transferrable.

## **Commercial Shad Fishing License**

**All Applicants..... \$200.00**

**Authorizes the Licensee to:** Use gill nets, seines, dip or scoop nets in the main body of the Connecticut River south of the Putnam Bridge in Glastonbury/Wethersfield to take or land American shad.

1. The open season for taking American shad is from April 1 through June 15.
2. Persons assisting the holder of a Commercial Shad License are not required to be licensed. Licensed American shad fishermen who wish to take catfish as a by-catch species during the shad season must also possess a General Commercial Fishing (Finfish) License.
3. The terminal buoys of all gill nets and seines must be marked with the owner's license number..
4. **Commercial Fishing Vessel Permit: NOT REQUIRED**
5. **Report Required:** A trip catch logbook, supplied with the license, must be maintained and submitted either upon completion of the logbook or at the end of each month, whichever occurs first. A logbook must be available for inspection while you are landing or engaged in the licensed activity unless you have just submitted a completed book. Reports are only required for the open shad season (April through June).

Fishermen who sell their catch directly to the public, must report those transactions (date, port landed, quantity, price, market category and disposition) to the DEEP. In the case of direct sale to the public, modifications have been made to the logbook to eliminate the need for a separate report. If you are selling on consignment, you must contact the DEEP Marine Fisheries Division for further information on how to report.

### **Prohibited:**

1. The use of gill nets constructed of single or multiple strand monofilament is prohibited from sunrise to sunset. The monofilament twine thickness shall be no greater than 0.28mm (#69).
2. Taking finfish other than American shad, see General Commercial Fishing (Finfish) License on page 7.
3. Commercial fishing for American shad from sundown Friday to sundown Sunday except by the use of a scoop net.
4. The use of nets with mesh size less than five inches stretched mesh.
5. Retention of American shad if taken by commercial gear in the following areas:
 

1. Salmon River	4. Eight Mile River	7. Upper Connecticut River*
2. Salmon River Cove	5. Scantic River	
3. Hamburg Cove	6. Farmington River	

\* In the main body of the Connecticut River upstream of the William H. Putnam Bridge on Route 3 (Glastonbury-Wethersfield).

6. **OPEN ACCESS:** This license is available for purchase with no restriction based on past participation in commercial fishing. There is no requirement to renew this license by an application deadline. This license is NOT transferrable.

### ***Restricted Commercial Fishing License (NEW OPEN ACCESS LICENSE)***

**Resident..... \$125.00**

**Non-resident..... \$250.00**

**Authorizes the Licensee to:** Engage in commercial fishing using hook and line to take and land squid and finfish (except for American shad or bait species), in the marine district only (commercial angling is prohibited in the inland district) and to take menhaden only by use of a gillnet not more than 200 feet in length provided the net is manually set and retrieved and personally attended when in use.

1. See General Provisions – Commercial Finfish (Page 21).
2. **SPECIES ENDORSEMENTS:** Possession of summer flounder, scup or black sea bass requires a Quota-Managed Species Endorsement for that species (See Quota-Managed Species Endorsements (NEW LICENSE REQUIREMENT) on page 8 ), except that a limited amount of scup may be possessed without a species endorsement, see [www.ct.gov/deep/TL](http://www.ct.gov/deep/TL) for current commercial fishery possession limits.
3. Persons assisting the holder of a Restricted Commercial Fishing License are not required to be licensed. However, a holder of the Restricted Commercial Fishing License must be present during any fishing activities.
4. The terminal buoys of all gill nets and seines must be marked with the owner's license number.
5. **Commercial Fishing Vessel Permit: NOT REQUIRED.**
6. **Report Required:** A trip catch logbook supplied with the licenses, must be maintained and submitted either upon completion of the logbook or at the end of each month, whichever occurs first. A logbook must be available for inspection while you are landing or engaged in the licensed activity unless you have just submitted a completed book. All species must be reported. Bluefish landed for commercial purposes may also have to be reported weekly for quota monitoring purposes (see page 28).  
Fishermen who sell their catch directly to the public, must report those transactions (date, port landed, quantity, price, market category and disposition) to the DEEP. In the case of direct sale to the public, modifications have been made to the logbook to eliminate the need for a separate report. If you are selling on consignment, you must contact the DEEP Marine Fisheries Division for further information on how to report.
7. **OPEN ACCESS:** This license is available for purchase with no requirement for past participation in commercial fishing. There is no requirement to renew this license by an application deadline. This license is NOT transferrable.

### ***Restricted Commercial Lobster Pot Fishing License (NEW LICENSE)***

**Resident..... \$125.00**

**Non-resident..... \$250.00**

**Authorizes the Licensee to:** Use NOT MORE THAN 50 lobster pots or traps to take and land lobsters, crabs (excluding blue crabs) and finfish (except for American shad or bait species) for personal use or for sale.

1. The holder of a resident commercial lobster pot license must be a resident of Connecticut.
2. The non-resident Commercial Lobster Pot Fishing License is issued to residents of states other than Connecticut. Non-residents are prohibited from obtaining this license if their state does not allow Connecticut residents to obtain a license to take lobster in that state. For example, this license does not allow Rhode Island residents to take lobsters in Connecticut because Connecticut residents are prohibited from doing so in Rhode Island.
3. **SPECIES ENDORSEMENTS:** Possession of summer flounder, scup or black sea bass requires a Quota-Managed Species Endorsement for that species (See Quota-Managed Species Endorsements (NEW LICENSE REQUIREMENT)), except that up to 10 scup taken by lobster pots, may be possessed without a species endorsement.
4. **LOBSTER POT ALLOCATION:** A commercial lobster pot allocation is required to fish lobster pots under this license. Individual lobster pot allocations were established by regulation in 2000.
5. The use of any gear other than lobster pots is not allowed with this license.

6. Persons assisting the holder of a Commercial Lobster Pot Fishing License are not required to be licensed. However, a holder of the Commercial Lobster Pot Fishing License must be present during any fishing activities.
7. For information on lobster sizes, area and gear restrictions, see General Provisions – Lobsters (page 18). For information on lobster and fish sizes and area, season and gear restrictions, see General Provisions – Lobsters (page 18) and General Provisions – Finfish (page 21).
8. **Commercial Fishing Vessel Permit: NOT REQUIRED**
9. **Report Required:** A trip catch logbook supplied with the license, must be maintained and submitted either upon completion of the logbook or at the end of each month, whichever occurs first. A logbook must be available for inspection while you are landing or engaged in the licensed activity unless you have just submitted a completed book. All species must be reported. Bluefish landed for commercial purposes may also have to be reported weekly for quota monitoring purposes (see page 28).  
Fishermen who sell their catch directly to the public, must report those transactions (date, port landed, quantity, price, market category and disposition) to the DEEP. In the case of direct sale to the public, modifications have been made to the logbook to eliminate the need for a separate report. If you are selling on consignment, you must contact the DEEP Marine Fisheries Division for further information on how to report.
10. **OPEN ACCESS:** This license is available for purchase with no requirement for prior participation in the lobster fishery, HOWEVER, holders of this license MUST HAVE A LOBSTER POT ALLOCATION to make use of this license in 2016. There is no requirement to renew this license by an application deadline. This license is NOT transferrable.

### **Commercial Whelk (conch) Fishing License (NEW DEEP LICENSE REQUIREMENT)**

**All Applicants..... \$100.00**

**Authorizes the Licensee to:** Possess and land more than one-half bushel of whelk (conch) species for personal use or for sale. No license is required to take up to one-half bushel of whelk daily for personal use or for sale.

1. Effective January 1, 2016 DEEP assumed licensing and management authority for whelk (conch).
2. No additional fishing license is required to take whelk by hand or by whelk pot. A separate license is required to fish lobster pots, otter trawls or other gear to take whelk. See Limited Access Licenses & Endorsements on page 6 for the license required for each gear. Whelk may also be taken by clam or oyster dredge which requires appropriate permitting from the Department of Agriculture, Aquaculture Division.
3. Persons assisting the holder of a Commercial Whelk Fishing License are not required to be licensed. However, a holder of a Commercial Whelk Fishing License must be present during any fishing activities.
4. **Commercial Fishing Vessel Permit: NOT REQUIRED.**
5. **Report Required:** A trip catch logbook, supplied with the license, must be maintained and submitted either upon completion of the logbook or at the end of each month, whichever occurs first. A logbook must be available for inspection while you are landing or engaged in the licensed activity unless you have just submitted a completed book. All species must be reported. Bluefish landed for commercial purposes may also have to be reported weekly for quota monitoring purposes (see page 28).  
Fishermen who sell their catch directly to the public, must report those transactions (date, port landed, quantity, price, market category and disposition) to the DEEP. In the case of direct sale to the public, modifications have been made to the logbook to eliminate the need for a separate report. If you are selling on consignment, you must contact the DEEP Marine Fisheries Division for further information on how to report.
6. **OPEN ACCESS:** This license is available for purchase with no requirement for prior participation in the lobster fishery. There is no requirement to renew this license by an application deadline. This license is NOT transferrable.

### **Commercial Blue Crab Fishing License**

**All Applicants..... \$150.00**

**Authorizes the Licensee to:** Use scoop or dip nets, hand lines or manually operated and personally attended devices described below to take and land blue crabs for commercial purposes.

- Manually closed caging devices similar to the Star Crab Trap.
- Circular, topless traps not exceeding 26 inches in diameter.

- Semi-circular or cylindrical traps not exceeding 12 inches in diameter with hinged entrances or ends controlled by drawstrings.
1. Blue crabs taken by any means other than those stated above must be returned immediately, and without avoidable injury, to the water from which taken.
  2. A Commercial Blue Crab Fishing License is required for each individual involved in the taking of blue crabs for commercial purposes. A license plate is not issued with the blue crab license.
  3. No license is required for taking blue crabs for personal use and not for sale.
  4. **Commercial Fishing Vessel Permit: NOT REQUIRED.**
  5. **Report Required:** A trip catch logbook, supplied with the license, must be maintained and submitted either upon completion of the logbook or at the end of each month, whichever occurs first. A logbook must be available for inspection while you are landing or engaged in the licensed activity unless you have just submitted a completed book. All species must be reported. Bluefish landed for commercial purposes may also have to be reported weekly for quota monitoring purposes (see page 28).  
Fishermen who sell their catch directly to the public, must report those transactions (date, port landed, quantity, price, market category and disposition) to the DEEP. In the case of direct sale to the public, modifications have been made to the logbook to eliminate the need for a separate report. If you are selling on consignment, you must contact the DEEP Marine Fisheries Division for further information on how to report.
  6. **OPEN ACCESS:** This license is available for purchase with no restriction based on past participation in commercial fishing. There is no requirement to renew this license by an application deadline. This license is NOT transferrable.

**Prohibited:**

1. Taking blue crabs from December 1 through April 30.
2. The taking, offering for sale or possession of egg bearing blue crabs or blue crabs from which the egg pouch or bunion has been removed.
3. The taking, offering for sale or possession of hard shell blue crabs less than 5 inches measured from tip to tip of the longest shell spikes, or any soft shell blue crab less than 3½ inches measured from tip to tip of the spikes.
4. The taking of blue crabs by lobster pot, trawl, pound net, seine, or any device other than those listed above.
5. Possession of uncooked blue crabs without the body shell (carapace) attached. Possession of more than two claws per body.
6. Use of Chesapeake-style box / cage traps.

**Marine Pound Net Registration**

**All Applicants..... \$285.00**

**Authorizes the Registrant to:** Use a pound net to take finfish, crabs (other than blue crabs), squid, and whelk (See Commercial Whelk (conch) Fishing License (NEW DEEP LICENSE REQUIREMENT)) but not lobsters, blue crabs or horseshoe crabs. Registrant does not have to be present during fishing operations.

1. No other fishing license or endorsement is required to operate, set or tend a pound net unless fluke (page 29), scup (page 30), or black sea bass (page 28) are possessed, in which case the relevant quota-managed species endorsement is required. The applicant must include the location of the net on his application. All pound nets must be buoyed. The buoy must bear the registration number of the owner in black figures on a light background. The figures must be at least six inches long and each stroke must be at least 1/2 inch wide. The buoy must be maintained in a conspicuous place at or near the heart of the pound.
2. **The applicant must apply for and receive a “Structures, Dredging and Fill” permit issued by the DEEP Office of Long Island Sound Programs.**
3. **SPECIES ENDORSEMENTS:** Possession of summer flounder, scup or black sea bass requires a Quota Managed Species License Endorsement (See Quota-Managed Species Endorsements (NEW LICENSE REQUIREMENT)) for that species. A Commercial Whelk Fishing License is required to take more than one-half bushel of whelk.
4. Pound nets shall not be used to take any fish in the area lying between lines drawn south in Long Island Sound to the New York state line from Fenwick Dock, Old Saybrook, and from Mill Creek (Mile Creek), Old Lyme. Pound nets must be set at least one mile (5,280 feet) from the documented location of any other pound net.

5. **Commercial Fishing Vessel Permit: REQUIRED** for the principal vessel only, but not those vessels assisting a permitted vessel (see page 10).
6. **Report Required:** A trip catch logbook, supplied with the license, must be maintained and submitted either upon completion of the logbook or at the end of each month, whichever occurs first. A logbook must be available for inspection while you are landing or engaged in the licensed activity unless you have just submitted a completed book. All species must be reported. Bluefish landed for commercial purposes may also have to be reported weekly for quota monitoring purposes (see page 28).  
Fishermen who sell their catch directly to the public, must report those transactions (date, port landed, quantity, price, market category and disposition) to the DEEP. In the case of direct sale to the public, modifications have been made to the logbook to eliminate the need for a separate report. If you are selling on consignment, you must contact the DEEP Marine Fisheries Division for further information on how to report.
7. **OPEN ACCESS:** This license is available for purchase with no restriction based on past participation in commercial fishing. There is no requirement to renew this license by an application deadline. This license is NOT transferrable.

### **Commercial Bait Fishing License**

<b>Marine Commercial Bait Fishing License</b> .....	<b>\$100.00</b>
<b>Inland Commercial Bait Fishing License</b> .....	<b>\$100.00</b>

**Authorizes the Licensee to:** Use seines, traps, dip nets, scoop nets, weirs or similar devices in the marine waters or inland waters respectively to take and land bait species. Use of gill nets or trawl nets is prohibited.

1. A listing of bait species is provided in Appendix IV: Bait Species (page 34).
2. A listing of demarcation lines between marine waters and the inland district is provided in Appendix III: Demarcations between the Marine and Inland Districts (page 33).
3. A listing of areas where inland commercial fishing is permitted is provided in Areas of the Inland District Open to Commercial Fishing (page 24).
4. All seines should be marked with the owner's plate number. All traps shall be buoyed and the buoys shall be marked in the same manner as pound nets (see page 13).
5. **Commercial Fishing Vessel Permit: NOT REQUIRED.**
6. **Report Required:** A trip catch logbook, supplied with the license, must be maintained and submitted either upon completion of the logbook or at the end of each month, whichever occurs first. A logbook must be available for inspection while you are landing or engaged in the licensed activity unless you have just submitted a completed book. All species must be reported. Bluefish landed for commercial purposes may also have to be reported weekly for quota monitoring purposes (see page 28).  
Fishermen who sell their catch directly to the public, must report those transactions (date, port landed, quantity, price, market category and disposition) to the DEEP. In the case of direct sale to the public, modifications have been made to the logbook to eliminate the need for a separate report. If you are selling on consignment, you must contact the DEEP Marine Fisheries Division for further information on how to report.
7. **OPEN ACCESS:** This license is available for purchase with no restriction based on past participation in commercial fishing. There is no requirement to renew this license by an application deadline. This license is NOT transferrable.

### **Dealer (Resale) Licenses**

#### **Seafood Dealer License**

<b>All Applicants</b> .....	<b>\$250.00</b>
-----------------------------	-----------------

1. **Authorizes the Licensee to:** Purchase, ship, consign, transfer, transport, barter, accept or pack any DEEP regulated species, except bait species, received directly from a commercial fisherman. DEEP regulated species are: lobsters, crabs, horseshoe crabs, squid, sea scallops, finfish and whelk. A Seafood Dealer License is required to receive DEEP regulated species directly from a commercial fisherman who landed that product in Connecticut, except that the ultimate consumer purchasing or otherwise receiving such product directly from a commercial fisherman is not required to be licensed. A license plate is not issued with the Seafood Dealer License. Holders of the Connecticut Seafood Dealer License and owners and employees of establishments in which lobster are sold may possess

lobsters imported from areas in which the minimum length is less than the LMA 6 minimum length or greater than the LMA 6 maximum length provided they follow Connecticut regulations (see page 19 for details).

Fishermen, markets, stores and restaurants selling lobsters directly to the public cannot possess or offer for sale lobsters less than LMA 6 minimum length or greater than the LMA 6 maximum length.

2. Persons interested in dealing in molluscan shellfish (clams, mussels, oysters) should contact the Department of Agriculture, Bureau of Aquaculture at 203-874-0696.
3. **Report Required:** All transactions from licensed Connecticut commercial fishermen must be reported on forms provided for this purpose. These reports are required to be submitted at the end of each month. A report form must be submitted for each month for which the purchaser is licensed, even if none of the identified resources were purchased from commercial fishermen during that month. In this instance, complete and submit the form for the applicable month with the words *None Purchased*, your name, and license number. In addition, weekly summary reports are required for those species managed by a Connecticut State quota.

Fishermen who sell their catch directly to the public, must report those transactions (date, port landed, quantity, price, market category and disposition) to the DEEP in their logbook.

Seafood dealers who also hold a federal permit are required by federal regulations to report electronically. Since that data is shared with the DEEP, such dealers do not have to submit paper reports to the DEEP. They are however, bound by DEEP timeliness requirements and subject to the consequences of delinquent or incomplete reporting.

### ***Bait Dealer License***

***All Applicants*..... \$63.00**

**Authorizes the Licensee to:** Possess for the purpose of sale, to sell or to offer for sale any bait species listed in Appendix IV: Bait Species (page 34). A license plate is not issued with the bait dealer license.

1. **Report Required:** Each bait dealer shall make an annual report on forms provided.

**Prohibited:** Possession of live carp or goldfish for any purpose on premises used by licensed bait dealers.

## **For-Hire Registrations & Permits**

### ***Party or Charter Fishing Vessel Registration***

***All Applicants*..... \$315.00**

**NOTE:** Compare to Hunting and Fishing Guide Service Registration

**Authorizes the Registered Vessel to:** Operate as a party or charter boat or for-hire recreational vessel to take marine species in Connecticut waters or land marine species at Connecticut ports, regardless of where those species are taken (e.g. tidal waters of the inland district). A separate Party or Charter Fishing Vessel Registration is required for each vessel operated for this purpose. Operators carrying two or fewer customers may choose the Hunting and Fishing Guide Service Registration instead of the Party or Charter Fishing Vessel Registration.

1. Paying passengers are exempt from the Marine Waters Fishing License requirement.
2. The owner, operator, or captain of the vessel may sell the boat's or crew's share of any tuna species catch as long as they meet all state and federal regulations. The sale of any other species is prohibited.
3. A current for passenger-for-hire license issued by the United States Coast Guard is required.
4. **Commercial Fishing Vessel Permit: NOT REQUIRED.**
5. **Report Required:** Daily logbook catch reporting is required on trips taking black sea bass. For other species the DEEP participates in NOAA Fisheries' Marine Recreational Information Program (MRIP) by conducting interviews with marine recreational anglers in order to collect fishing trip and catch information. In 2003, NOAA Fisheries initiated a new "For Hire Survey" under the then MRFSS now MRIP to improve both data collection and estimation methods in the charter and party/head boat fishery. As part of the survey, DEEP personnel perform dockside interviews with charter boat anglers upon trip completion and conduct angler interviews while at sea onboard party/head boats to gather data on catch and catch composition. The DEEP only interviews vessels operating from Connecticut ports. In the other part of the survey, vessel captains are randomly contacted by telephone to estimate fishing effort. The submission of a state report form is not required (other than for black sea bass) at this time.

However, those vessels permitted to fish under Federal Multi-species (Groundfish) Fishery Management Plan requirements must still submit Vessel Trip Reports (VTR's) to NOAA Fisheries.

6. **OPEN ACCESS:** This registration is available for purchase with no restriction based on past participation in the fishery. There is no requirement to renew this registration by an application deadline. This registration is NOT transferrable.

### ***Hunting and Fishing Guide Registration***

***All Applicants..... \$100.00***

**NOTE:** Compare to Party or Charter Fishing Vessel Registration.

**Authorizes the Registrant to:** Conduct hunting or fishing guide services (aiding, assisting or instructing any person in the taking of fish or wildlife while in the fields, forests or on all waters of the state in exchange for any form of remuneration).

1. All customers must be issued the appropriate hunting or fishing license. Customers under this registration are not exempt from the marine waters fishing license.
2. A current passenger-for-hire license issued by the United States Coast Guard is required when operating a vessel on navigable waters (Long Island Sound, Connecticut River below the Bulkeley Bridge, Housatonic River below the Derby Dam and the entire Thames River) for the purposes of providing guide services.
3. When providing guide services that entail the use of a vessel to take or land marine species, no more than two customers shall be on board.
4. **Commercial Fishing Vessel Permit: NOT REQUIRED.**
5. **Report Required:** None.
6. **OPEN ACCESS:** This registration is available for purchase with no restriction based on past participation in the fishery. There is no requirement to renew this registration by an application deadline. This registration is NOT transferrable.

### ***Environmental Tourism Vessel Permit***

***All Applicants..... \$100.00***

**Authorizes:** Use of a vessel for a fee for purposes of education and observation, and retention of unregulated marine and estuarine resources. Holders of a scientific collector's permit issued to accredited persons and institutions are not required to obtain the environmental tourism cruise vessel permit.

1. Each vessel engaged in the permitted activity must be issued an Environmental Tourism Vessel Permit.
2. Use of fishing gear not authorized for use by commercial fishing license holders is subject to conditions established by the Department. Contact the DEEP Marine Fisheries Division for further information.
3. **Commercial Fishing Vessel Permit: NOT REQUIRED.**
4. **Report Required:** None

## **Personal Use Licenses**

### ***Personal Use Lobster Fishing License (NEW LOWER FEE)***

***All Applicants..... \$60.00***

**Authorizes the Licensee to:** Use not more than ten lobster pots or traps, hand harvest, skin-dive or SCUBA dive to take and land lobsters for personal use (not for sale). Personal Use Lobster Fishing License holders may not set, haul or have in the water more than ten pots per day. See additional instructions provided with the license.

1. All pots must be tagged. Tags must be purchased using the same application with which you purchase your license.
2. Those who accompany and assist the license holder when setting and tending pots or traps require no license. However, the license holder must be present when pots or traps are set or tended. Each person engaged in taking lobsters by hand, skin diving or SCUBA diving requires a license.
3. A recreational Marine Waters Fishing License is not required for fish taken in lobster pots under a Personal Use Lobster Fishing License. Recreational minimum sizes, creel limits and seasons apply (see General Provisions – Recreational Fishing on page 17)

4. See General Provisions – Lobsters on page 18 for specific information on lobster gear.
5. **Commercial Fishing Vessel Permit: NOT REQUIRED.**
6. **Report Required:** A daily record of the number of lobsters caught and effort used is required on the form provided for this purpose. The report form must be submitted at the end of the year.
7. **OPEN ACCESS:** This license is available for purchase with no restriction based on past participation in the fishery. There is no requirement to renew this license by an application deadline. This license is NOT transferrable.

### ***Personal Use Gill Net Fishing License (for menhaden only)***

**All Applicants..... \$100.00**

**Authorizes the Licensee to:** Use a single personally attended gill net not more than 60 feet in length to take and land menhaden (bunker) for personal use, from marine waters only.

1. The gill net must be tended by the license holder at all times.
2. A recreational Marine Waters Fishing License is NOT required in addition to the Personal Use Gill Net Fishing License.
3. Please see the Personal Use Gill net for Menhaden Guidelines that comes with the license for additional information.
4. The terminal buoys of all gill nets must be marked with the owner's license number.
5. **Commercial Fishing Vessel Permit: NOT REQUIRED.**
6. **Report Required:** A daily report of menhaden caught and effort used is required on the form provided for this purpose. The report form must be submitted at the end of the year.
7. **OPEN ACCESS:** This license is available for purchase with no restriction based on past participation in the fishery. There is no requirement to renew this license by an application deadline. This license is NOT transferrable.

## **General Provisions – Recreational Fishing**

**Marine Waters Fishing Licenses (MWFL)** are required for anyone 16 years of age or older to take or assist in taking by any method fish or bait species in the marine district or to land marine fish and bait species in the state taken from federal waters or from the waters of any other state. A freshwater fishing license is required to fish for any species in the inland district.

1. MWFLs are issued on a calendar year basis and expire on December 31<sup>st</sup> of each year.
2. The cost is \$10 for residents, \$15 for out-of-state visitors, and free (but still required) for anyone 65 years of age or older.
3. MWFLs are reciprocal to marine fishing licenses issued by New York, Massachusetts, Rhode Island and Maine.
4. Exceptions to the license requirement include:
  - People rowing a boat or operating the motor of a boat from which other persons are taking or attempting to take fish,
  - Anyone fishing as a passenger on a registered party, charter, or head boat registered in Connecticut that is operating solely in the marine district,
  - State residents participating in a fishing derby that the DEEP Commissioner has authorized in writing as long as no fees are charged for the derby, it lasts one day or less, and it is sponsored by a nonprofit civic service organization (these organizations are limited to one derby in any calendar year.
  - Anyone participating in a group fishing event conducted by a qualified tax-exempt organization licensed to hold such an event for certain disadvantaged individuals.
5. MWFLs can be obtained:
  - Online from the DEEP web site. Go to [www.ct.gov/deep/fishing](http://www.ct.gov/deep/fishing) and select *Online Sportsmen Licenses*.
  - **DEEP Field Offices:**
    - Marine Headquarters (860.434.6043) M-F 8:00 AM – 4:00 PM
    - Eastern District (860.295.9523) M-F 8:30 AM – 4:00 PM
    - Western District (860.485.0226) M-F 8:30 AM – 4:00 PM
    - Franklin WMA (860.642.7239) M-F 8:30 AM – 4:30 PM
    - Session Woods (860.675.8130) M-F 8:30 AM – 4:00 PM

- **DEEP Main Office** 79 Elm St, Hartford:
  - License & Revenue (860.424.3555) M-F 9:00 AM – 4:00 PM
  - DEEP Store (860.424.3555) M-F 9:00 AM – 3:30 PM
- **Participating town halls and tackle shops.**
  - To locate a vendor near you see the Saltwater Fishery Resource Map at [www.ct.gov/deep/saltwaterfishingresourcemap](http://www.ct.gov/deep/saltwaterfishingresourcemap).
  - For a list of vendors go to [www.ct.gov/deep/fishing](http://www.ct.gov/deep/fishing) and select *Permits & Licenses* and then *Participating Town Halls, designated vendors (tackle shop)*.

**Tagging:** Tagging fish in the marine district is prohibited unless the person applying the tag is doing so under a tagging program consistent with the Atlantic States Marine Fisheries Commission's standards for scientific tagging programs. Further restrictions apply to the tagging of striped bass (see page 30).

**Culling or High-Grading:** The practice of "culling or "high-grading" is prohibited. Any fish placed on a stringer, in a container, cooler, live well or similar device, or otherwise not immediately released to the water shall count against the daily creel limit.

**Tournaments:** No person, club, or organization shall conduct, in Connecticut marine waters, a fishing tournament or derby that is open to persons sixteen years of age or older without having first registered such tournament or derby. Please contact the DEEP Marine Fisheries Division for registration details.

**Length limits, creel limits, and open seasons** are specified in DEEP regulations and posted at fishing locations throughout the state. These regulations are subject to change at any time in order to comply with interstate fishery management plans. For current information, please contact the DEEP Marine Fisheries Division or [www.ct.gov/deep/fishing](http://www.ct.gov/deep/fishing). Fish less than the minimum length may not be possessed in Connecticut, regardless of where taken. Lengths are total lengths (tip of the snout to the end of the tail). Any fish less than the minimum length shall, without avoidable injury, be returned immediately to the water from which taken. Creel limits apply on the waters or shores of this state, regardless of where taken.

## General Provisions – Lobsters

### Season

1. The closed season for Lobster Management Area (LMA) 6 (Long Island Sound and western Block Island Sound) is September 8 through November 28, inclusive, and applies to both recreational and commercial fisheries and all gears. Between those dates possession of lobsters taken from LMA 6 or from traps with LMA 6 trap tags is prohibited.
2. All lobster gear must be removed from the water during the closure, except that the ASMFC plan allows fishermen two weeks at the beginning of the closure period (September 8 through September 21) to remove gear and two weeks prior to the late fall reopening (November 15 through November 28) to redeploy the gear. Traps cannot be baited until one week prior to reopening (November 22).
3. An exception to the gear removal requirement is provided for fishermen who hold a conch (whelk) license for those lobster pots being actively fished for whelk. The take and landing of lobsters during these exception periods is prohibited.

### License Requirements

1. A license to take lobsters from Connecticut waters, or a Commercial Landing Vessel Operator's License is required to bring lobsters ashore or possess them on Connecticut waters, except when the lobsters are brought from ashore or obtained from a person or business licensed to take or sell lobsters. In addition, any fisherman in Connecticut, with lobsters taken from the waters of another state must have in his or her possession a valid license issued by that state.
2. Unless otherwise allowed by DEEP regulation or the General Statutes, persons not licensed to set or tend lobster pots are prohibited from doing so unless the licensed lobsterman is present (for exceptions, see item 3). A licensed lobsterman must have written permission from the owner with him while fishing in order to possess, tend or set the pots of that fisherman. Both fishermen must be holders of the same type of lobster license. Regardless of this permission, however, a holder of a personal use lobster license may not haul, check, or take lobsters from more than ten pots in one day.
3. A lobster pot fisherman may allow another license holder to haul pots with his pot tags for up to 30 trips in a year without authorization from the department. He may request permission from the DEEP to have one other license holder haul his pots for more than 30 trips in a year if the other licensee is a family member, employer, employee or partner. Contact the Marine Fisheries Division for more information.

4. Fishermen who wish to take lobsters in the U.S. Exclusive Economic Zone (outside of Long Island Sound and greater than 3 miles from shore) must possess a federal lobster fishing permit. Holders of a federal lobster permit and a Connecticut license must obey the more restrictive of the federal or state regulations when landing in Connecticut. In 1995, the National Marine Fisheries Service implemented a limited access program for lobstering in the EEZ. Persons who did not qualify to lobster in the EEZ based on their fishing history prior to March 25, 1991 are prohibited from doing so for the duration of the moratorium.

### ***Trap Tags***

1. DEEP regulations establish lobster pot limits in Long Island Sound and the rules for tagging lobster pots. Please refer to the information mailed with your *Lobster Trap Tag Authorization* (commercial fishery) in February or March of each year and information provided with your license for further information on obtaining pot tags.
2. Individual trap allocations have been implemented for most other Lobster Management Areas. If you are a Connecticut resident with a federal lobster permit, you must receive your authorization to purchase lobster pot tags from the Connecticut Department of Energy and Environmental Protection. A *Fishing Area Election Form* will be mailed to each Federal Permit Holder when the *Lobster Trap Tag Authorization* is mailed in February or March.

### ***Gear Restrictions***

1. Lobster pots fished in Connecticut waters may not exceed 22,950 cubic inches, in any combination of length, height and width.
2. Lobster pots used in Connecticut waters must have an approved escape vent in the parlor section of the pot. Lath spacing is an acceptable means of venting traps. See Appendix VI: Escape Vents and Escape Panels in Lobster Pots on page 35.
3. Wire or plastic lobster pots must contain escapement panels having a degradable fastener or opening (see Appendix VI: Escape Vents and Escape Panels in Lobster Pots, page 35).
4. The CT fishing license plate number must be legibly branded on the top of all live cars, lobster pots and similar devices, in figures not less than  $\frac{3}{4}$  inch in height. The license plate number must be branded or painted on all lobster pot buoys in figures not less than  $\frac{3}{4}$  inches in height. If lobster pots are purchased from another fisherman, removal or obliteration of his number is prohibited. The original owner's number should be left intact and the new number added. Retain a bill of sale to prove ownership.
5. All lobster buoys fished by a fisherman must be of the same color or pattern of coloration (you select the color and pattern of your choice) and one buoy must be displayed in a conspicuous location on your vessel while engaged in lobstering (from departure to return).
6. Setting or tending, or assisting in setting or tending lobster pots or lobster holding cars from 1/2 hour after sunset to 1/2 hour before sunrise is prohibited.
7. Setting lobster pots so that the buoys are deployed in navigation channels marked by U.S. Coast Guard channel markers is prohibited.
8. Setting the buoys of lobster pots in "fairways" at any time, or mooring areas from May 1 - October 15 is prohibited when such areas are formally designated as prohibited areas in an approved Harbor Management Plan. Fishermen should check with local authorities to determine the status of harbor management measures in their area.
9. Taking lobsters with spears or hooks of any kind is prohibited. Possession of lobsters taken by any method that pierces the shell is prohibited.

### ***Possession Restrictions***

1. The possession of any lobster bearing external eggs, or the possession of any lobster from which external eggs have been removed is prohibited. Any lobster bearing external eggs under the tail (abdomen) must be returned immediately, and without avoidable injury, to the water from which taken.
2. Possession of female lobsters bearing a notch or indentation at least 1/8 inch in depth, with or without setal hairs, and tapering to a point in the flipper next to, and to the right of the center flipper as viewed from the rear of the lobster. Possession of lobsters mutilated so that such a mark might be obscured is also prohibited.
3. **Minimum Lobster Length:** The minimum legal length is 3-3/8 inches carapace length for Lobster Management Area (LMA) 6 (Long Island Sound and western Block Island Sound). Possession of any

lobster less than the LMA 6 size length is prohibited. All such lobsters must be returned immediately, and without avoidable injury, to the water from which taken.

Holders of the Connecticut Seafood Dealers License and owners and employees of establishments in which lobster are sold may possess lobsters imported from areas in which the minimum length is less than the LMA 6 minimum length, provided: (1) such lobsters are not taken from Lobster Management Area (LMA) 6 (the waters of Long Island Sound and western Block Island Sound) or landed in Connecticut; and (2) such lobsters are not less than the minimum legal length in effect for the waters of the LMA, state or country of origin and are not less than 3¼ inches carapace length, regardless where taken; and (3) such lobsters are not bartered, exchanged, sold or offered for sale to retail consumers in this state; and (4) the seafood dealer, wholesaler or shipper possesses a manifest, bill of lading, invoice, purchase order or other written documentation identifying the state, lobster management area or country of origin of the lobsters received, the number of lobsters received that are less than the LMA 6 minimum length and the date received. The documentation shall be retained for a period of six months and made available to law enforcement officers upon request. While seafood dealers, wholesalers and shippers can possess lobsters less than the LMA 6 minimum length, for sale outside of Connecticut, fishermen, markets, stores and restaurants selling lobsters to the public **must** adhere to and not possess or sell lobster less than the LMA 6 minimum length.

4. **Maximum Lobster Length:** The maximum legal length is 5¼ inches carapace length for Lobster Management Area (LMA) 6 (Long Island Sound and western Block Island Sound).

No person shall buy, sell, give away, offer for sale or possess, any lobster with a carapace length greater than the LMA 6 maximum length, except that when all of the following conditions are met: (1) such lobsters are not taken from LMA 6 (Long Island Sound) waters; and (2) such lobsters are not greater than the maximum legal length in effect for the waters of the LMA or nation of origin; and (3) any vessel used by said person to land such lobsters shall have a valid federal limited access American lobster permit issued pursuant to 50 CFR 697.4; and (4) any seafood dealer, wholesaler or shipper in possession of such lobsters possesses a manifest, bill of lading, invoice, purchase order, seafood dealer report or other written documentation identifying the vessel or state of origin, lobster management area or nation of origin, as applicable, where such lobsters were received, the number of such lobsters received that are greater than the LMA 6 maximum length and the date such lobsters were received. The seafood dealer, wholesaler or shipper shall retain such documentation for a period of six months from the date such lobsters were received and shall be made available to law enforcement officers upon request.

5. Any fishermen that **elects** to fish in more than one LMA must abide by the most restrictive minimum gauge size (and maximum gauge size, if applicable) in effect for all of the areas elected, regardless of where the lobsters are taken.
6. Lobster gauges for determining compliance with the minimum length are available from DEEP (Marine Fisheries Division, Old Lyme or Licensing and Revenue Unit, 79 Elm Street, Hartford) and certain local outlets. It is recommended that this type gauge be used and that it be checked frequently for accuracy. The following procedure should be used to measure lobsters for minimum size: Insert one end of the gauge into the rear of the eye socket (to the rear of the eye). Hold the gauge perpendicular to the body shell and parallel with the "center line" of the shell. If the gauge does not reach the rear end of the body shell (between the body and the tail), the lobster can be kept. If the gauge fits over the shell, it must fit tightly for the lobster to be kept. Any movement between the gauge and the body shell is proof that the lobster is less than the minimum length and must be returned to the water.
7. In Connecticut waters, trawlers with trawl gear capable of taking lobsters may not possess more than 100 lobsters, per trip or per day whichever is the longer period of time. This limit applies to the aggregate of all persons on board. By Act of the New York legislature, trawlers on the New York waters of Long Island Sound may not possess lobsters. Consequently, New York trawlers may not possess lobsters on Connecticut waters. For fishing by methods other than lobster pots in offshore waters outside of Long Island Sound, the possession of more than 100 lobsters per day up to a maximum of 500 lobsters per trip is prohibited, regardless of the length of the trip.
8. Lobsters taken by hand or by SCUBA divers must be measured immediately on capture (before the lobsters are placed in a dive bag). Those taken by other license holders must be measured immediately on removal from the gear used to take them. Personal use license holders can retain fish, but not blue crabs, for personal use according to the sport fishery creel limits listed in Prohibited Finfish Gear Types on page 21.
9. Federal law prohibits the possession of **any** lobster parts by holders of a federal permit to take lobsters, regardless of where the lobsters were taken. For holders of a Connecticut license that do not also hold a federal lobster permit, the landing or possession on the waters of this state of any portion of a lobster

including meat, claws or tails, except when legally brought into such waters from ashore or except for immediate personal consumption, is prohibited.

## General Provisions – Commercial Finfish

### *Prohibited Finfish Gear Types*

1. Roller rig gill nets used to encircle bluefish are prohibited. Roller rig gill net is defined as a gill net that is set or retrieved mechanically, electrically, or hydraulically. In addition, the use of purse seines or pair trawls to take bluefish is prohibited.
2. Spears or spearing of any kind is defined as a recreational activity subject to all sport-fishing restrictions (length and creel limits, etc.). Commercial fishing with spears is prohibited.
3. Purse seines.

### *Minimum Lengths*

Listed on page 21 are the minimum commercial legal lengths (total length – TL) of marine fish regulated by the CT DEEP. Regardless of where they were taken, fish less than these lengths may not be possessed if taken by commercial fishing gear or for commercial purposes, and they may not be bought, sold, offered for sale or possessed in a place where fish are offered for sale. Any fish less than the minimum length taken by commercial fishing gear shall, without avoidable injury, be returned immediately to the water from which taken.

**Table 3. Commercial Fishery Minimum Lengths**

Species	Minimum length (total length)
American eel	9 inches
Atlantic tomcod	7 inches
Black sea bass	11 inches
Bluefish	9 inches
Fluke (summer flounder)	14 inches <sup>1</sup>
Monkfish (goosefish)	17 inches, 11 inches tail size
Red drum (South Atlantic and Gulf of Mexico)	Maximum length of 27 inches
Scup (porgy)	9 inches
Tautog (blackfish)	16 inches
Weakfish	16 inches
Winter flounder	12 inches
Striped bass legally taken from another state's waters and landed in CT	28 inches
<b>The minimum lengths for the species listed below are the lengths specified in 50 CFR § 648.83(a) (i.e. Federal Regulations)</b>	
American plaice	Redfish (Gulf of Maine)
Atlantic cod	Witch flounder
Haddock	Yellowtail flounder
Pollock	

<sup>1</sup> There is a special restriction on filleting summer flounder (fluke). While engaged in commercial fishing activities, possession of summer flounder fillets less than 14 inches in length is prohibited unless the "rack" (carcass) of the fish from which the fillet was removed has been retained and is at least 14 inches in length. This regulation does not prohibit filleting summer flounder on shore or dockside.

### *Mesh of Nets in Connecticut Waters*

All measurements below are stretched mesh, when wet after use.

#### **Trawl Nets**

For the purposes of the following trawl net rules, *codend* is the retaining bag of the net. The *minimum mesh size* is the maximum opening of any single mesh, measured when wet after use as the median of 11 consecutive measurements taken at least 5 meshes from the lacings parallel to the longitudinal axis of the net. The *body of the net* is the main part of the net immediately behind (posterior to) the footrope, excluding

the wings. The *extension of the net* is that part of the net between the body and the codend. A *fly net* is an otter trawl constructed of a minimum of 5½ inch stretched mesh webbing in the wings and forward body (belly) section extending at least 12 meshes or 5½ feet along the longitudinal axis of the net.

The use of trawl gear in Connecticut is prohibited from March 1 through April 14, except for the use of fly net gear for sea herring (see item 1 below). At other times, the trawl net minimum mesh size in Connecticut waters is 5½ inch diamond or 6 inch square mesh in the cod end, with the following exceptions:

1. From May 1 through October 31, inclusive, when in possession of more than 100 pounds of summer flounder or from November 1 through April 31, inclusive, when in possession of more than 200 pounds of summer flounder, no person shall use any trawl net with a mesh size in the body, extension or codend less than 5½ inches diamond mesh or 6 inches square mesh.
2. From November 1 through April 30, inclusive, if a person on a vessel is in possession of 100 pounds or less of winter flounder or 200 pounds or less of summer flounder, he may use a fly net with a codend mesh of any size to take Atlantic herring.
3. From May 1 through October 31 inclusive, no person shall use any trawl net with a mesh size less than 4½ inches diamond mesh or 5 inches square mesh with the following exceptions:
  - A person may use a trawl net with mesh of any size in the body and wings of the net provided the codend is at least 75 meshes in length and the terminal 75 meshes of the codend have a mesh size of no less than 5 inches diamond mesh or 5½ inches square mesh.
  - For the taking of squid from May 15 through July 31, inclusive, a person may use a trawl net with a mesh of any size provided the codend mesh size is no less than 1-7/8 inches diamond mesh and no more than 100 pounds of scup or 100 pounds of black sea bass are in his possession.
  - For the taking of butterfish and squid from October 1 to October 31, a person may use a trawl net with a mesh of any size provided the codend mesh size is no less than 3 inches (diamond mesh) and no more than 200 pounds of scup or 100 pounds of black sea bass are in possession.
4. No person shall possess more than 100 pounds of winter flounder while fishing with a trawl net with a codend mesh less than 6½ inches diamond mesh or 6½ inches square mesh.
5. From May 1 through October 31, inclusive, no person shall possess more than 200 pounds of scup while fishing with a trawl net that does not :
  - have a mesh size of at least 5 inches diamond mesh or 5½ inches square mesh throughout the entire net; or
  - have a codend at least 75 meshes in length and the terminal 75 meshes of the codend have a mesh size no less than 5 inches diamond mesh or 5½ inches square mesh.
6. From May 1 to October 31, inclusive, no person shall possess more than 100 pounds of black sea bass unless the net has a codend of at least 75 meshes in length and the terminal 75 meshes of the codend have a mesh size no less than 5 inches diamond mesh or 5½ inches square mesh.

The following restrictions pertaining to the use of trawl gear also apply:

1. In Connecticut waters, no person shall possess any codend or trawl net with mesh sizes smaller than specified in paragraphs 1 through 6 above on any vessel having winter flounder, summer flounder, black sea bass or scup on board in excess of the limits specified in paragraphs 1 through 6 unless the codend is detached from the main body of the net or the entire trawl net is removed and detached from the net reel or is covered on a net reel and is bound securely and unavailable for immediate use.
2. The use of any means, device or material, including but not limited to ropes, lines, liners, net strengtheners, or double nets, which obstructs or diminishes the size of the meshes in the top of the codend or of that part of the net which does not contact the seabed during normal fishing activity, is prohibited. All netting in trawl nets not made on a braiding machine, whether of braided or twisted twine, whether machine or handmade, shall have only one knot, which shall be the weavers knot or sheet bend. The ends of the twine, called bars, that exit the knot shall be constructed so that their lay does not cross or twist.
3. Any person who takes winter flounder or summer flounder while fishing with a codend with a mesh size less than 5½ inches diamond or 6 inches square, and any person who takes scup or black sea bass while fishing with a codend with a mesh size less than 4-1/2 inches diamond or five inches square mesh, shall separate these fish by species and keep these fish apart from the main catch. All threshold limits specified in paragraphs 1 through 6 above shall apply to the aggregate of all persons onboard the vessel.
4. No bottom trawl net shall be equipped with rollers or cookies in excess of 6 inches in diameter.

**Figure 1. Trawl Net Mesh Size Options**

Trawl Net Mesh Size Options												
4½" diamond or 5" square mesh size in the entire net. May 1 – Oct 31						Standard Mesh: 5½" diamond or 6" square codend mesh size.				Mar 1 - Apr 14: Trawling Prohibited †		Sld Mesh
Mesh in body and wings may be of any size IF: the codend is at least 75 meshes long AND the terminal 75 meshes of the codend are 5" diamond or 5½" square mesh. May 1 – Oct 31						Atlantic herring fly nets, codend mesh any size. Nov 1 – Apr 30						
For squid, 1-7/8" diamond codend mesh size. May 15 – Jul 31			For squid and butterfish, 3" diamond codend mesh. Oct 1 – Oct 31									
May	Jun	Jul	Aug	Sep	Oct	Nov	Dec	Jan	Feb	Mar	Apr	

† Fishing for Atlantic herring with a fly net is permitted during this period.

Summer flounder (Figure 2), winter flounder (Figure 3), scup (Figure 4) and black sea bass (Figure 5) have possession threshold limits that are dependent on the time of year and mesh size and/or net configuration. In addition, summer flounder, scup and black sea bass are quota-managed species and also have quota-dependent possession limits that vary according to the percentage of the quota landed. No person may possess more than the lesser of these two possession limits.

**Figure 2. Summer Flounder Mesh Size-dependent Possession Limits**

Summer Flounder Mesh Size-dependent Possession Limits												
More than 100 pounds? Mesh in body, extension or codend mesh must be at least 5½" diamond or 6" square.						More than 200 pounds? Mesh in body, extension and codend must be at least 5½" diamond or 6" square.				Mar 1 - Apr 14: Trawling Prohibited †		200, 5½ 6
100 pounds or less? Any other mesh or net option in Figure 1.						200 pounds or less? Any other mesh or net option in Figure 1.

May	Jun	Jul	Aug	Sep	Oct	Nov	Dec	Jan	Feb	Mar	Apr	

**Pounds, Trap nets, Fyke Nets, Weirs**

Mesh size shall be not less than 2 inches.

**Seines**

Mesh size shall be not less than 2½ inches except:

1. For taking American shad – not less than 5 inches,
2. For taking lamprey eels – not less than 2 inches,
3. For taking tomcod, not less than 1½ inches and 50 feet of the center or bunt of each seine shall be not less than 1¼ inches.
4. The terminal buoys of all seines must be marked with the owner's license number.

**Gill Nets**

1. **Inland District:** Mesh size shall be not less than 5 inches except that gill nets used for taking white perch, catfish species, and yellow perch shall have a mesh not less than 3½ inches.
2. **Marine District:** Mesh size shall be not less than 3 inches except that:
  - For taking American shad, not less than 5 inches,
  - For taking tomcod, not less than 1¼ inches,
  - For taking white perch, yellow perch, and catfish species, not less than 3½ inches.
3. The use of gill nets constructed of single or multiple strands of material known as *monofilament* is prohibited for taking American shad from sunrise to sunset. The twine thickness of any such gill net shall be no greater than 0.28mm diameter (#69).
4. The terminal buoys of all gill nets must be marked with the owner's license number.

**Scoop Nets for Taking American Shad**

Mesh size shall be not less than 5 inches.

**Minnow Seines and Traps for Taking Only the Bait Species Listed in Appendix IV: Bait Species**

Mesh size may be any size.

**Fish Pots**

1. Fish pots shall only be used to take fish; the taking of lobsters and blue crabs in fish pots is prohibited.
2. Fish pots cannot be more than 6 feet long, wide or high.
3. Escape vents are required and must be at least 3.1 inches circular or 2¼ inches x 2¼ inches square. Escapement ("ghost") panels are also required and, when open, must have an opening of at least 7¾ inches x 7¾ inches square or which allows the entire end or side of a trap to be open. The panel must be held closed by ungalvanized, uncoated wire not more than 3/32 inches thick, magnesium alloy fasteners or timed release "pop up" devices, or untreated natural fiber such as cotton, hemp, or jute string 3/16 inches in thickness or smaller. Escape vents and panels may not be placed on the bottom of the pots.
4. Fish pots and their buoys must have the commercial finfish plate number on them in numbers at least ¾ inches high.

**Construction of Minnow Traps**

1. Minnow traps for the taking of bait species only shall have a length of not more than 36 inches and a diameter of not more than 18 inches.
2. Minnow traps shall be equipped with not more than 2 funnels and the entrance opening shall not exceed 1½ inches in diameter.
3. Minnow traps shall not be equipped with leader or wing.

**Areas of the Inland District Open to Commercial Fishing**

In the Inland District, commercial fishing is permitted only in the following areas and only for the species listed in Appendix V: Species That May Be Taken Commercially in the Inland District (page 35):

**Connecticut River System**

1. The main body of the river from the I-95 Bridge at Old Saybrook-Old Lyme to the Massachusetts-Connecticut state line (for American shad, only south of the Putnam Bridge in Glastonbury).

2. The coves and portions of tributaries which are subject to tidal fluctuation except the Farmington River and its coves and flood waters and the Salmon River and its coves and flood waters (except for American shad).
3. The temporary or seasonal pools formed by the floodwaters of the Connecticut River.
4. That portion of the Hockanum River lying within the boundaries of the township of East Hartford.
5. Bait species as defined in section Appendix V: Species That May Be Taken Commercially in the Inland District on page 35 may be taken for commercial purposes in the Hockanum River and its impoundments or portions of impoundments within the township of East Hartford.
6. That portion of the Blackhall River which lies within the inland district and which is subject to tidal fluctuation.
7. That portion of the Lieutenant River which lies within the inland district and which is subject to tidal fluctuation.

#### **Housatonic River System**

1. The main body of the river from the Merritt Parkway upstream to the Derby electric plant in Derby.
2. The coves and portions of tributaries subject to tidal fluctuation.
3. The temporary or seasonal pools formed by the floodwaters of the Housatonic River within the limits established by item 1 above.
4. The impoundments known as Lake Housatonic and Lake Zoar may be fished commercially for eels, carp and suckers only.

#### **Quinnipiac River System**

1. The main body of the river lying between the marine-inland district demarcation line (Route 17) and a point five hundred feet downstream of the Hanover Dam, Meriden.
2. The coves and portions of tributaries subject to tidal fluctuation.
3. Bait species may be taken for commercial purposes in the river and its impoundments to a point five hundred feet downstream of the Hanover Dam, Meriden.

#### **Thames River System**

1. The main body of the river which lies within the inland district (500 feet north of the Route 1 / I-95 Bridge) and which is subject to tidal fluctuation (Norwich Harbor).
2. The coves and portions of tributaries subject to tidal fluctuation.
3. The temporary or seasonal pools caused by floodwaters within the limits established by item 1 above.

#### **Quinebaug River System**

Bait species may be taken for commercial purposes in the main body of the river from the Massachusetts state line downstream to the bridge on Route 6 at Danielson and from its impoundments or portions of impoundments from the Massachusetts state line downstream to Providence Street in Putnam.

#### **French River System**

1. The main body of the river lying within the boundaries of the township of Thompson.
2. Bait species may be taken for commercial purposes in the main body of the river and its impoundments lying within the township of Thompson.

#### **Shetucket River System**

1. Bait species may be taken for commercial purposes in the main body of the river and its impoundments from the junction of the Willimantic River and Natchaug River downstream to the Scotland Dam, Windham.
2. Bait species may be taken for commercial purposes in the main body of the river and its impoundments from the Route 97 Bridge in Sprague downstream to the bridge on Route 12 in Lisbon-Norwich.

#### ***Species-Specific Area Restrictions***

1. White perch, catfish species, and yellow perch may be taken for commercial purposes only in the following specified areas of the Connecticut and Thames Rivers:
  - The Chester Cove in the town of Chester, and from the I-95 bridge in Old Saybrook-Old Lyme to Whalebone Creek range light number forty but not including Hamburg Cove and the Eight Mile River in the township of Lyme.

- The Thames River, its coves and floodwaters from 500 feet north of the I-95 bridge, New London-Groton to the Mohegan-Pequot Bridge, Montville-Preston. **In the Thames River, these species may not be taken with gill nets or trawl nets.**

### **Areas Closed to Commercial Fishing**

1. Commercial fishing with hook and line is prohibited in all areas of the inland district.
2. Navigable channels as indicated by Coast Guard channel markers. This area closure applies only to the buoys of lobster pots, fish pots, eel pots, and to anchored or fixed gill nets, trap nets, fyke nets and pound nets.
3. The use of fixed commercial fishing gear is prohibited in "fairways" on a year round basis and mooring areas from May 1-October 15, if such fairways and mooring areas are identified as prohibited areas in a Harbor Management Plan approved by the Department. Unbuoyed lobster pots, fish pots, eel pots, or pots set in such a way that the buoys are not placed in the fairways or mooring areas are not prohibited. Fairways are defined as unmarked harbor navigation channels as established through the local harbor management planning process. For information regarding the status of Harbor Management Plans in your area, contact local authorities.
4. That portion of North Cove, as indicated by posters and known as Fall River, in the township of Essex.
5. The following areas of the shores of Long Island Sound are restricted by statute from certain types of commercial fishing. Information on these areas can be obtained from the sources indicated in the introduction of this circular. Also, note Appendix I: Inshore Trawl Line (page 32) and Appendix II: Offshore Trawl Line (page 32).
  - Nets and seines in Darien, Stamford and Greenwich.
  - Use of seines in Norwalk Harbor.
  - Nets in the Pawcatuck River.
  - Nets north of Long Beach and Penfield Reef.
  - Trawls in the Thames River. See Appendix I: Inshore Trawl Line on page 32
  - Gill nets in the Thames River above the Amtrak Bridge.
  - Trawls or gill nets in the Mystic River above a line extending from the southern extremity of Morgan Point in Noank to the southern extremity of Ram Point on Mason Island.
  - Trawls or gill nets in the Niantic River above the Amtrak Bridge.
  - Seines in the Mystic River.
  - Purse nets in the Thames River above the Amtrak Bridge.
  - Nets in Milford Harbor.
  - Nets in Chester Cove, Wright's Cove, and Keney Cove.
  - Use of nets in Long Island Sound adjacent to Stratford.
  - Use of trawls in the Poquonock River.
  - Selected parts of the Connecticut River.

### **Seasons Closed to Commercial Fishing**

The table below lists species-specific closed seasons for commercial fishing. Refer also to Prohibited Species beginning on page 27.

**Table 4. Seasons Closed to Commercial Fishing**

<b>Species</b>	<b>Closed Season (all dates inclusive)</b>
Alewives and blueback herring	Closed year round until further notice.
American shad <sup>1</sup>	June 16 thru March 31
Blue crabs	December 1 thru April 30
Horseshoe crabs <sup>1</sup>	July 8 thru May 21
Yellow perch, white perch, and catfish <sup>2</sup> species	April 1 thru September 30
Tautog (blackfish)	May 1 thru June 30
	September 1 thru October 7
	December 25 thru March 31
Tomcod	April 16 thru November 30
Winter flounder	March 1 thru April 14

<sup>1</sup> Closed on weekends within the open season. See Species Restrictions for details on times.

<sup>2</sup> American shad fishermen may take catfish species during the shad season if the license holder also holds a General Commercial Fishing (Finfish) License.

### ***Prohibited Species***

The following species may not be taken, or possessed in Connecticut regardless of where taken. Any of these species taken incidentally shall be immediately returned, without avoidable injury, to the waters from which they were taken. These prohibitions apply to both recreational and commercial fishing unless otherwise noted.

#### **Alewives and Blueback (River) Herring (*Alosa pseudoharengus*, *Alosa aestivalis*)**

See the Connecticut Angler's Guide for exemptions for land locked river herring.

#### **Rainbow smelt (*Osmerus mordax*)**

No person shall take from or possess any rainbow smelt taken from the marine district or from those areas of the inland district open to commercial fishing (see page 24).

#### **Atlantic Salmon (*Salmo salar*)**

Except for recreational broodstock fishing, as provided for in Section 26-112 of the Regulations of Connecticut State Agencies.

#### **Trout / Charr**

Commercial take prohibited. See the Connecticut Angler's Guide for recreational measures for trout and charr (brook trout).

#### **Atlantic Sturgeon (*Acipenser oxyrinchus*)**

#### **Shortnose Sturgeon (*Acipenser brevirostrum*)**

#### **Shark Species**

It is prohibited to take any species of shark listed below from Connecticut waters. It is also prohibited to possess, sell, exchange, or offer for sale or exchange any shark species listed below in Connecticut regardless of where it was taken.

- Atlantic angel (*Squatina dumeril*)
- Basking (*Cetorhinus maximus*)
- Bigeye sand tiger (*Odontaspis noronhai*)
- Bigeye sixgill (*Hexanchus vitulus*)
- Bigeye thresher (*Alopias superciliosus*)
- Bignose (*Carcharhinus altimus*)
- Caribbean reef (*Carcharhinus altimus*)
- Caribbean sharpnose (*Rhizoprionodon porosus*)
- Dusky (*Carcharhinus obscurus*)
- Galapagos (*Carcharhinus galapagensis*)
- Longfin mako (*Isurus paucus*)
- Narrowtooth (*Carcharhinus brachyurus*)
- Night (*Carcharhinus signatus*)
- Sandbar (*Carcharhinus plumbeus*)
- Sand tiger (*Odontaspis Taurus*)
- Sevengill (*Heptranchias perlo*)
- Sixgill (*Hexanchus griseus*)
- Smalltail (*Carcharhinus porosus*)
- Whale (*Rhincodon typus*)
- White (*Carcharodon carcharias*)

In accordance with the quota specifications of the ASMFC Coastal Shark Fishery Management Plan, states are required to close their commercial fisheries for non-sandbar large coastal sharks when federal waters are closed by National Marine Fisheries Service. For current information, please contact the DEEP Marine Fisheries Division or [www.ct.gov/deep/fishing](http://www.ct.gov/deep/fishing).

## **Species Restrictions**

The commercial possession limits apply to the aggregate of all persons aboard the vessel per trip or per day whichever is the longer period of time.

See previous sections for other applicable rules. See Appendix IV: Bait Species (page 34) for bait species and Appendix V: Species That May Be Taken Commercially in the Inland District (page 35) for restrictions on commercial fishing in the inland district. **Federal permit holders must comply with federal rules, regardless of where the fish are taken.**

### **American Eel (*Anguilla rostrata*)**

Minimum length - 9 inches. The taking of glass eels, elvers and sliver eels is prohibited. Glass eels are transparent larval American eels less than 4 inches in length and elvers are post-larval eels 4-6 inches in length. Silver eels are sexually mature adults that take on a deep silvery and black coloration when they leave rivers and streams to return to the ocean to spawn. Most silver eels greater than 16 inches in length are female.

### **American Shad (*Alosa sapidissima*)**

American shad may be taken from the Connecticut River system only. No American shad shall be taken for commercial purposes from Friday night at sundown to Sunday night at sundown. The closed season is June 16 through March 31.

### **Atlantic Herring (*Clupea harengus*)**

The taking of Atlantic herring is prohibited when federal waters outside of Long Island Sound are closed to the taking of herring. The landing of Atlantic herring in Connecticut is prohibited from any herring management area that is closed to the taking of Atlantic herring.

### **Black Sea Bass (*Centropristis striata*)**

1. Commercial fishery moratorium –The landing or possession of black sea bass in Connecticut is prohibited unless the license holder has in his possession a *Black Sea Bass Quota-Managed Species Endorsement* issued under qualification criteria revised in December 2003. These endorsements must be purchased annually by March 31<sup>st</sup> and are now printed on your commercial license. **IMPORTANT:** See Quota-Managed Species Endorsements (NEW LICENSE REQUIREMENT) on page 8. Contact the DEEP Marine Fisheries Division for information on qualification criteria.
2. Current commercial fishery trip (possession) limits are available at [www.ct.gov/deep/TL\\_via\\_24\\_hour\\_call-in\\_line\\_at\\_860.434.6374 \(recorded message providing current possession limits\)](http://www.ct.gov/deep/TL_via_24_hour_call-in_line_at_860.434.6374_(recorded_message_providing_current_possession_limits)) or by calling the Marine Fisheries Division at 860.434.6043. When fishing multiple gears the **most restrictive** trip limit is applied.
3. See Trawl Nets on page 21 for information related to trawl mesh size-related possession limits.

### **Blue Crabs (*Callinectes sapidus*)**

1. Size limit is 5 inches for hard shell crabs and 3½ inches for soft-shell crabs.
2. Closed season: December 1 through April 30.
3. Possession of uncooked blue crabs without the body shell (carapace) attached is prohibited. Only two claws per crab body may be possessed.

### **Bluefish (*Pomatomus saltatrix*)**

1. The sport fishery creel limit for bluefish is 10 fish per angler (including "snapper blues")
2. Use of pair trawls, purse seines, or roller rig gill nets to take bluefish is prohibited.
3. The bluefish commercial fishery is managed under a state quota. The commercial fishing season opens on January 1 and closes December 31, or upon reaching 100% of the quota, whichever comes first. Commercial license holders may take an amount equal to the creel limit at any time but, if taken during a closed commercial period, bluefish may not be sold.
4. Current commercial fishery trip (possession) limits are available at [www.ct.gov/deep/TL\\_via\\_24\\_hour\\_call-in\\_line\\_at\\_860.434.6374 \(recorded message providing current possession limits\)](http://www.ct.gov/deep/TL_via_24_hour_call-in_line_at_860.434.6374_(recorded_message_providing_current_possession_limits)) or by calling the Marine Fisheries Division at 860.434.6043.
5. **Quota Monitoring and Bluefish Catch Reporting:** DEEP has suspended the weekly reporting requirement for commercial fishermen landing bluefish. Weekly monitoring may be reinstated in the future, if required, to meet the quota-monitoring obligations of the bluefish fishery management plan. License holders will be notified of any changes in this requirement. All license holders authorized to take bluefish are still required to submit monthly logbooks that include a daily record of catch.

### Catfish Species

American Shad fishermen may take catfish during the American shad season if the license holder also possesses the Commercial Finfish License.

### Horseshoe Crabs (*Limulus polyphemus*)

1. A *Horseshoe Crab Hand-Harvest Quota-Managed Species Endorsement* is required to take horseshoe crabs by hand. **IMPORTANT:** See Quota-Managed Species Endorsements (NEW LICENSE REQUIREMENT) on page 8. **These endorsements must be purchased annually by March 31** and are required in addition to a *General Commercial Fishing (Finfish) License* and are now printed on your commercial license. Contact the DEEP Marine Fisheries Division for information on qualification criteria.
2. Horseshoe crabs may be taken by otter trawl fishing or other means other than hand-harvest without a Horseshoe Crab Hand-Harvest Quota-Managed Species Endorsement. Fishermen may also possess legally acquired dead horseshoe crabs being used for bait.
3. Closed Areas – No person shall engage in the hand-harvest of horseshoe crabs from the following areas:
  - Menunketesuck Island in Westbrook.
  - Sandy Point in West Haven from the West Haven boat ramp on Beach Street south to, and clockwise around Sandy Point, including the breakwater, tidal flats and embayment and southeastern facing barrier beach to the groin adjacent to the intersection of Beach Street and Morse Avenue.
  - Milford Point in Milford, including all beaches and adjacent sand bars and tidal flats to the west of, and including, the spit that lies south-southeast of the southern terminus of Francis Street.
4. Commercial fishery possession limits:
  - In the trawl fishery, 25 crabs.
  - In the hand-harvest fishery, 500 crabs, per twenty-four hour period that begins at 12:00 noon.
5. It is prohibited to use any tools, including, but not limited to, nets, rakes, tongs, hooks, poles, gaffs, or spears to take horseshoe crabs, except that gloves may be worn by the license holder.
6. Any person that does not qualify to hand-harvest horseshoe crabs is prohibited from entering the water to assist. Such unqualified persons are not prohibited from carrying crabs that have been placed on the beach by the license holder to a storage container or vehicle or taking crabs from a license holder for storage while remaining in a boat.
7. The taking of horseshoe crabs is restricted to holders of the General Commercial Fishing (Finfish) License (by hand) and the Principal Commercial Fishing License (by trawl). Certain holders of the Connecticut Department of Agriculture Conch License may qualify for a special Commercial Horseshoe Crab Fishing License. See Horseshoe Crabs (*Limulus polyphemus*) on page 28 for details.
8. The open season for the taking of horseshoe crabs is May 22 through July 7. During the open season, no horseshoe crab shall be taken from Friday at 6:00 PM through Sunday at 6:00 PM.

### Jonah Crab

1. A commercial license that allows lobster trap fishing is required to take Jonah crabs by traps. All traps must meet the lobster trap requirements, including trap tags.
2. The minimum carapace width is 4¾ inches.
3. The possession of egg-bearing females is prohibited.
4. The possession limit in the non-trap fishery is 200 crabs per day up to 500 crabs per trip.
5. Jonah crabs must be landed whole.

### Spiny Dogfish

1. The possession of dogfish fins without the rest of the fish is prohibited.
2. Current commercial fishery trip (possession) limits are available at [www.ct.gov/deep/TL](http://www.ct.gov/deep/TL), via **24 hour call-in line at 860.434.6374 (recorded message providing current possession limits)** or by calling the Marine Fisheries Division at 860.434.6043.
3. **Closure:** If 100% of the quota specified in the ASMFC Fishery Management Plan for Spiny Dogfish has been landed, or 100% of the quota specified by NOAA has been landed, the fishery is closed.

### Smooth Dogfish

1. Smooth dogfish fins must remain naturally attached, removing the fins of smooth dogfish is a violation of the ASMFC Coastal Shark Fishery Management Plan.

2. Current commercial fishery trip (possession) limits are available at [www.ct.gov/deep/TL](http://www.ct.gov/deep/TL), via [24 hour call-in line at 860.434.6374 \(recorded message providing current possession limits\)](http://www.ct.gov/deep/TL) or by calling the Marine Fisheries Division at 860.434.6043.

### **Summer Flounder (fluke) (*Paralichthys dentatus*)**

1. Commercial fishery moratorium –The landing or possession of summer flounder in Connecticut is prohibited unless the license holder has in his possession a *Summer Flounder Quota-Managed Species Endorsement* issued under qualification criteria revised in December 2003. These endorsements must be purchased annually by March 31<sup>st</sup> and are now printed on your commercial license. IMPORTANT: See Quota-Managed Species Endorsements (NEW LICENSE REQUIREMENT) on page 8. Contact the DEEP Marine Fisheries Division for information on qualification criteria.
2. See Trawl Nets on page 21 for information related to trawl mesh size-related possession limits.
3. Current commercial fishery trip (possession) limits are available at [www.ct.gov/deep/TL](http://www.ct.gov/deep/TL), via [24 hour call-in line at 860.434.6374 \(recorded message providing current possession limits\)](http://www.ct.gov/deep/TL) or by calling the Marine Fisheries Division at 860.434.6043.
4. Special restriction on filleting – While engaged in sport fishing activities, possession of summer flounder fillets less than recreational minimum length is prohibited unless the "rack" (carcass) of the fish from which the fillet was removed has been retained and is at the recreational size limit. This regulation does not prohibit filleting summer flounder on shore or at the dockside.
5. Special restriction on filleting – While engaged in commercial fishing, possession of summer flounder fillets less than 14 inches in length is prohibited unless the "rack" (carcass) of the fish from which the fillet was removed has been retained and is at least 14 inches in length. This regulation does not prohibit filleting summer flounder on shore or at the dockside.

### **Winter Flounder (*Pseudopleuronectes americanus*)**

1. Commercial fishery season closure – March 1 through April 14, inclusive.
2. Commercial fishery possession limits - 50 pounds or 38 fish unless the fish were taken in federal waters under a federal groundfish permit.
3. Transfer of winter flounder between vessels at sea is prohibited.
4. See Trawl Nets on page 21 for information related to trawl mesh size-related possession limits.

### **Monkfish (*Lophius americanus*)**

The possession limit for monkfish livers is 10% of the weight of whole fish on board or 25% of the weight of tails on board (see Page 21, minimum fish length section for minimum length of whole fish and tail length). Federal permit holders must comply with federal rules on fishing for monkfish, regardless of where the fish are taken.

### **Scup (porgy) (*Stenotomus chrysops*)**

1. Commercial fishery moratorium –The landing or possession of scup in Connecticut is prohibited from May 1 through October 31 unless the license holder has in his possession a *Scup Quota-Managed Species Endorsement* issued under qualification criteria revised in December 2003. These endorsements are now printed on your commercial license. IMPORTANT: See Quota-Managed Species Endorsements (NEW LICENSE REQUIREMENT) on page 8. Contact the DEEP Marine Fisheries Division for information on qualification criteria.
2. See Trawl Nets on page 21 for information related to trawl mesh size-related possession limits.
3. Current commercial fishery trip (possession) limits are available at [www.ct.gov/deep/TL](http://www.ct.gov/deep/TL), via [24 hour call-in line at 860.434.6374 \(recorded message providing current possession limits\)](http://www.ct.gov/deep/TL) or by calling the Marine Fisheries Division at 860.434.6043.
4. When fishing multiple gears the least restrictive trip limit is applied.

### **Striped Bass (*Morone saxatilis*)**

1. Permitted Gear – Angling only. Spear fishing or the use of a gaff is prohibited in Connecticut waters.
2. Release of Striped Bass – Any striped bass taken contrary to these provisions must immediately, and without avoidable injury, be returned to the waters from which taken.
3. Striped bass that are speared by recreational spear fishermen in Rhode Island or New York waters, in compliance with the laws of those two states, are permitted to be transported across the waters of this state to be landed at Connecticut ports as long as they meet our minimum length and possession limits (28", 1 fish per person)
4. **Sale of striped bass taken from Connecticut waters is prohibited.** If taken from the waters of a state in which commercial fishing is allowed, they may be sold in Connecticut, but only if they meet the

Connecticut minimum length (28 inches). Moreover, they must be tagged with a tag from the state of origin. Fishermen wishing to know the status of the fishery in New York or Rhode Island must contact the marine fishery agency in those states.

5. Landing of Striped Bass – Striped bass may not be landed with the head or tail removed.
6. Hybrid "Striped Bass" – Artificially reared hybrid striped bass (one parent *Morone saxatilis*) less than the minimum length may be possessed and sold if the retailer maintains documentation attesting to the point of origin (the hatchery or fish farm).
7. Tagging of striped bass is prohibited unless the person applying the tag is participating in a program approved by the Commissioner of the Department of Energy and Environmental Protection and the striped bass is greater than 16 inches total length.

**Tautog (blackfish) (*Tautoga onitis*)**

1. No holders of any commercial fishing or landing license or registration permitted to take tautog from the waters of this state or to land tautog in Connecticut, regardless of where such fish are taken, shall possess more than 10 fish.
2. Closed Season – No person engaged in commercial fishing shall take, bring ashore, or possess any tautog, wherever taken, except from April 1 to April 30, July 1 to August 31, October 8 to December 24, all dates inclusive.

## Appendices

### ***Appendix I: Inshore Trawl Line***

By Act of the General Assembly:

No person may use any otter trawl in any waters shoreward of the following described line: From the southern extremity of Stonington Point, Stonington; to the east end of the Stonington inner breakwater; follow the breakwater; from the west end of the breakwater to Wamphassuc Point. From the southern extremity of Dodge's Island, Stonington to the southern extremity of Ender's Island, Stonington; straight line to the southern extremity of Mason Point, Stonington; from the southerly extremity of Ram Point, Stonington straight line to the southern extremity of Morgan Point, Groton; from the entrance to Venetian Harbor, Groton to the southern extremity of Mumford Point, Groton; from the western extremity of Bushy Point Beach, Groton to the southern extremity of Avery Point, Groton; from the western extremity of Eastern Point, Groton, to the old New London Harbor lighthouse, New London; from the southern extremity of Magonk Point, Waterford; to the southern extremity of Millstone Point, Waterford; to the one fathom contour of Niantic Bay, thence to the southwest extremity of Black Point, East Lyme straight line to Buoy C5 at Seal Rock, East Lyme; thence to the southern extremity of Lands End, East Lyme; thence to the mouth of the Three Mile River, Old Lyme; straight line to Hatchett Point, Old Lyme; straight line from Hatchett Point, Old Lyme to Hawk's Nest Beach Point, Old Lyme. From the eastern extremity of Griswold Point, Old Lyme to Buoy 2 Old Saybrook Channel Entrance; thence to the southern extremity of Old Saybrook Point. From Cornfield Point, Old Saybrook to the mouth of the Oyster River, Old Saybrook; straight line to Chapman Point, Old Saybrook; straight line to Old Kelsey Point, Westbrook, from Money Point, Westbrook to Lobster Rock, Westbrook; from Lobster Rock, Westbrook to Buoy 3A Westbrook mouth of the Menunketesuck River; from Buoy 3A Westbrook to Kelsey Point, Clinton; to Hammonasset Point, Madison. From Hogshead Point, Madison to the southern extremity of Grass Island, Guilford; to the southern extremity of Mulberry Point, Guilford; to the southern extremity of Vineyard Point, Guilford; to the southern extremity of Outer Island, Branford; to the southern extremity of Haycock Point, Branford; from Haycock Point, Branford to the northeast extremity of Spectacle Island, Branford; from the southwest extremity of Spectacle Island, Branford to the flag pole at Mansfield Point, Branford; from the flag pole at Mansfield Point, Branford to the southern extremity of South End, East Haven; to the southern extremity of Morgan Point, East Haven to the southwest ledge on the east breakwater, New Haven; to the Luddington Rock breakwater to the west breakwater light in West Haven; to Oyster River Point, West Haven; to the southern extremity of Merwin Point, Milford to the southern extremity of Pond Point, Milford; to Welch's Point, Milford; to Buoy 7 Milford Outer Harbor; from Buoy 7 Milford Outer Harbor to Buoy 5 to the northwest corner of Charles Island, Milford; from the northwest corner of Charles Island, Milford to the southwest corner of Charles Island, Milford; to the south end of the outer breakwater at the Housatonic River to the southern extremity of Stratford Point, Stratford and Point No Point, Stratford. From Point No Point, Stratford to the southerly end of the east breakwater at Pleasure Beach, Bridgeport; to the south end of the west breakwater at Seaside Park, Bridgeport; to Buoy 4 Black Rock Harbor, Bridgeport. From Buoy 4 Black Rock Harbor, Bridgeport to Pine Creek Point, Fairfield; from Pine Creek Point, Fairfield to Buoy 4 Southport Harbor, Fairfield; from Buoy 4 to the southern extremity of Frost Point, Westport; to the southern extremity of Sherwood Point, Westport; to the southern point of Cedar Point, Westport; to Buoy 1 Georges Rock, Westport; to Buoy 2 Cockenoe Shoal; to Buoy 24 Westport to Buoy N28 Norwalk; to Buoy 3 Darien Five Mile River Entrance; to the Fish Island Buoy, Darien; to Long Neck Point, Darien. From Long Neck Point, Darien to Buoy 2 Cove Rocks, Stamford; to the southeast extremity of Shippan Point, Stamford; from the southwest extremity of Shippan Point, Stamford to the east end of the breakwater, Stamford Harbor; from the west end of the breakwater, Stamford Harbor to Gong 1 Greenwich South Reef; to Buoy 3 Greenwich Harbor Entrance; to the northeast extremity of Great Captain's Island, Greenwich; from the southwest extremity of Great Captain's Island, Greenwich to Byram Point.

### ***Appendix II: Offshore Trawl Line***

The Regulations of Connecticut State Agencies provide that no person shall use a vessel greater than 26 feet in length to trawl in any waters north of a line beginning at the southerly tip of the Byram River breakwater to buoy N2 which is two-tenths of a nautical mile southwest of Great Captain Island to buoy N34, which is one-half nautical mile south of Greenwich Point in Greenwich to buoy R32, which is eight-tenths of a nautical mile south of Shippan Point in Stamford to buoy R24A, which is nine-tenths of a nautical mile south of Pecks Ledge in Norwalk to buoy R24, which is nine-tenths of a nautical mile southeast of the southern tip of Cockenoe Reef in Norwalk to buoy BH, which is one and four-tenths nautical miles southeast of Penfield Reef Light in Bridgeport to a point midway between buoy R18 and buoy R20, which point is one and six-tenths nautical miles south of Point No Point in Stratford and thence towards the west end of the

west breakwater at New Haven Harbor and west of a line drawn from the Stratford Shoal light to the easterly breakwater of the Housatonic River in Milford.

### ***Appendix III: Demarcations between the Marine and Inland Districts***

The following table describes the demarcations between the Marine and Inland Districts for the rivers, coves, and embayments along the Connecticut shoreline

**Table 5. Demarcations Between the Marine and Inland Districts**

<b>Water Body</b>	<b>Town(s)</b>	<b>Demarcation Line</b>
Alewife Cove	New London-Waterford	Entirely in marine district
Back River	Old Saybrook	Entirely in marine district
Baker's Cove	Groton	Entirely in marine district
Beebe Cove	Groton	Entirely in marine district
Blackhall River	Old Lyme	Route 156
Branford River	Branford	Montowese Street
Bride Brook	East Lyme	First railroad crossing
Bruces Brook	Bridgeport-Stratford	Stratford Avenue
Byram River	Greenwich	First railroad crossing
Clinton River	Clinton (Indian River)	Route 1
Connecticut River	Old Lyme-Old Saybrook	First highway bridge (I-95)
Cove River	West Haven	Shore Road Route 122
Duck River	Old Lyme	Entirely in marine district
East Creek	Guilford	Tide gates at Guilford dock
East River	Guilford-Madison	Route 1
Farm River	East Haven	Route 142
Five Mile River	Darien-Norwalk	Route 136
Four Mile River	East Lyme-Old Lyme	First railroad crossing
Goodwives River	Darien	Entirely in marine district
Graniteville (Millstone) Brook	Waterford	First railroad crossing
Hammonasset River	Clinton-Madison	Route 1
Hammonds Cove	Waterford	Entirely in marine district
Horse Neck Brook	Greenwich	Junction with mouth of harbor
Housatonic River	Milford-Stratford	Merritt Parkway
Indian Harbor	Greenwich	First railroad crossing
Indian River	Milford	Route 122
Jordan Cove	Waterford	First railroad crossing
Lieutenant River	Old Lyme	Route 156
Menunketesuck River	Westbrook	Route 1
Mianus River	Greenwich	Dam north of Boston Post Road
Mile Creek	Old Lyme	Entirely in marine district
Mill River	Fairfield	Dam at Harbor Road
Mill River	New Haven	Tide gates at State Street
Muddy Brook	Westport	Route 136
Mumford Cove	Groton	Entirely in marine district
Mystic River	Stonington-Groton	500 feet north of U.S. Route 1
Neck River	Madison	Route 1
Negro Brook	Stratford	Route 110
Niantic River	East Lyme-Waterford	Golden Spur Bridge on Route 1-A
Noroton River	Darien-Stamford	Boston Post Road
Norwalk River	Norwalk	Wall Street
Oyster River	Milford	Route 122
Oyster River	Old Saybrook	Route 1
Palmer's Cove	Groton	Entirely in marine district

Water Body	Town(s)	Demarcation Line
Pataganset Cove	East Lyme	First railroad crossing
Patchogue River	Westport	Route 1
Pawcatuck River	Stonington	500 feet north of Route 1
Pequonnock River	Bridgeport	North Avenue
Pequot-Sepos Cove	Stonington	500 feet north of Route 1
Poquonnock River	Groton	500 feet north of Route 1
Pumpkin Ground Brook	Stratford	Route 110
Quiambaug Cove	Stonington	500 feet north of Route 1
Quinnipiac River	New Haven	Route 17
Rippowam River	Stamford	First railroad crossing
Rooster River	Bridgeport	North Avenue
Sasco Brook	Westport	Buckley's Mill Dam above Route 1
Saugatuck River	Westport	Kings Highway
Shaws Cove	New London	Entirely in marine district
Stonington Harbor	Stonington	Lambert Cove and Quana duck Cove (500 ft north of Rt 1)
Stony Brook	Westport	Riverside Avenue
Thames River	Groton-New London	500 feet north of Route 1
Three Mile River	Old Lyme	First railroad crossing
Tokeneke Brook	Darien	Old Farm Road
Wepawaug River	Milford	Route 122
Wequetequock River	Stonington	500 feet north of Route 1
West River	Guilford	Route 146
West River	West Haven	Tide gates at Orange Avenue
Winthrop Cove	New London	Entirely in marine district

#### Appendix IV: Bait Species

The following species listed here, to the exclusion of all other species, may be taken commercially in the inland district under an inland commercial bait license, or in the marine district under a marine commercial bait license. These species may also be offered for sale as bait species under a bait dealer's license.

(1) Golden shiner or "pond shiner" (*Notemigonus crysoleucas*); (2) common shiner (*Luxilus cornutus*); (3) fallfish (*Semotilus corporalis*); (4) creek chub (*Semotilus atromaculatus*); (5) spottail shiner or "river bait" (*Notropis hudsonius*); (6) bridle shiner (*Notropis bifrenatus*); (7) blacknose dace (*Rhinichthys atratulus*); (8) longnose dace (*Rhinichthys cataractae*); (9) pearl dace (*Margariscus margarita*); (10) bluntnose minnow (*Pimephales notatus*); (11) fathead minnow (*Pimephales promelas*); (12) cutlips minnow (*Exoglossum maxillingua*); (13) chub sucker (*Erimyzon oblongus*); (14) banded killifish (*Fundulus diaphanus*); (15) mummichug (*Fundulus heteroclitus*); (16) striped killifish (*Fundulus majalis*); (17) tidewater silverside (*Menidia beryllina*); (18) Atlantic silverside (*Menidia menidia*); (19) sand lance or "sand eels" (*Ammodytes* spp.); (20) bay anchovy (*Anchoa mitchilli*); (21) sheepshead minnow (*Cyprinodon variegatus*); (22) mullet species (*mugil* spp.); (23) frogs (except northern leopard frogs); (24) perch bugs; (25) helgramites; (26) mayfly nymphs; (27) other aquatic insects; (28) crayfish; (29) green crabs (*Carcinus maenas*); (30) fiddler crabs (*Uca* spp.); (31) hermit crabs (*Pagurus* spp.); (32) Asian (Japanese) shore crab (*Hemigrapsus sanguineus*); and (33) shrimp (families Crangonidae, Palaemonidae and Penaeidae).

In addition to the bait species listed above, the following species, if legally taken under the appropriate commercial license and meeting the minimum legal length requirements specified in this information circular, may be offered for sale as bait under a bait dealer's license: (1) menhaden (*Brevoortia tyrannus*); (2) alewives<sup>1</sup> (*Alosa pseudoharengus*); (3) blueback or "glut" herring<sup>1</sup> (*Alosa aestivalis*); (4) American eel (*Anguilla rostrata*); (5) butterfish (*Peprilus triacanthus*); (6) Atlantic mackerel (*Scomber scombrus*); (7) whiting (*Merluccius bilinearis*); (8) squid (*Loligo* sp.); (9) Atlantic herring (*Clupea harengus*); (10) hickory shad (*Alosa mediocris*); and (11) horseshoe crab (*Limulus polyphemus*).

<sup>1</sup> See page 23 for details regarding the emergency prohibition of the taking of alewives and blueback herring.

## **Appendix V: Species That May Be Taken Commercially in the Inland District**

- a. Carp (*Cyprinus carpio*)
- b. Common sucker (*Catostomus commersonii*)
- c. American eel (*Anguilla rostrata*)
- d. Sea lamprey (*Petromyzon marinus*)
- e. Atlantic tomcod or "frostfish" (*Microgadus tomcod*)
- f. Hickory shad (*Alosa mediocris*)
- g. American shad (*Alosa sapidissima*) – in the main stem Connecticut River only, south of the Putnam Bridge in Glastonbury.
- h. Alewife (*Alosa pseudoharengus*) **Fishery Closed**
- i. Blueback (glut or river) herring (*Alosa aestivalis*) **Fishery Closed**
- j. White perch (*Morone americana*)
- k. Yellow perch (*Perca flavescens*)
- l. Catfish species (*Ictalurus spp.*)
- m. Bait species: (1) golden shiner or "pond shiner" (*Notemigonus crysoleucas*); (2) common shiner (*Luxilus cornutus*); (3) fallfish (*Semotilus corporalis*); (4) creek chub (*Semotilus atromaculatus*); (5) spottail shiner or "river bait" (*Notropis hudsonius*); (6) bridle shiner (*Notropis bifrenatus*); (7) blacknose dace (*Rhinichthys atratulus*); (8) longnose dace (*Rhinichthys cataractae*); (9) pearl dace (*Margariscus margarita*); (10) bluntnose minnow (*Pimephales notatus*); (11) fathead minnow (*Pimephales promelas*); (12) cutlips minnow (*Exoglossum maxillingua*); (13) chub sucker (*Erimyzon oblongus*); (14) banded killifish (*Fundulus diaphanus*); (15) mummichug (*Fundulus heteroclitus*); (16) striped killifish (*Fundulus majalis*); (17) tidewater silverside (*Menidia beryllina*); (18) Atlantic silverside (*Menidia menidia*); (19) bay anchovy (*Anchoa mitchilli*); (20) sheepshead minnow (*Cyprinodon variegatus*); (21) mullet species (*Mugil spp.*); (22) frogs (except northern leopard frogs); (23) perch bugs; (24) helgramites; (25) mayfly nymphs; (26) other aquatic insects; (27) crayfish; (28) shrimp (families Crangonidae, Palaemonidae and Penaeidae).
- n. Any species of crustaceans, provided lobsters and blue crabs meet minimum legal size requirements and are taken by legal methods.

## **Appendix VI: Escape Vents and Escape Panels in Lobster Pots**

- a. All lobster pots used in Connecticut waters must have an escape vent in the catch compartment (parlor) of the pot. The vent must be in an unobstructed location and must measure either 2 inches by 5- $\frac{3}{4}$  inches rectangular, or must consist of two 2- $\frac{5}{8}$  inch circular openings.  
 Minimum escape vent sizes for pots used outside of Lobster Management Area (LMA) 6 (Long Island Sound) vary according to the minimum legal size of lobsters. Any fisherman authorized to fish in more than one LMA must adhere to the most restrictive measures, regardless of where fishing is taking place.
- b. All lobster pots made of material other than wood and used for the taking of lobsters in Connecticut waters shall be constructed so as to contain, on any side of the catch compartment (parlor), an escapement panel which, when open, will provide an unobstructed opening not less than 3- $\frac{3}{4}$  inches by 3- $\frac{3}{4}$  inches.  
 If constructed of wood, the escapement panel must include a rectangular escape vent not less than 2 inches by 5- $\frac{3}{4}$  inches and, on the long axis, be composed of lath not thicker than  $\frac{3}{8}$  of an inch.  
 If constructed of material other than wood, the escapement panel may be hinged and must be held in the closed position with either a) non-stainless uncoated, ferrous wire, the stock of which is not more than  $\frac{3}{32}$  of an inch in diameter or b) untreated natural fiber such as cotton, sisal, hemp, or manila.  
 All such pots and traps found in use that do not contain such escapement panels may be seized by any authorized representative of the Department of Energy and Environmental Protection and disposed of as determined by the Commissioner.
- c. Holders of a federal permit to take lobsters from the EEZ may, for complying with the escapement panel provision in the EEZ, use a "bungee cord" to hold the trap door shut, as long as the cord is attached with untreated non-stainless/uncoated ferrous metal not greater than  $\frac{3}{32}$  inch (0.24 cm) in diameter and in such a way that when the untreated material degrades, the door of the trap will pivot open freely.

### Appendix VII: Areas in Which Trawling is Prohibited

- a. The use of otter trawls, beam trawls, or similar devices west of the LORAN C 14935 line at Kimberly Reef near Madison is prohibited from one hour after sunset to one hour before sunrise.
- b. The use of otter trawls, beam trawls, or similar devices is prohibited north of the line described in Appendix I: Inshore Trawl Line (page 32). Furthermore the use of otter trawls, beam trawls, or similar devices from any vessel greater than 26 feet in length is prohibited north and west of the lines described in Appendix II: Offshore Trawl Line (page 32).

In addition, from Friday one hour after sunset to Sunday one hour before sunset, trawling is prohibited inside a line from the southern tip of the Old Saybrook west breakwater to Buoy R8 to the shoreline at 72 degrees 18 minutes west longitude in Old Lyme.

In addition, the use of otter trawls, beam trawls, or similar devices from any vessel greater than 44 feet in length is prohibited in Connecticut waters north of a line running from shore to shore through Buoy C5 at Three Foot Rock in East Lyme and Buoy N6 at Black Rock in Waterford.

- c. The use of otter trawls, beam trawls, or similar devices from any vessel greater than 44 feet in length is prohibited in Connecticut waters west of 73 degrees longitude unless the vessel operator has been authorized to operate a vessel of this size in this area.
- d. The use of otter trawls on designated oyster beds, without the permission of the bed leaseholder is prohibited. For copies of oyster bed boundaries, contact the Department of Agriculture, Bureau of Aquaculture at 203-874-0696.

### Appendix VIII: Connecticut State Waters Boundary Line

The points described in the following table define the Connecticut State waters boundary line from Greenwich, CT to Stonington, CT.

**Table 6. Points Defining the Connecticut State Waters Boundary Line**

Chart Number	Latitude	Longitude	Magnetic Course	Loran TDs		
				W	X	Y
12363	40° 59.32' N	73° 39.62' W	166° / 194°	No reliable TDs		
	40° 59.02' N	73° 39.41' W	149° / 211°	15360.2	26915.0	43987.0

## **Appendix IX: Glossary of Commercial Fishery Licensing Related Terms**

The following commercial fishing related terms are defined in the Connecticut General Statutes (Section 26-1 Definitions.) pertaining to "Fisheries and Game" Chapter 490 (DEEP managed fisheries).

26-1. Definitions.

(6) "Commercial fisherman" means any person, firm or corporation engaged in commercial fishing.

(7) "Commercial fishing" means taking or attempting to take any regulated species for commercial purposes or by the use of any commercial fishing gear.

(8) "Commercial fishing gear" means any equipment commonly used to take regulated species for commercial purposes including, but not limited to, lobster pots, otter trawls, beam trawls, balloon trawls, midwater trawls, sea scallop dredges, scoop nets, scap nets, seines, trap nets, fyke nets, crab traps, gill nets, trammel nets, set lines, long lines, hook and line if such fishing is conducted for commercial purposes, minnow seines, minnow traps, eel pots, fish pots, pound nets, throw nets or similar devices and any equipment listed as commercial fishing gear in regulations adopted by the Commissioner of Energy and Environmental Protection.

(16) "Regulated species" means the following species or species groups: Bait species, crustacea, finfish, horseshoe crabs, sea scallops, squid or whelk.

(17) "Seafood dealer" means (A) a person, firm or corporation, other than the ultimate consumer, who purchases, ships, consigns, transfers, transports, barbers, accepts or packs any regulated species, except bait species directly from a commercial fisherman for resale, or (B) a commercial fisherman who sells, ships, consigns, transfers or barbers his or her own catch of such species to anyone other than a seafood dealer.

(19) "Sport fishing" means taking or attempting to take any regulated species whether from salt, brackish or fresh water by any method other than by commercial methods specified by law and regulations of the Commissioner of Energy and Environmental Protection for commercial purposes.

(20) "Taking" means shooting, pursuing, hunting, fishing, killing, capturing, trapping, snaring, hooking and netting any species of wildlife and attempting to shoot, pursue, hunt, fish, kill, capture, trap, snare, hook, net or catch any species of wildlife or any act of assistance to any other person in taking or attempting to take such wildlife whether or not such act results in the capture of any such wildlife.

(23) "Wildlife" means all species of invertebrates, fish, amphibians, reptiles, birds and mammals which are *ferae naturae* or wild by nature.

The following terms are defined in the Connecticut General Statutes (26-142a) pertaining to commercial fisheries and related licensing and reporting.

(1) "Application deadline" means March thirty-first of each year;

(2) "Commercial bait fishing" means commercial fishing by use of seines, traps, scaps, scoops, weirs or similar devices to take and land bait species;

(3) "Commercial blue crab fishing" means commercial fishing by use of scoop nets, hand lines or manually operated and personally attended devices approved by the commissioner to take and land blue crabs only;

(4) "Commercial fishing vessel" means a commercial landing vessel, or a vessel used to engage in commercial lobster pot fishing, otter trawl fishing, general commercial fishing or pound net fishing. "Commercial fishing vessel" does not include any skiff used to aid the primary pound net fishing vessel;

(5) "Commercial landing vessel" means a vessel used to land regulated species taken in commercial fishing conducted exclusively outside the waters of this state;

(6) "Commercial lobster pot fishing" means commercial fishing by use of lobster pots only to take and land regulated species other than blue crabs;

(7) "Commercial shad fishing" means commercial fishing by use of gill nets, seines, scap or scoop nets to take and land American shad only;

(8) "Environmental tourism vessel" means a vessel used to carry passengers for hire and operated for the purpose of providing a platform for education and observation and collection of marine or estuarine species using commercial fishing gear under conditions specified in the permit issued under this section;

(9) "General commercial fishing" means commercial fishing by use of gill nets, seines, traps, fish pots, cast nets, fykes, scaps, scoops, eel pots, hook and line or similar devices to take and land squid, finfish other than American shad or bait species, or commercial fishing for horseshoe crabs by hand;

(10) "Limited access license" means any endorsement, license, permit, or registration required under this section, the number of which may be limited by the commissioner or by a provision of the general statutes;

(11) "Otter trawl fishing" means commercial fishing by use of otter trawls, beam trawls, balloon trawls, midwater trawls, sea scallop dredges or any similar device to take and land regulated species other than blue crabs;

- (12) "Party or charter fishing vessel" means a vessel used to carry passengers for hire and operated for the purpose of providing a recreational fishing platform to take and land marine regulated species;
- (13) "Personal use gill net fishing" means the use of a gill net of not more than sixty feet in length to take menhaden only for personal use and not for sale;
- (14) "Personal use lobster fishing" means: (A) The use of not more than ten lobster pots to take lobsters and finfish only for personal use and not for sale whenever such finfish are taken incidental to lobster fishing and in accordance with recreational fishery creel limits, length limits and seasons adopted pursuant to section 26-159a, or (B) the taking of lobsters for personal use only by hand or by skin or scuba diving;
- (15) "Pound net fishing" means commercial fishing by use of pound nets or similar devices to take regulated species other than lobsters or blue crabs;
- (16) "Principal commercial fishing license" means a license authorizing both commercial lobster pot fishing and otter trawl fishing;
- (17) "Quota-managed species" means a regulated species managed through a state-wide seasonal or annual commercial harvest limit;
- (18) "Restricted commercial fishing" means: (A) Commercial fishing by use of hook and line to take squid and finfish, other than American shad or bait species, or (B) the taking of menhaden by use of a gill net that is not more than two hundred feet in length and that is manually set and retrieved and personally attended to when in use; and
- (19) "Restricted commercial lobster pot fishing" means commercial fishing by only the use of not more than fifty lobster pots for the taking and landing of regulated species other than blue crabs.
