

Connecticut Clean Marina Pledge

The Connecticut Clean Marina Program promotes marinas and boatyards that demonstrate their voluntary commitment to reduce pollution. Facilities that consistently use practices that reduce environmental impact will be designated as “Clean Marinas.”

As the first step toward achieving Clean Marina status, on behalf of _____ (name of facility), I pledge to do my part to maintain an environmentally responsible business.

I will identify opportunities and implement practices to control pollution associated with:

- Mechanical activities
- Painting & fiberglass repair
- Hauling and storing boats
- Fueling
- Facility management
- Emergency planning

I commit to actively pursue designation as a Connecticut Clean Marina. Within one year of the date below, I will implement appropriate pollution prevention practices and will apply to the Connecticut Department of Environmental Protection for recognition as a Connecticut Clean Marina.
