Re: Permit No. CT0030651
Town of Fairfield
Mill River Watershed

The Scope of Study entitled, "*Work Plan for Monitoring Wastewater Discharge Temperature – SedRAP Implementation – Mill River Study Areas I-V – The Former Exide Battery Facility Project – 2190 Post Road, Fairfield, Connecticut*" received by the Department on December 19, 2013, prepared for Exide Group, LLC by CCA, LLC has been reviewed by the Department of Energy and Environmental Protection, Bureau of Materials Management and Compliance Assurance. The scope of study is hereby approved in accordance with Section 22a-430 of the Connecticut General Statutes as amended.

The scope of study addresses the investigation of thermal impacts on the Mill River associated with the discharge of dredged materials dewatering wastewaters. This submittal satisfies the requirements of Section 9(A) of the Department of Energy and Environmental Protection's Bureau of Material Management and Compliance Assurance Permit No. CT0030651 issued on November 20, 2013.

This Scope of Study shall be the basis of the report required under Section 9(B) of the permit.

This approval does not relieve you of the obligation to obtain any other authorizations as may be required by Federal, State or Local laws or regulations.

If you have any questions regarding this matter, please contact Donald Gonyea at (860) 424-3827.

Sincerely,

Oswald Inglese, Jr.
Director
Bureau of Materials Management and
Compliance Assurance
