

2002 Connecticut Guidelines

For

Soil Erosion and Sediment Control

by

*The Connecticut Council on Soil and Water Conservation
in Cooperation with the
Connecticut Department of Environmental Protection*

The Honorable John G. Rowland, Governor
State of Connecticut

Thomas O'Dell, Chairman
Connecticut Council on Soil and Water Conservation

Arthur J. Rocque, Jr., Commissioner
Connecticut Department of Environmental Protection

Book designed by Adell Donaghue
Adell Donaghue Design

Edited by Jane A. Rothchild

Project Coordination by Marla P. Butts
Connecticut Department of Environmental Protection

Illustrations by Tom Ouellette, Guy Kingsbery, and
Staff of the Connecticut State Office of the US Natural Resources Conservation Service

Published Pursuant to section 22a-328 of the Connecticut General Statutes

Book Production by the DEP Bureau of Water Management, Inland Water Resources Division

Additional copies may be purchased from the DEP Store
79 Elm Street, Hartford, Connecticut 06106-5127
<http://dep.state.ct.us>
Phone: (860) 424-3555 Fax: (860) 424-4088
ISBN 0-942085-10-8

© 2001 by the Connecticut Department of Environmental Protection

Effective May 2002
Errata Corrections September 2007

Funded in part by the CT DEP through a
US EPA Clean Water Act section 319 grant and by the
Connecticut Association of Conservation Districts
through a US EPA Clean Water Act section 604(b)
grant administered by the CT DEP.

The Council on Soil and Water Conservation and the Department of Environmental Protection are affirmative action/equal opportunity employers, providing programs and services in a fair and impartial manner. In conformance with the Americans with Disabilities Act, the Council and DEP make every effort to provide equally effective services for persons with disabilities needing auxiliary aids or services, or for more information by voice or TTY/TDD call (860) 424-3000.

Acknowledgements

Members of the Task Force responsible for the production of the 2002 Connecticut Guidelines on Soil Erosion and Sediment Control are:

Marla Butts, (Chair) Connecticut Department of Environmental Protection;
Joseph Alberti, P.E., L.S.;
James D. Benson, CPESC, Benson Environmental Services;
Arthur P. Christian II, P.E., Connecticut Department of Environmental Protection;
Paul Corrente, Connecticut Department of Transportation;
John W. Deering, John W. Deering, Inc.;
Cindy Fazendeiro, Connecticut Water Company;
Aubrey Mead, Jr., P.E., Redniss & Mead, Inc.;
Joseph Polulech, P.E., United States Natural Resources Conservation Service;
J. Stanley Watson, Northeast Utilities.

Additional individuals and corporations that provided advice, comment and assistance on the Guidelines during revision include:

K.C. Alexander, Connecticut Department of Environmental Protection;
Glen Ballinger, Conwed Fibers;
Allan R. Bennett, former Executive Director, Connecticut Council on Soil and Water Conservation;
John Barrasso, Connecticut Construction Industries Association;
George Braun, Reinco;
Aldo Bruzzi, Connecticut Landscaping/Bruzzi Corp.;
Cheryl Chase, P.E., Connecticut Department of Environmental Protection;
Warren Cohn, American Excelsior Company and Synthetic Industries;
Monica Cusano, All State Silt Fencing Company;
Sam Dambrouso, former Executive Director, Connecticut Council on Soil and Water Conservation;
Gregory Deegan, North American Green Company;
Glenn D. Dreyer, Director, Connecticut College Arboretum;
Glenn Elliott, Connecticut Department of Environmental Protection;
Michael Flowers, Flowers Landscape Development Inc.;
Jim Giumarra, American Excelsior Company;
Jeff Harris, A. H. Harris & Sons, Inc.;
Jim Harris, Hart Seed Company;
Donald S. Herbert, Sales Engineer, Contech Construction Products, Inc.;
Brian Holmes, Connecticut Construction Industries Association;
Lynn Karwoski, Connecticut Department of Environmental Protection;
Arend Jan Knuttel, Hartford County Soil and Water Conservation District;
Tim Lancaster, North American Green;
William Lyons, Bridgeport Hydraulic Company;
Doug Morgan, Winding Brook Turf Farm, Inc.;
Joe Moscarillo, Cotton Hill Farms;
Elizabeth Napier, Connecticut Department of Environmental Protection;
William A. Neiring, Ph.D., Botany Department, Connecticut College;
Tony Payone, Eastern Pipe Products Company; Ronald Perez, Weyerhaeuser;
Neil Reinecker, Reinco;
J. Eric Scherer, International Erosion Control Association /Hudson River Navigator;
Bill Seccareccia, Karandrew Turf Farms, Inc.;
Thomas Small, Tilcon Connecticut Inc.;
Tom Steinke, Director, Fairfield Cons. Comm & Wetlands Agency;
Lynn St. James, Connecticut Construction Industries Association;
Chris Stone, P.E., Connecticut Department of Environmental Protection;
Marc S. Theisen, Synthetic Industries;
David B. Thompson, Newtown Environmental Official;
Allan Williams, Connecticut Department of Environmental Protection.

Table of Contents

Chapter 1

Introduction to the Guidelines

Purpose and Function of the Guidelines	1-1
Statement of the Problem	1-2
History	1-2
Soil & Water Conservation Districts Established	1-2
Federal Water Pollution Control Act and the 208 Program	
Causes Erosion and Sediment Control Regulation.....	1-2
Guidelines Established and Revised	1-3
Guidelines Cited in General Permit for	
Construction Activities	1-3
Major Changes	1-3
How to Use the Guidelines	1-4

Chapter 2

The Erosion and Sedimentation Process

Definition.....	2-1
Types of Erosion	2-2
Factors Influencing Erosion.....	2-4
Soil Characteristics	2-5
Vegetative Cover	2-5
Topography	2-5
Climate	2-5
Types of Sediment and Sedimentation	2-6
Sediment Pollution and Damage.....	2-6
Erosion and Sediment Action Associated with Land Use	
Changes and Development	2-7

Table of Contents

Chapter 3

Erosion and Sediment Control Plans

Part I: General Guidelines	3-3
Definition of an E&S Plan.....	3-3
Plan Adequacy.....	3-3
Minimum Standards and Specifications.....	3-4
Standard Measure Coding System.....	3-4
Part II: Selection & Planning Process	3-4
Review of Available Information.....	3-4
Site Investigations and Limitations.....	3-5
Site Locus Map.....	3-5
Detailed Existing Conditions Map.....	3-5
Topography	3-5
Drainage Patterns.....	3-5
Soils.....	3-6
Vegetation	3-6
Coastal Resources and Other Sensitive Areas	3-6
Adjacent Areas	3-7
Principles of Site Planning for Erosion and Sediment Control	3-7
Plan Development to Fit Environmental Conditions.....	3-7
Keep Land Disturbance to a Minimum.....	3-7
Slow the Flow	3-8
Keep Clean Runoff Separated	3-9
Reduce on Site Potential Internally and	
Install Perimeter Controls	3-9
Implement a Thorough Maintenance and Follow up Program.....	3-9

Table of Contents

Chapter 3

Erosion and Sediment Control Plans

Part II: Selection & Planning Process *continued*

Select Erosion and Sediment Control Measures	3-9
Step 1 - Identify Problem Areas	3-10
Step 2 - Identify Control Problems	3-10
Step 3 - Identify Strategy	3-10
Step 4 - Select the Appropriate Measures from the Control Groups.....	3-10

Part III: E&S Plan Requirements

Plan Format	3-10
Monitoring and Maintenance	3-10
E&S Plan Checklists	3-12
Narrative.....	3-12
Support Documents (As may be needed to support engineering designs)	3-12
Site Drawing(s) Checklist.....	3-12
Jurisdictional Features Required on All Maps or Drawings	3-12
Site Locus Map.....	3-12
Topography, Natural Features and Regulatory Boundaries.....	3-12
Drainage Patterns.....	3-13
Road and Utility Systems.....	3-13
Clearing, Grading, Vegetation Stabilization	3-13
Erosion & Sediment Control Drawings	3-13

Table of Contents

Chapter 4

Large Construction Site Sequences and Special Treatments Introduction

- Introduction** 4-1
- Part I: Large Construction Site Sequences** 4-2
 - New Roadway Construction 4-2
 - Large Building Sites and Parking Areas 4-3
 - Utility Projects 4-4
- Part II: Special Treatments** 4-4
 - Water Management Within Slopes 4-4
 - Cut Slopes or Cuts into Existing Slopes 4-4
 - Slope of Placed Fill 4-5
 - Failure of an Existing Slope: 4-5
 - Possible Repair Designs 4-5
 - Stockpile Management 4-9
 - Stream Deflectors 4-9
 - Construction Access Road 4-9
 - Utility Watercourse Crossing 4-10
 - Pipe Flume Crossing 4-10
 - Diversion Channel Crossing 4-11
 - Sequential Cofferdams 4-11
 - Soil Bioengineering for Stabilization 4-16

Table of Contents

Chapter 5

The Functional Groups and Measures

Protect Vegetation	5-1-1
Tree Protection.....	5-1-2
Preserve and Conserve Soil.....	5-2-1
Topsoiling.....	5-2-2
Land Grading.....	5-2-5
Surface Roughening.....	5-2-10
Dust Control	5-2-12
Vegetative Soil Cover.....	5-3-1
Temporary Seeding.....	5-3-2
Permanent Seeding	5-3-5
Sodding.....	5-3-12
Landscape Planting.....	5-3-16
Non-Living Soil Protection	5-4-1
Temporary Soil Protection	5-4-3
Mulch for Seed.....	5-4-5
Landscape Mulch	5-4-8
Temporary Erosion Control Blanket.....	5-4-10
Permanent Turf Reinforcement Mat	5-4-12
Stone Slope Protection	5-4-14
Stabilization Structures.....	5-5-1
Retaining Walls.....	5-5-3
Riprap.....	5-5-8
Gabions	5-5-13
Permanent Slope Drain	5-5-16
Channel Grade Stabilization Structure.....	5-5-18
Temporary Lined Chute.....	5-5-20
Temporary Pipe Slope Drain	5-5-23
Drainageways and Watercourses	5-6-1
Vegetated Waterway.....	5-6-2
Temporary Lined Channel.....	5-6-16
Permanent Lined Waterway	5-6-18
Temporary Stream Crossing.....	5-6-29

Table of Contents

Chapter 5

The Functional Groups and Measures

Diversions.....	5-7-1
Temporary Fill Berm	5-7-3
Water Bar	5-7-6
Temporary Diversion	5-7-9
Permanent Diversion.....	5-7-12
Subsurface Drains.....	5-8-1
Subsurface Drain	5-8-2
Detention Structures.....	5-9-1
Detention Basin.....	5-9-2
Energy Dissipators.....	5-10-1
Level Spreader.....	5-10-2
Outlet Protection.....	5-10-6
Stone Check Dam.....	5-10-11
Sediment Impoundments, Barriers, and Filters.....	5-11-1
Temporary Sediment Basin.....	5-11-5
Temporary Sediment Trap.....	5-11-25
Hay Bale Barrier.....	5-11-30
Geotextile Silt Fence.....	5-11-35
Turbidity Curtain.....	5-11-41
Vegetative Filter.....	5-11-45
Tire Tracked Soils.....	5-12-1
Construction Entrance.....	5-12-2
Dewatering.....	5-13-1
Pump Intake and Outlet Protection.....	5-13-3
Pumping Settling Basin.....	5-13-7
Portable Sediment Tank.....	5-13-11
Dewatering of Earth Materials.....	5-13-14

Appendices

Appendix A:	A-I
Model Soil Erosion and Sediment Control Regulations for Land Development	
Appendix B:	B-I
The Erosion and Sediment Control Act (Sections 22a-329) Public Act 83-388	
Appendix C:	C-I
Definitions and Abbreviations	
Appendix D:	D-I
Bibliography and Suggested Reading	
Appendix E:	E-I
Directory of Related Agencies (Including Useful Internet Web Pages)	
Appendix F:	F-I
Matrix of Laws Which May Require Erosion and Sediment Control Implementation	
Appendix G:	G-I
Construction Network Scheduling	
Appendix H:	H-I
Soil Classification Systems	
Appendix I:	I-I
RUSLE	
Appendix J:	J-I
Risk Assessment Adapted from CT DOT Drainage Manual	
Appendix K:	K-I
Conversion Factors for Select English/Metric Measurements	
Appendix L:	L-I
CT Guidelines for Soil Erosion and Sediment Control Measures Wall Chart	
Appendix M:	M-I
