

# Public Emergency Notification

This area is located within the Emergency Planning Zone of Millstone Power Station. During a potential or actual emergency condition, local officials will sound a steady siren tone for approximately 3 minutes or use public address system announcements on loudspeakers. The sirens tell the public to turn on Emergency Alert System radio or TV stations.

Connecticut officials may close affected parks, forests and recreational areas and direct you to evacuate using designated routes. (In the event of a nuclear power plant emergency, special routes to host communities will be provided.)

**Turn on an Emergency Alert System (EAS) station  
for official information and instructions.**

## Primary EAS Radio Stations

**WDRC** - 1360 AM, 102.9 FM (Hartford)

**WTIC** - 1080 AM, 96.5 FM (Hartford)

**WCTY** - 97.9 FM (Norwich)
