

Sec. 14-286c. Left and right turns.

(a) Each person riding a bicycle upon the traveled portion of a highway and intending to make a left turn after proceeding pursuant to the provisions of section 14-244 of subsection (b) of this section, may in lieu of the procedure prescribed by section 14-241, approach as close as practicable to the right-hand curb or edge of the highway, proceed across the intersecting roadway and make such turn as close as practicable to the curb or edge of the highway on the far side of the intersection, provided such procedure is not prohibited by any regulation issued by any town, city, borough or the State Traffic Commission. (b) Each person riding a bicycle upon the traveled portion of a highway and intending to make a right turn may in lieu of the procedure prescribed by section 14-244, before turning and while in motion or if stopped while waiting to turn signal such turn by extending his right hand and arm horizontally with forefinger extended. (c) No person operating a bicycle upon the traveled portion of a highway and intending to make a right or left turn shall be required when making a signal intention to make such signal continuously.
