## ENGINEERING DIRECTIVE

\_\_\_\_\_  
Engineering Administrator

### Revised Standard Sheets Issued

The following Traffic Engineering Standard Sheets were recently revised, as noted.

#### **Traffic Signals and Cable Assignments (TR-1105\_01)**

- Removed strain insulator callout to be in agreement with revisions to TR-1114\_01,
- Added bonding requirements for wood utility poles.

#### **Pole Anchor, "Y" Clamp, Sign Hanger (TR-1114\_01)**

- Clarified attachments to wood utility poles,
- Added bonding requirements for steel span poles and wood utility poles,
- Removed wood utility pole anchoring details.

The revised sheets are available online at [Traffic Engineering Standard Drawings web page](#). They should be used in all future projects.

Questions regarding this directive should be directed to Ms. Lisa Conroy at (860) 594-2985.
