Figure 3

The project engineer will download the index (either Highways or Traffic) and the required standard sheets from the following location:

<http://www.ct.gov/dot/cwp/view.asp?a=2303&q=410884>

The standard MicroStation dgn files will not be signed. Only the standard pdfs will have a digital signature.

Figure 3

They will then fill out the form field with the project number as shown in Figure 4:

*ONLY STANDARD SHEETS MARKED WITH AN "✓" ARE IN THIS PROJECT # 123-4567			**REVISED		
✓ SHEET NO.	TITLE	APPROVAL DATE**	✓ SHEET NO.	TITLE	APPROVAL DATE**

Figure 4

The project engineer will simply place an X next to the standard sheets that are required for the project by clicking on the square next to the sheet they need (Figure 4). In the Highway Index Sheet, if the engineer selects any of the catch basin standard sheets, the standard sheets associated with that catch basin will automatically be selected also:
