

Sec. 14-96aa. Standards and specifications for lamps for snow-removal and highway maintenance equipment. (a) The Commissioner of Motor Vehicles shall adopt standards and specifications applicable to head lamps, clearance lamps, identification and other lamps on snow-removal and other highway maintenance and service equipment when operated on the highways of this state in lieu of the lamps otherwise required on motor vehicles by sections [14-96a](#) to 14-96z, inclusive. Such standards and specifications may permit the use of flashing lights for purposes of identification on snow removal and other highway maintenance and service equipment when in service upon the highways.

(b) No person shall operate any snow-removal or other highway maintenance and service equipment on any highway unless the lamps thereon comply with and are lighted when and as required by the standards and specifications adopted as provided in this section.

(c) Violation of the provisions of subsections of subsection (b) of this section shall be an infraction.
