Re: City of Stamford, CT – Stamford Complete Streets and Transit Access Project.

Dear Secretary LaHood,

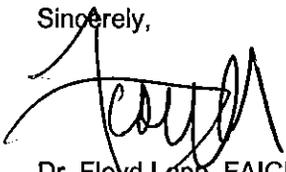

At a meeting of the South Western Region Metropolitan Planning Organization (MPO) on September 24, 2009, the Stamford Complete Streets and Transit Access Project was unanimously supported in a resolution by our members.

The project consists of five major road improvements to facilitate access with Interstate 95 and the addition of a new transit system in the South End of Stamford.

This application reinforces the goals and objectives of the ARRA Transportation Investment Generating Economic Recovery (TIGER) Program.

We urge your support of this very important application.

Sincerely,

Dr. Floyd Lapp, FAICP
Executive Director
South Western Regional Planning Agency
