From:  Mark W. Alexander
Transportation Assistant Planning Director
Department of Transportation
Office of Environmental Planning
Bureau of Policy and Planning

Date: July 19, 2016

Subject: Reconstruction of Old Farms Road, Avon, Connecticut

The Connecticut Department of Transportation (CTDOT) originally scoped this project in the *Environmental Monitor* on November 22, 2011 to initiate the CEPA scoping process. The public, state agencies, and other interested persons/parties were allowed to comment on any potential environmental impacts or concerns regarding the proposed project until December 2, 2011. Comments were received from the Department of Public Health, the Department of Energy and Environmental Protection, and the Office of Policy and Management. Currently, however, there is no future State or Federal funding programmed for the design and/or construction phases of this proposal; and CTDOT is no longer involved in this project. Since this is no longer a State project, no further documentation is required under CEPA. Any future transportation improvements located in this area involving CTDOT action and/or funding will require an updated environmental analysis and potential scoping at that time

Should you have any questions or concerns, please contact me at (860) 594-2931.
