

February 13, 2008

Work continues on the drainage repairs along the low-speed-lane shoulders, in both directions. This work is continuing throughout the winter, as weather permits. The drainage repairs along the shoulders in both directions will be completed in spring of 2008.

Work on Route 70 and Austin

Road will be completed in late spring or early summer of 2008. Final paving, line striping, etc., is expected to be completed during the Summer of 2008.
