

2016
LIMITED ACCESS
STATE NUMBERED
HIGHWAYS

AS OF DECEMBER 31, 2015

CONNECTICUT DEPARTMENT OF TRANSPORTATION
BUREAU OF POLICY AND PLANNING
OFFICE OF ROADWAY INFORMATION SYSTEMS
ROADWAY INVENTORY SECTION

INTRODUCTION

Each year, the Roadway Inventory Section within the Office of Roadway Information Systems produces this document entitled "Limited Access - State Numbered Highways," which lists all the limited access state highways in Connecticut. Limited access highways are defined as those that the Commissioner, with the advice and consent of the Governor and the Attorney General, designates as limited access highways to allow access only at highway intersections or designated points. This is provided by Section 13b-27 of the Connecticut General Statutes.

This document is distributed within the Department of Transportation and the Division Office of the Federal Highway Administration for information and use. The primary purpose to produce this document is to provide a certified copy to the Office of the State Traffic Administration (OSTA). The OSTA utilizes this annual listing to comply with Section 14-298 of the Connecticut General Statutes. This statute, among other directives, requires the OSTA to publish annually a list of limited access highways. In compliance with this statute, each year the OSTA publishes the listing in the Connecticut Law Journal.

The following is a complete listing of all state numbered limited access highways in Connecticut and includes copies of Connecticut General Statute Section 13b-27 (Limited Access Highways) and Section 14-298 (Office of the State Traffic Administration).

It should be noted that only those highways having a State Route Number, State Road Number, Interstate Route Number or United States Route Number are listed. The ramps and turning roadways in the interchanges associated with these highways are also full control limited access highways. All mileages have been rounded to the nearest tenth of a mile.

- Q - Governor John Davis Lodge Turnpike
- R - Wharton Brook Connector
- S - Mount Carmel Connector
- T - William J. Hilliard Memorial Highway
- U - Branford Connector
- V - Aircraft Road (formerly Canel Road)
- W - Oxford Airport Access Road
- X - E Bartlett Barnes Highway

RELEVANT STATE STATUTES

Sec. 13b-27. Limited access highway. The commissioner, with the advice and consent of the Governor and the Attorney General, may designate a proposed state highway, or portion thereof, as a limited access highway so as to allow access thereto only at highway intersections or at designated points, when in their opinion such limitation of access would be in the interest of public convenience, safety and necessity. With respect to such highway or portion thereof, the commissioner shall have and exercise all the powers and authority vested in him by statute concerning state highways.

Sec. 14-298. Office of the State Traffic Administration. There shall be within the Department of Transportation the Office of the State Traffic Administration, which shall constitute a successor to the State Traffic Commission, in accordance with the provisions of sections 4-38d, 4-38e and 4-39. For the purpose of standardization and uniformity, said office shall adopt and cause to be printed for publication regulations establishing a uniform system of traffic control signals, devices, signs and markings consistent with the provisions of this chapter for use upon the public highways. The Commissioner of Transportation shall make known to the General Assembly the availability of such regulations and any requesting member shall be sent a written copy or electronic storage media of such regulations by said commissioner. Taking into consideration the public safety and convenience with respect to the width and character of the highways and roads affected, the density of traffic thereon and the character of such traffic, said office shall also adopt regulations, in cooperation and agreement with local traffic authorities, governing the use of state highways and roads on state-owned properties, and the operation of vehicles including but not limited to motor vehicles, as defined in section 14-1, and bicycles, as defined in section 14-286, thereon. A list of limited-access highways shall be published with such regulations and said list shall be revised and published once each year. The Commissioner of Transportation shall make known to the General Assembly the availability of such regulations and list and any requesting member shall be sent a written copy or electronic storage media of such regulations and list by the commissioner. A list of limited-access highways opened to traffic by the Commissioner of Transportation in the interim period between publications shall be maintained in the Office of the State Traffic Administration and such regulations shall apply to the use of such listed highways. Said office shall also make regulations, in cooperation and agreement with local traffic authorities, respecting the use by through truck traffic of streets and highways within the limits of, and under the jurisdiction of, any city, town or borough of this state for the protection and safety of the public. If said office determines that the prohibition of through truck traffic on any street or highway is necessary because of an immediate and imminent threat to the public health and safety and the local traffic authority is precluded for any reason from acting on such prohibition, the office, if it is not otherwise precluded from so acting, may impose such prohibition. Said office may place and maintain traffic control signals, signs, markings and other safety devices, which it deems to be in the interests of public safety, upon such highways as come within the jurisdiction of said office as set forth in section 14-297. The traffic authority of any city, town or borough may place and maintain traffic control signals, signs, markings and other safety devices upon the highways under its jurisdiction, and all such signals, devices, signs and markings shall conform to the regulations established by said office in accordance with this chapter, and such traffic authority shall, with respect to traffic control signals, conform to the provisions of section 14-299.
