 Railroad Station (New Haven) Stamford Rail Yard

Notes: This is a general list compiled during the development of this document. The actual number of CTDOT facilities covered under other general permits may be different from the total number listed in this appendix.

1. Permit registration and compliance is by the Terminal Operator.
2. Bradley International Airport is currently discharging stormwater under a DEEP Consent Order until their NPDES permit is issued (submitted to DEP 2/2010)
3. The CT Transit Company is responsible for acquiring and maintaining coverage under the general permit for the discharge of stormwater.
4. The company/agency operating and maintaining railroad facilities including stations, parking lots and garages, and maintenance buildings shall be responsible for acquiring and maintaining an individual permit for the discharge of stormwater.
