

ConnDOT Records Examining unit

The Records Examining Unit in the Section of Quality Assurance performs Intermediate and Final Reviews on construction projects and other offices within the Department of Transportation when called upon.

The primary goals of the unit include:

- Ensure that project records are maintained in conformance with current record-keeping procedures required by the Office of Quality Assurance, the Office of Construction and the Districts.
- Ensure that the project records meet the Federal requirements for the reimbursement of a project.
- Ensure that the records document field conditions in the case of a claim or dispute between the State and the Contractor.
- The goal is to have complete, uniform records for all projects.
