SECTION 1

MOTORCYCLE SAFETY OVERVIEW

Motorcycle Safety

The general goal of Connecticut's Motorcycle Safety Program is to reduce the number of injuries and deaths among motorcycle operators and passengers. Performance goals set during the previous planning period include reducing injuries by 20 percent per 10,000 registrations to 120 by the year 2009; and to decrease the percentage of fatally injured motorcycle operators with BAC greater than 0.00 percent to below 30 percent in 2010. The latest available data from 2007 indicates that there were 159 injuries per 10,000 motorcycle registrations this is an increase from 127 in 2006 and 134 in 2005. This data also indicates that 30 percent of motorcycle operators killed had a BAC greater than 0.00 percent. The specific trend data tabulated in the front section of this report shows a substantial decrease over the last 10 years.

During fiscal year 2008, the Department's Connecticut Rider Education Program (CONREP) continued efforts to increase student enrollments. The 3 levels of courses offered were held at 14 site locations throughout the State and included the Basic Rider Course (beginner), the Intermediate Rider Course, and the Experienced Rider Course. In 2008 each of the three safety course began to include street legal scooters. The beginner riders added scooters to the fleet of training motorcycles for use. To assure quality control, CONREP Instructors monitored the Program under the supervision of 3 chief instructors. In order to accommodate additional courses, CONREP trained and certified 20 new instructions. Preliminary data for 2008 indicates an all time high number of 6,290 students were enrolled in over 585 Connecticut Rider Education Program courses, an increase of 30 percent over the past 5 years. Student tuition and motorcycle registration fees collected from Connecticut motorcyclists provided the majority of funding for the training program.

Providing public information and education materials that promote safety is an important component of the Motorcycle Safety Program. A thirty minute television show was produced featuring Connecticut's Lieutenant Governor emphasizing the importance of wearing proper riding gear, completing a motorcycle safety course and sharing the road. The program is scheduled to air in the spring of 2009 on local cable television.

	2002	2003	2004	2005	2006
Motorcyclists Killed and Injured	1027	957	1055	1123	1135
Percent Motorcycle Fatalities Helmeted	35.0% (14 of 40)	28.0% (7 of 25)	37.7% (20 of 53)	35.0% (14 of 40)	35.0% (18 of 52)
Percent Motorcycle Injuries Helmeted	43.9% (391 of 890)	44.5% (377 of 847)	48.0% (438 of 912)	44.2% (440 of 996)	45.9% (454 of 990)

Motorcycle organizations and several Connecticut motorcycle dealerships helped in this effort by distributing safety materials. The materials included information on training course availability, safe riding gear, chemical impairment, safe riding tips, and motorist awareness of motorcycles. One popular item was the State motorcycle-specific map that incorporates NHTSA motorcycle safety educational information. CONREP was also represented and promoted at several grassroots events. Preliminary estimates indicate that over 2,500 Connecticut motorcyclists received NHTSA and State motorcycle safety education and rider impairment informational materials during this reporting period.

**Motorcyclist Operator Fatalities
Age Group, Alcohol Involvement and Speed
Five Year Total: 2002-2006**

Age group	MC Operator Fatalities	BAC ≥ .01%*		Speed as a Factor	
		#	%	#	%
<16	1	0	0.00%	1	100.00%
16-20	19	1	8.30%	10	52.60%

U.S.	18,921	5,177	39.90%	7,252	38.30%

* Based on actual state BAC data

A successful statewide campaign, "Open the Throttle. Not the Bottle," continued to address motorcycle rider impairment and the impact of alcohol, drugs, and fatigue on riding ability.

Funded by a NHTSA grant, the campaign was developed to increase awareness of the dangers of riding impaired with a focus on fatal injuries, and to encourage safe motorcycle riding practices. The campaign Web site (www.ride4ever.org) was designed for all Connecticut motorcyclists, but targeted males ages 25 to 40, who account for the largest number of riders on Connecticut roadways. The website contains impaired riding messages and includes downloadable ride maps, digital postcards, and articles. The site showed 20,000+ visits over the course of the year, with the bulk of them coming in the spring and summer. Partners in this Program include the American Motorcyclists Association, and the Connecticut Motorcycle Riders Association. The campaign continued throughout the year with public service announcements and campaign message events at motorcycle dealerships. Media efforts that focused on raising awareness of motorcycles on the road continued throughout the year.

CONREP received second year Section 2010 motorcycle safety funding from NHTSA. These funds were programmed to support the expansion of motorcycle rider training courses during 2009. This will include the addition of new motorcycles and other training equipment necessary to allow the program to offer more safety classes for novice riders. Additional funding will also be reserved to support our efforts to reduce rider impairment fatalities.

During 2008, approximately \$353,000 of federal funds (\$265,000 in Sections 402 and \$88,000 in Section 2010) and \$1,500,000 of State funds (Account 811 and course fees) was spent to accomplish these activities.
