

Rate of reported chronic/resolved hepatitis C per health department or district^, Connecticut, 2008

Rate *of chronic/resolved HCV per health department/district per 100,000

^Health Districts are defined towns, cities, boroughs united to form district departments of health and have a full time health director.

Number of confirmed chronic/resolved cases: 2451.
 Number of cases geocoded: 2326
 Chronic or resolved: a case with a positive anti-HCV result with a signal to cut-off predictive of a true positive as determined for the particular assay or confirmed with a more specific test (e.g. RIBA, PCR, genotype).
 Town of residence at first report.
 *Rate per 100,000 people based on 2000 census.
