Rate of reported hepatitis C, past or present

[^]Health Districts are defined towns, cities, boroughs united to form district departments of health and have a full time health director.

Number of past or present cases: 1886.
 Number of cases geocoded: 1780.
 Range of geocoded rate per town or district: 0 - 142.
 Town of residence at first report.
 Rate per 100,000 people based on 2010 census.

Hepatitis C, past or present: a case with a positive anti-HCV result with a signal to cut-off predictive of a true positive as determined for the particular assay or confirmed with a more specific test (e.g. RIBA, PCR, genotype).
