

QuickStats

December 9, 2008

- Periodically, CDC releases slide sets of HIV/AIDS surveillance data. The above slide is one of 27 slides now available specifically about the IDU transmission category. These slides are available at the link below. Other slide set topics include women, young adults, race/ethnicity, MSM, and other topics. Although most slides contain national data some slides like the one above provide illustrations of regional differences.
- Questions or to request PowerPoint graph, email: aaron.roome@ct.gov
