Monthly Compliance Reminder

The department may grant a public water system a waiver from the monitoring requirement for pesticides, herbicides and PCB if the department determines that the public water systems previous analytical results, collected from the source of supply and analyzed in accordance with the EPA's approved testing techniques and methodologies, showed no detectable limit of the contaminant to be waived and the source of supply is constructed and protected pursuant to sections 19-13-B32 and 19-13-B51d of the Regulations of Connecticut State Agencies. The waiver shall be in writing and is subject to renewal for each compliance period. (RCSA 19-13-B102e(7)(C)(xiv))

Administrative Contact

The Drinking Water Section requires all Public Water Systems to designate one Administrative Contact and a minimum of one Owner and one Legal Contact. All changes to current contact information shall be reported to the Drinking Water Section on the Contact Information Update form.

Please note the following:

1. All water quality monitoring results submitted to the Drinking Water Section (DWS) must include the information identifying the Water System Facility and the Sampling Point.
2. The residual disinfectant concentration must be measured at the same location and time as each total coliform sample and reported to the DWS, in accordance with RCSA 19-13-B102(e)(7)(A).
3. If a "Seasonal Collection Period" is specified, all water quality samples collected for compliance purposes must be collected during this period (i.e. Total Trihalomethanes, Total Haloacetic Acids, and Lead and Copper requirements).
4. Depending on results, additional monitoring may be required (i.e. repeat or confirmation samples). This schedule is subject to change, and any related correspondence sent by the DWS on or after the generation date of this schedule will have precedence over what is contained in this schedule.
5. Monthly summaries of chlorine residual, pH, orthophosphates, etc., are due no later than the ninth day of the following month.
6. Any owner or operator of a public water system must maintain records in accordance with the RCSA Section 19-13-B102(l).
7. **Please refer to the "Guide to Water Quality Monitoring Schedules" for more information on the content of this schedule.**

If you have any questions, please contact the Information Systems Unit at (860) 509-7333.
