	TITLE	# Eng	# Span
	<p>CT Immunization Registry & Tracking System (CIRTS) Introduces families to the CIRTS program and tells how this statewide database can help ensure that children receive all of the shots they need. Explains how children become enrolled in CIRTS, who has access to CIRTS information, and how parents can obtain their child's shot history. <i>8 pages, 3 1/2" x 8", Full-color photo illus. brochure.</i></p>		
	<p>Shots For Tots—The Importance of Immunization For Your Child Clearly explains why immunization is important for every child. Covers the leading childhood illnesses, and gives information on how to obtain a copy of your child's immunization history. Contains current childhood immunization schedule and references the Connecticut school and day care requirements. <i>16 pages, 5 1/2" X 8". Classic illustrated booklet</i></p>		
	<p>Protect Your Child with Vaccines Easy-reading resource stresses the vital role immunizations play in protecting children's health, lists the serious health problems associated with the illnesses that immunizations can prevent, and provides an immunization record. A must-read for parents! <i>16 pages, 5 1/2" x 8"</i></p>		
	<p>Shots – For Your Child's Health A must-have for parents of young children! Stresses the vital role immunizations play in protecting their child's health, lists the serious health problems associated with the illnesses that shots can prevent, and provides an immunization schedule. Also discusses possible side effects, and gives information for those who need help paying for shots. <i>8 pages, 3 1/2" x 8"</i></p>		
	<p>Vaccine Safety -- What Every Parent Should Know Emphasizes the benefits of vaccination and dispels common myths. Identifies the eleven diseases every child should be immunized against, citing their possible dangers. Reviews the standards that are in place to promote vaccine safety, tells parents what side effects to watch for and when to get help, and answers common questions. <i>16 pages, 5 1/2" x 8"</i></p>		
	<p>9 Reasons to Immunize Your Child This booklet underscores that immunizations are both safe and effective. It also provides a list of tips that describe vaccine-preventable diseases, reminds readers that outbreaks can occur due to a lack of vaccination, and explains that immunizations are the safest way to build immunity against many diseases. It reminds parents that it's never too late to get an older child vaccinated. <i>8 pages, 5 1/2" X 8". Full-color photo illustrated booklet</i></p>		
	<p>Protect Your Preteen or Teen with Shots—They're Not Just for Babies! This informative, motivational booklet teaches parents that shots are just as important for preteens as they are for infants and toddlers. It provides a handy chart of “catch-up” and older child immunization. Also included: brief explanations of diseases of special concern that shots can protect against, special issues and those considered at high risk. <i>8 pages, 5 1/2" X 8". Full-color photo illustrated booklet</i></p>		
	<p>Girls, Boys, and the HPV Vaccine – Information For Parents Compelling pamphlet helps parents understand what the HPV vaccine could mean for the health of their children. It clearly explains what the vaccine is and how it helps protect recipients from HPV and its complications, including cervical and other cancers. Emphasizes the importance of fully immunizing boys and girls before they become sexually active. Also contains a chart listing all recommended childhood immunizations, and urges parents to make sure children are up-to-date. <i>8 pages, 3 1/2" x 8"</i></p>		

	Vaccines For A Healthy Pregnancy Helps dispel fears and confusion about immunizations during pregnancy, and clearly presents the basic information all pregnant women should know—including both the shots they need and the shots they should avoid during pregnancy. <i>8 panels, 3 1/2" x 8"</i> <i>Full color photo illus. folder</i>		
	Why Get A Yearly Flu Vaccine? Emphasizes the importance of an annual flu shot, identifies who should get the vaccine, describes symptoms and complications, and discusses the two types of vaccine. Explains that the flu shot is safe and effective, discusses potential side effects, and answers common questions. <i>8 panels, 3 1/2" x 8"</i>		
	My Child's Immunization Record A pocket-sized personal 6-page booklet for parents to keep track of their child's shots and other routine tests during a child's checkup. Contains important phone numbers for CT resources.		<i>Comes bilingual</i>
	Reminder/Recall Postcards Recall your patients who have missed appointments or who are due for their well-child appointment. <i>Colorful, 4X6" when folded, HIPAA-compliant</i>		<i>Comes bilingual</i>
