HPV	9-18 years	YES	<b>NO</b>	90649
DTaP/IPV/Hib	2-59 months	YES	YES	90698

1 VFC eligibility is defined as follows: (a) Medicaid enrolled; (b) NO health insurance; or (c) American Indian or Alaskan native. In addition those individuals who are underinsured (have health insurance that does not fully cover immunizations) can be referred to a Federally Qualified Health Center (FQHC) to be immunized with VFC-supplied vaccine. Non-VFC Children refers to patients who have private insurance that fully covers the cost of immunizations.

2 Susceptible children who do not have a clinical history of chicken pox.

3 Td vaccine can be given to children 7-18 years of age to complete their primary series, or to those children 10-18 years old who are in need of a Tetanus containing vaccine and cannot receive Tdap.

4 A single dose of Tdap can be given to 13-18 year olds who are eligible for a Tetanus Diphtheria containing vaccine.
