

Lyme Disease Cases Statewide by Case Status

Connecticut, 1991 – 2008*

* Numbers and rates reflect changes in the reporting system and the national surveillance case definition (http://www.cdc.gov/ncphi/diss/nndss/casedef/lyme_disease_2008.htm). Surveillance has included physician-reporting (1987-present) and laboratory-reporting (1998-2002, 2006-present) components. The 2008 data contains both confirmed and probable cases as defined by the national surveillance case definition.
