Patient Financial Assistance

I. Purpose

Connecticut Children's Medical Center and Connecticut Children's Specialty Group, Inc. (collectively "CT Children's") are dedicated to improving the physical and emotional health of children through family-centered care, research, education and advocacy. We embrace discovery, teamwork, integrity and excellence in all that we do.

Accordingly, CT Children's is committed to providing financial assistance to families who have healthcare needs and are uninsured, underinsured, ineligible for other government assistance, or are otherwise unable to pay for emergent or other medically necessary care based on their individual financial situations. The purpose of this policy is to outline eligibility criteria, parameters, and the process for providing fair and consistent financial assistance to our patients and families.

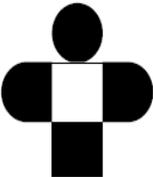

Financial assistance is only available for emergency or other medically necessary healthcare services. Not all services provided within a Connecticut Children's Medical Center hospital facility are covered under this Financial Assistance Policy ("FAP"). Please refer to Appendix A for a list of providers that provide emergency or other medically necessary healthcare services within a Connecticut Children's Medical Center hospital facility. This appendix specifies which providers are covered under this FAP and which are not. The provider listing will be reviewed quarterly and updated; if necessary.

II. Policy

It is the policy CT Children's to recognize and acknowledge the financial needs of patients and/or their families who are unable to afford the charges associated with their emergency or medically necessary healthcare services.

CT Children's will make every effort to be flexible and responsive to individual circumstances. In return, it is expected that patients and/or their families will honor their financial obligations to the extent they have the financial ability to pay for their medical services. Patients are expected to cooperate with CT Children's policies and procedures so that CT Children's remains able to provide care for those patients and/or their families whose circumstances in life are less fortunate.

It is the policy of CT Children's to provide, without discrimination, care for all emergency medical conditions to individuals regardless of their financial assistance eligibility or ability to pay. It is the policy of CT Children's to comply with the standards of the Federal Emergency Medical Treatment and Active Labor Transport Act of 1986 ("EMTALA") and the EMTALA regulations in providing a medical screening examination and such further treatment as may be necessary to stabilize an emergency medical condition for any individual coming to the emergency department seeking treatment. Additionally, CT Children's prohibits any actions that would discourage patients from seeking emergency medical care.

upon determination of financial need in accordance with this FAP. The granting of financial assistance shall be based on an individualized determination of financial need, and shall not take into account age, gender, race, social or immigrant status, sexual orientation or religious affiliation.

Eligibility for financial assistance is based on FPL, which is dependent upon family size and family income.

Please note, per CT Children's internal policies financial assistance eligibility will be determined in the following manner:

- Household income (patient + family members) will determine financial assistance eligibility if services rendered while the patient was a minor;
- The patients income and/or letter or support will determine financial assistance eligibility if services were rendered while the patient was over 17 years old;
- Household income will determine financial assistance eligibility if the patient is disabled and over 17 years old.

Eligibility determination is automated through Experian. If Experian is unable to process an application or there is a discrepancy in the results of an application, further information may be needed from the guarantor in order to complete the application process. Please refer to Section VI, Applying for Financial Assistance, for additional information.

Full Financial Assistance (Free Care)

Patients with family income at or below 250% of FPL are eligible for full financial assistance. These patients may qualify for a 100% discount of billed charges for emergency and medically necessary healthcare services or insurance cost shares (co-pays, coinsurance and deductibles).

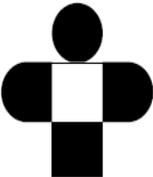

Partial Financial Assistance (Discounted Care)

Patients with family income over 250% but less than or equal to 500% of FPL are eligible for partial financial assistance. These patients may qualify for a 45% discount of billed charges for emergency and medically necessary healthcare services or insurance cost shares (co-pays, coinsurance and deductibles).

Patients who qualify for a 45% discount will be asked to establish a payment plan at the time of the application's approval. The financial counselor will collect the first payment at the time of establishing the payment plan.

V. Basis for Calculating Amounts Charged

In accordance with IRC §501(r)(5) CT Children's utilizes the Look-Back Method to calculate the AGB. The AGB % is calculated annually and is based on all claims allowed by Medicare Fee-for-Service + all Private Health Insures over a 12-month period, divided by the gross charges associated with those claims. The applicable AGB % will be applied to gross charges to determine the AGB. The AGB percentages for Connecticut Children's Medical Center and Connecticut Children's Specialty group are as follows:

Connecticut Children's Medical Center: 59%

Connecticut Children's Specialty Group: 77%

Any individual determined to be eligible for financial assistance under this FAP will not be charged more than AGB for any emergency or other medically necessary healthcare services. Any FAP-eligible individual will always be charged the lesser of AGB or any discount available under this policy.
