

# Home By One Program Building Integrated Partnerships with Connecticut Agencies, Parents & Providers

Tracey Andrews, R.D.H, B.S., Meghan Maloney, M.P.H.

Connecticut Department of Public Health, Office of Oral Health

## BACKGROUND

According to a 2006-2007 Survey of Connecticut Head Start Students:

- 31% had decay experience
- 20% had untreated decay
- 14% had rampant decay
- 18% were in need of treatment
- 1% were in need of urgent dental care

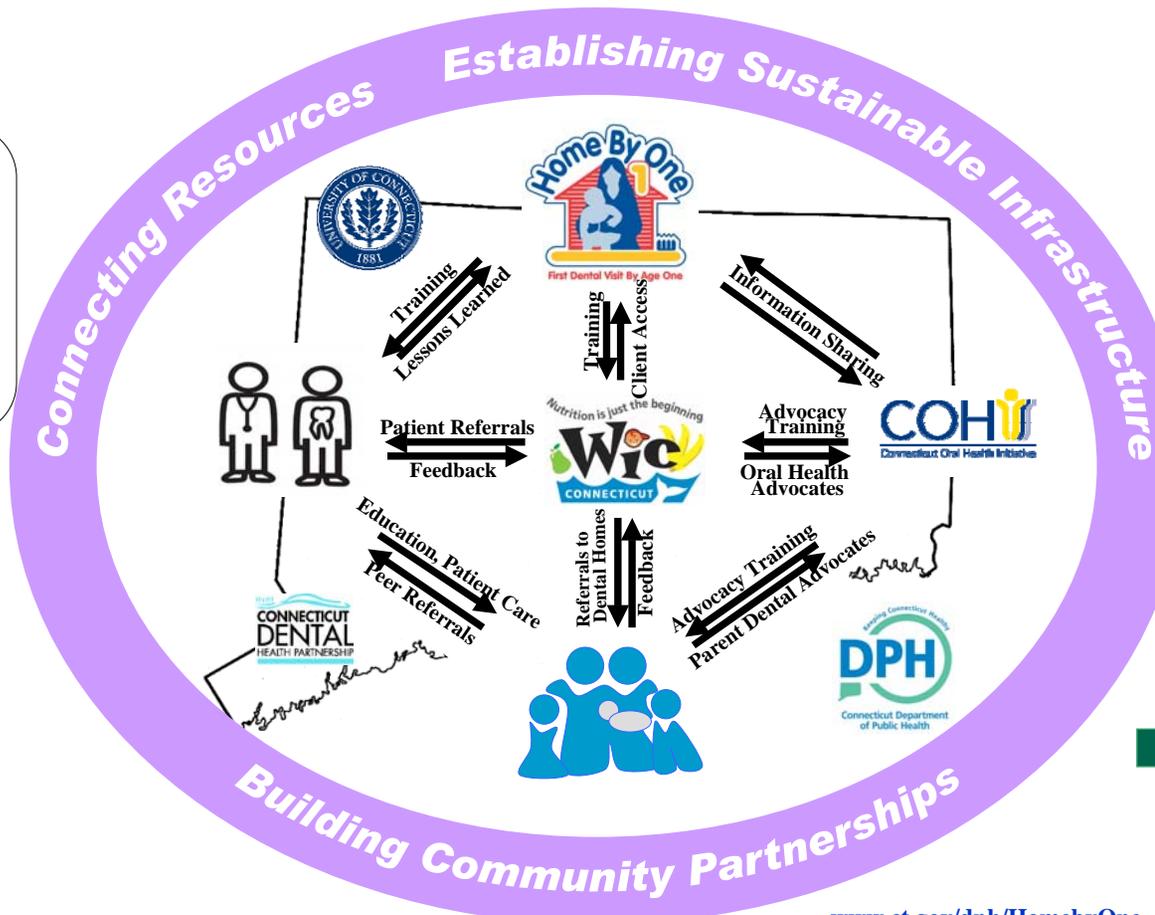

According to 2008 CMS 416 EPSDT Data For children under age 1

- CT ranked 43<sup>rd</sup> out of 48 states with only 0.16% of eligible children receiving any dental care
  - CT ranked 41<sup>st</sup> out of 48 states with only 0.04% of eligible children receiving preventive services
- For Children ages 1-2 years
- CT ranked 34<sup>th</sup> out of 48 states with only 11.2% of eligible children receiving any dental care
  - CT ranked 32<sup>nd</sup> out of 48 states with only 8.53% receiving preventive services
