

CANCER GENOMICS BEST PRACTICES

for Connecticut Healthcare Providers

PROVIDER ACTION PLAN

Include the collection of family health history information as part of the patient intake process.

Review patient records and determine if appropriate genetics referral/services were provided.

Follow up with patients who may be at increased risk for hereditary cancers and have not received genetic services.

Generate referral to a genetics specialist in your area (see *Cancer Genetic Counselors in Connecticut*).

Provide appropriate management and care based on genetics consultation note and/or genetic test results.
