

Health Information Technology and Exchange of Connecticut
Technical Committee Minutes
November 03, 2011
1:00 PM – 3:00 PM

Attendees: Peter Courtway, Lori Reed-Fourquet, John DeStefano

Guests: Nick Demetriades, Sammy Hindaoui (NextGate), Marc Maki (St. Francis), Marc S, Rob Zwinak (GE)

The meeting began at 1:00 PM.

The Technical Committee reviewed service packages and the meeting results include the following:

- Peter Courtway will look into EMPI (centralized)
- John DeStefano sees the possibility of the EMPI – that the initial first certification seems very possible
- Nextgate agrees that this is possible
- Lori questions if it is worth pursuing?
- The question of centralized versus decentralized was brought up
- John DeStefano believes only a select group of hospitals should be piloted
- Marc S – EMPI Architecture – system can be restricted on search
- Governance of data needs to be determined
- Governing body that deals with demographics
- What is most efficient way to share data?
- Develop SOPs
- Legal & Policy Committee will question what can and cannot be shared
- Who are participants?
- Who gets into what?
- Sample files with format needed

There was no public comment.

Meeting was adjourned at 3:00 PM
