The meeting began at 1:00 PM.

The Technical Committee reviewed security cases and technical feasibility and options. The main areas to highlight are:

- Gregg Prothero will work on – Security, Identity access control – central access through LDAP
- Working on Automatic Synchronization main directory for credentials
- LDAP will manage with email addresses
- Provisioning with identity manager
- Identities are in Provider Index
- Web based access to use single sign on
- Who provides Certificates? Commercial or private?
- Access to portal to be tightened
- Tom Healy will look at interface for more security
- Multilayer passwords?
- RSA keys used?
- Lori Reed Fourquet to work with Angela DeWeese on Reports that will be needed.
- Reports to be administered through HITE-CT
- Tom Healy – OPT IN/ OPT OUT: patients will OPT IN as default can OPT OUT with signed form
- 5 levels of Sensitivity – privileged care is OPT IN by consent
- “Break Glass” policy – emergency care only: who? Physicians and EMTs and possible locations

There was no public comment.

Meeting was adjourned at 3:00 PM
